NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

1. Description of Plan

The following description of the BK Global, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Effective September 14, 2012, a new trustee, administrator and custodian of the Plan were appointed. The conversion initiated a blackout period beginning September 10, 2012 and ending on October 2, 2012. During this period, employee contributions continued to be made through payroll deductions. The funds were held at The Hartford until September 25, 2012, when they were transferred to John Hancock Life Insurance Company (U.S.A.). During this period, funds continued to be applied to investments with the prior custodian, but could not be withdrawn from the Plan until the custodian had time to accurately complete the conversion. The provisions of the restated plan document are substantially equivalent to the provisions of the prior plan document.

General

The Plan is a defined contribution plan covering all eligible employees of BK Global, Inc. (the "Company" or "Employer"). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

All employees who have accrued 6 months of service with the Company and have attained age 21 are eligible for participation. Employees who have satisfied the eligibility requirements may begin participating on the first day of the month coinciding with or next following the date they satisfy the Plan's eligibility requirements.

Contributions

Participants may contribute a percentage of their annual compensation, subject to limits established by the Internal Revenue Service on a pre-tax basis pursuant to Section 401(k) of the Internal Revenue Code or on an after-tax basis.

The Company may make discretionary matching contributions to the account of each eligible participant based on a percentage of the participant's income and contributions for the year. No discretionary matching contributions were made for the years ending December 31, 2012 or 2011.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions and actual earnings thereon. Earnings are allocated to each participant's individual fund account based on the earnings of the individual investment options chosen by the participant and as defined by the Plan document. Participants may make changes to their investment allocation at any time. Investment income is recorded daily. Participant accounts are also charged an allocation of administrative expenses.

1. Description of Plan (continued)

Payment of Benefits
Participants who terminate employment with the Company for reason other than death, disability or attainment of normal retirement age will be entitled to receive the vested percentage of their account balance. The normal retirement date is the date the participant attains age 65. The plan does not provide for early retirement. In the event of a participant's death, the beneficiary is entitled to 100% of the participant's account balance. Benefit payments are made in installments subject to certain restrictions as defined in the plan document and lump sum disbursements.

Vesting
Participants are immediately vested in their elective deferral contributions, rollover contributions and any earnings thereon.

Participants vest in employer matching contributions, and any earnings thereon, based on years of continuous service according to the following schedule:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures
Upon separation from service for any reason other than retirement, participants forfeit any unvested portion of their employer matching contributions. Forfeitures may be used to pay the Plan's administrative expenses and to reduce employer matching contributions. The forfeiture balance at December 31, 2012 and 2011 was $146 and $147, respectively. No forfeitures were used to pay the Plan's administrative expenses for the years ended December 31, 2012 and 2011.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50 percent of their vested account balance. Loans are collateralized by the participant's account balance and bear interest at a fixed rate based on the prevailing rate on the date of funding. Principal repayments and the interest on outstanding balances are deducted ratably from the participant's pay.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan offers a number of investment options to participants that are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants represent loans and are stated at amortized cost. Interest income is recorded on the accrual basis.

No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
Subsequent events have been evaluated through the date of the independent auditor's report, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Quoted market prices are used to value investments in mutual funds, which are publicly traded funds of registered investment companies, and common stock.

Pooled separate accounts: Valued at the net asset value (or unit value) of the units held by the Plan at year-end based on information reported by the custodian. The NAV of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and is determinative of their fair value and represent the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request. There were no significant unfunded commitments as of December 31, 2012.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total

5. Information Prepared and Certified by the Trustee and Custodian (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information as of December 31, 2012 and December 31, 2011 and for the year ended December 31, 2012 included in the accompanying financial statements and supplemental schedule was provided and certified by Reliance Trust Company from January 1, 2012 to September 14, 2012 and for the year ended December 31, 2011 and by John Hancock Insurance Company from September 14, 2012 to December 31, 2012 and as of December 31, 2012 as being complete and accurate:

	December 31,	
	2012	2011
Cash	**$ 146**	$ -
Pooled separate accounts, at fair value	**3,240,237**	-
Mutual funds, at fair value	-	2,615,475

Net appreciation in fair value of pooled separate accounts		**32,639**
Dividend income		**20,203**
Interest income from notes receivable from participants		**3,254**

As permitted under such election, the Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Plan uses a prototype plan document sponsored by Nova 401(k) Associates. Nova 401(k) Associates received an opinion letter from the IRS dated July 1, 2009, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.
