There were no reserves against contract value for credit risk of the contract issuer or otherwise. The average effective yield, which is equal to the crediting interest rate, was approximately 1.45% for the year ended December 31, 2012. The crediting interest rate is based on an agreed-upon formula with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

If the Great-West group annuity contract is terminated and the Plan elects to receive the balance of the Great-West guaranteed account in a lump sum, the Great-West guaranteed account is subject to a market value adjustment. The market value adjustment is dependent on the current U.S. Treasury rate.

No withdrawals have been subject to a contract surrender fee for the year ended December 31, 2012.

In addition, the Plan allows participant loans.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and notes to financial statements. Actual results could differ from those estimates.

Note A – Summary of Significant Accounting Policies (Continued)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

In 2011, participants' loans of $22,657 were deemed uncollectible, of which, however $14,840 were collected during 2012.

Subsequent Events

The Plan has evaluated subsequent events through July 1, 2013, the date the financial statements were available for issuance.

Note B – Description of the Plan

The following description of the Plan provides only general information. Interested persons should refer to the Plan document or the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was established on October 1, 1993 and was restated effective January 1, 2002. The Plan has been amended numerous times since it has been established. The purposes of the Plan amendments were to comply with tax law changes and to make changes in the Plan's design.

The Plan allows employees (other than excluded employees) to participate in the Plan upon employment. For the nonelective discretionary employer contribution and the employer matching contribution portions of the Plan, employees are eligible to participate beginning on the first quarterly entry date following one year of employment. An employee is an excluded employee if he or she is an employee covered by collective bargaining, a nonresident alien who receives no United States source income, or an employee of one of the employer's related group of companies who is not participating in this Plan.

The Plan provides assistance toward meeting an eligible employee's retirement needs by 1) allowing Bay Ship and Yacht Co. (the Company) to make discretionary contributions, 2) allowing eligible employees to defer a portion of their compensation, and 3) allowing the Company to make matching contributions to the Plan equal to 100 percent of employee salary deferrals up to $1,000. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent laws.

Nonelective Discretionary and Employer Matching Contributions

Nonelective discretionary Company contributions, as determined by the Board of Directors on a quarterly basis, are accrued in the Plan financial statements once declared by the Board of Directors. Discretionary contributions are allocated among eligible plan participants, generally in proportion to each eligible participant's eligible compensation for that plan year.

Note B – Description of the Plan (Continued)

Nonelective Discretionary and Employer Matching Contributions (continued)

Generally, plan participants eligible to receive an allocation of the Company's nonelective contribution include employees who have completed at least one year of employment and 1,000 hours of service during the plan year and are employed on the last day of the quarter, and participants who terminated employment with the Company because of death, disability, or reaching the normal retirement age of 65 during such plan year, regardless of such participant's hours of service during the year.

Nonelective discretionary contributions and employer matching contributions vest over six years. A year of vesting occurs when 1,000 hours of service during a plan year is completed. Full and immediate vesting occurs upon retirement, death, or total disability. Nonvested account balances for participants who terminate employment are forfeited. These forfeitures are used to pay administrative expenses, reduce Company matching contributions, or reduce Company nonelective discretionary contributions.

Employer matching contributions to the Plan are intended to qualify under Section 401(m) and related provisions of the Internal Revenue Code.

For the plan year ended December 31, 2012, the Company paid $166,836 of matching contributions, and $240,000 of non elective discretionary contributions, and accrued a nonelective discretionary contribution of $480,000 to the Plan.

Effective August 5, 2002, a participant's nonforfeitable percentage of his matching and nonelective discretionary contribution accounts equal the percentage in the following vesting schedule:

Years of Service with the Company	Percent of Nonforfeitable Accrued Benefit
Less than 2	None
2	20%
3	40%
4	60%
5	80%
6 or more	100%

All nonelective discretionary and matching contributions are invested as directed by participants among investment vehicles which are preselected by the Trustees of the Plan. Distributions of vested balances are made upon employee termination or retirement by a participant. In the case of a participant's death, distribution is made to the designated beneficiary.

Employee Deferral Contributions

Employee deferral contributions to the Plan are intended to qualify under Section 401(k) and related provisions of the Internal Revenue Code.

Note B – Description of the Plan (Continued)

Employee Deferral Contributions (continued)

Eligible participants may elect to contribute up to 100% of their eligible compensation, but not to exceed statutory limits, to the Plan through payroll deductions. Participants are able to change their rate of contributions quarterly.

Participants direct the investment of their employee deferral contributions among the available investment vehicles. All employee deferral contributions are fully vested when contributed.

Forfeitures

For the year ended December 31, 2012, $18,084 of forfeitures was used to pay administrative expenses of the Plan.

At December 31, 2012 and 2011, the unused forfeited nonvested profit sharing and employer matching account totaled $106,336 and $40,695, respectively. Forfeited nonvested profit sharing and matching funds will be used to pay administrative expenses of the Plan and/or reduce future Company elective discretionary contributions and matching contributions.

Payment of Benefits

Upon a participant's termination of employment, death, or disability, the participant (or the participant's beneficiary in the event of death) may elect to receive either a lump sum distribution equal to the value of his or her account, equal installment payments over the period of the life expectancy of the participant or the life expectancy of the participant and a designated beneficiary, or direct trustee to trustee rollovers. Vested account balances with a value below $5,000 are required to be distributed in a lump sum. No amounts were payable to terminated participants who had requested distributions at December 31, 2012 or December 31, 2011.

Additionally, the Plan allows participants to make withdrawals on account of financial hardship for selected purposes.

Participant Loans Receivable

Participants may borrow against their vested balances for any reason. The loan provisions are structured to allow access to vested balances without incurring distribution penalties. The loan amount, length of loan, repayment terms, and interest rates are limited by statutory restrictions incorporated in the Internal Revenue Code and related regulations.

Plan Administration

The Trustee of the Plan is Great-West Trust Company. In addition, certain administrative services were provided by Great-West and Uniglobal Pension Planning, Inc.

Note D – Fair Value Measurements

Accounting Standards Codification (ASC) 820

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note D – Fair Value Measurements (Continued)

Accounting Standards Codification (ASC) 820 (continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (See Note A).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Note E – Income Tax Status

The Plan has adopted a prototype plan, which received its latest favorable determination letter dated March 31, 2008. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Note E – Income Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. No uncertain positions have been identified that would require recognition of a liability (or asset) or disclosure in the financial statements as of December 31, 2012. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

Note F – Termination

While the Company has not expressed any intent to terminate the Plan, it is free to do so at any time. In the event of termination, the full value of each participant's account shall be 100% vested on the date of such termination.

Note G – Information Certified by the Plan's Custodian/Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Great-West, except for comparing such information certified by Great-West to information included in the Plan's financial statements and supplemental schedule of assets held for investment purposes at end of years:

	December 31,	
	2012	2011
Investments	$ 9,871,856	$ 9,979,064
Guaranteed investment contracts	$ 1,288,672	$ 1,366,190
Net investment income (loss)	$ 1,411,203	$ (339,441)
Participant loans	$ 524,401	$ 752,725

Note H – Party-In-Interest Transaction

For the plan year ended December 31, 2012, administrative expenses of $49,287 were paid by the Plan. Administrative expenses consisted of fees to a third party administrator, participant loan fees, and annual auditing fees. Administrative fees for loan processing and distributions in the amount of $13,480 were paid by Plan participants.

Note H – Party-In-Interest Transaction (Continued)

The Plan invests in mutual funds managed by Great-West, the administrator and custodian. Additionally, Orchard Trust Company, a company wholly owned by Great-West, is the Trustee of the Plan. Other than as described above, the Plan has no agreements or transactions with any party-in-interest.
