Independent Auditor's Report

The Retirement Committee MWI Veterinary Supply, Inc. 401(k) and Profit Sharing Plan Boise, Idaho

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of MWI Veterinary Supply, Inc. 401(k) and Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we are not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of December 31, 2012 and 2011 and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note 1 - Description of the Plan

The following description of the MWI Veterinary Supply, Inc. 401(k) and Profit Sharing Plan (the Plan), is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a multiple employer defined contribution plan covering substantially all benefits-eligible employees of MWI Veterinary Supply, Co. and of Feeders Advantage, LLC (the Companies). The Retirement Committee of the Companies controls and manages the operation and administration of the Plan. Fidelity Management Trust Company (Fidelity) serves as trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

To become eligible for 401(k) contributions, employees must have full-time or part-time status, have attained the age of 21 and maintained 90 days of benefits-eligible status. The profit sharing component of the Plan requires participants to have attained age 21 with two years of service with a minimum of 1,000 hours per year.

Entry Dates

Employees eligible to participate begin participating in the Plan's deferral and matching contributions the first day of the month coinciding with or following the date they satisfy the Plan's deferral and matching eligibility requirements. Employees are eligible to participate in profit sharing on the first day of January or July coinciding with or following the date they satisfy the Plan's profit sharing eligibility requirements.

Contributions

Each year, participants may contribute up to 60% of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code (IRC) limitations. On a quarterly basis, the Companies contribute 50% of the first 6% of gross compensation that a participant contributes to the Plan. The additional profit sharing may be contributed at the discretion of MWI Veterinary Supply, Inc.'s board of directors and Feeders Advantage's board of managers. Discretionary contributions were made for the years ended December 31, 2012 and 2011, at 3% of gross earnings, up to federal maximums, to all qualifying employees eligible for the profit sharing contribution. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

The Plan instituted automatic enrollment, effective November 8, 2010, to be applied to all nonparticipating employees, in which the Plan sponsor will automatically withhold 3% of the employee's compensation upon becoming eligible to participate unless otherwise elected by the participant.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Companies' matching contributions, and allocations of Companies' profit sharing contributions and Plan earnings, and charged with withdrawals and an allocation of Plan losses. Participants pay a quarterly administrative fee, and may, from time to time, participate in sharing of qualified Plan expenses that are directly related to the maintenance and administration of the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers numerous mutual funds, a money market, and a common collective trust as investment options for participants. Should a participant fail to make an investment election, funds are defaulted to the Fidelity Balanced Fund.

Vesting

Participants are vested immediately in their contributions and profit sharing plus actual earnings thereon. Vesting in the Companies' contribution portion of their accounts is based on years of continuous service. In general, a participant vests at a rate of 20% a year, and therefore is 100% vested after five years of credited service for the 401(k) matching contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts at a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The notes are secured by the balance in the participant's account and bear interest as rates commensurate with local prevailing rates at the time funds are borrowed as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless the proceeds of the note are to be used to acquire the participant's residence, in which case the note will be 20 years. A participant may have no more than two outstanding loans at any one time.

Payment of Benefits

On termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or in installment payments under a systematic withdrawal plan. A terminated employee with a balance of less than \$1,000 may be automatically paid out by the Plan upon termination. Distributions may be made at the participant's election prior to termination upon attainment of age 59 1/2 as defined in the Plan document.

Death Benefits

The designated beneficiary is entitled to a death benefit distribution equal to the participant's vested account balance.

Forfeited Accounts

As of December 31, 2012 and 2011, forfeited nonvested accounts totaled \$56,665 and \$25,447, respectively. The Plan forfeiture account will be used to reduce future employer contributions. For the years ended December 31, 2012 and 2011, \$30,000 and \$30,000, respectively, of forfeited nonvested accounts from the Plan forfeiture account were used to offset employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who had elected to withdraw from the Plan but had not yet been paid at December 31, 2012 and 2011.

Administrative Expenses

Administrative expenses of the Plan are paid by the participants and Plan sponsor as provided in the Plan document.

Subsequent Events

The Plan sponsor has evaluated subsequent events through July 12, 2013 the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan's investments, all participant-directed, that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011, are as follows:

**Item did not meet the 5% threshold in year presented.

During the years ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	 2012	 2011
Mutual funds	\$ 4,734,351	\$ (2,377,907)

The classification of investment earnings reported above and in the statement of changes in net assets may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Money Market Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

<u>Common/Collective Trusts</u>: Valued at fair value based on the net asset value (NAV) of the observable market prices of the underlying assets held in the fund. The NAV is based on the fair value of the observable market prices of the underlying assets held by the fund less liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurement and Disclosure (Topic 820): Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent) requires disclosures of certain attributes in entities that calculate a net asset value per share (or its equivalent) and do not have a readily determinable fair value. The following table sets forth the disclosure of the attributes at December 31, 2012 and 2011:

			20	12	
	F	air Value	inded itments	Redemption Frequency	Redemption Notice Period
Common/Collective Trust	\$	259,760	\$ -	Daily	Daily
			201	11	
	F	air Value	inded itments	Redemption Frequency	Redemption Notice Period
Common/Collective Trust	\$	114,822	\$ -	Daily	Daily

The Common/Collective Trust's objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the Fund invests in a fixed-income security portfolio of fixed-income securities and a value guarantee (wrapper) provided by a third party.

The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of levels 1, 2, or 3.

Note 5 - Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

Fidelity and 401k Advisors also provide recordkeeping services to the Plan. Fees paid to Fidelity and 401k Advisors for recordkeeping services during the year ended December 31, 2012, were \$28,138 and \$28,000, respectively. Fees paid to Fidelity and 401k Advisors for recordkeeping services during the year ended December 31, 2011, were \$43,465 and \$21,000, respectively.

Note 6 - Plan Termination

Although it has not expressed any intention to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

Note 7 - Federal Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Companies by a letter dated, March 22, 2011, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC through Plan amendments effective as of February 19, 2011. The Plan has been amended since receiving the determination letter. However, the Companies and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8 - Information Certified by the Trustee (Unaudited)

The Plan Administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by Fidelity Management Trust Company, the trustee of the Plan.

The Plan trustee has certified its statement of accounts as of December 31, 2012 and 2011 and for the years then ended. The statement of accounts includes beginning and ending balances of investments held, notes receivable from participants, and detail of all transactions during the period, including investment earnings and interest income on notes receivable from participants.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Plan Amendment

Effective June 1, 2012, the Plan was amended so that temporary employees could participate after meeting eligibility criteria of 1,000 hours of service during the Eligibility Computation Period.

Note 11 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011 to Form 5500:
