We were engaged to audit the financial statements and supplemental schedule of InTouch Solutions, Inc. 401(K) Profit Sharing Plan and Trust as of December 31, 2012 and 2011. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Union Central Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian for the year ended December 31, 2012 and 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investments

The Plan's investments in insurance company pooled separate accounts and registered investment companies (mutual funds) are stated at fair value as reported by Union Central Life Insurance Company. The estimated fair values of the pooled separate accounts with Union Central Life Insurance Company have been determined based on the unit values of the accounts. Unit values are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Investment income includes realized gains or losses, interest income, dividend income and the unrealized appreciation (depreciation) on these investments.

Use of Estimates

The Plan administrator uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities and the changes therein, and disclosure of contingent assets and liabilities. Actual results could vary from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

The Employer has elected to pay all plan related expenses except for certain expenses which are intrinsic to the value of the Trust assets such as brokerage commissions.

DOL Limited Scope Audit

There is certification statement on Separate Account Annual Statement, Accounting Summaries and/or Schedule A information furnished pursuant to 29 CFR 2520.103-5 (c) are complete and accurate furnished by Union Central Life Insurance Company.

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value for investment options offered by The Union Central Life Insurance Company and the Daily Access. Assets held outside Group Annuities with UNIFI must be categorized by their custodian. The level classifications and descriptions discussed below are based on the judgment of the Union Central Life Insurance Company. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011.

Pooled Separate Accounts and Registered Investment Companies: Valued at the net asset value (NAV) of shares held by the plan at year end and are classified in Level 2 of the fair value hierarchy. These funds are considered open-end mutual funds, meaning that the fund is ready to redeem its shares at any time and offers its shares for sale to the public, either through retail outlets or through institutional investors continuously. For

institutional funds, NAV's are received daily from fund managers, and the managers stand ready to transact at these quoted amounts.

The insurance company custodian (Union Central) transacts in these funds on a daily basis as part of the separate account trading activity. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Money Market Funds are classified in Level 1 of the fair value hierarchy as fair value is based on quoted prices in active markets for identical securities

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 5 – PLAN TERMINATION

Although the Employer intends to maintain the Plan indefinitely, the Employer reserves the right to terminate the Plan at any time under the provisions of ERISA. Upon termination, no further contributions will be made to the Plan and all amounts credited to your accounts will become 100% vested. The Employer will direct the distribution of your accounts in a manner permitted by the Plan as soon as practical. You will be notified if the Plan is terminated.

NOTE 6 – INCOME TAX STATUS

The Plan has adopted a prototype cash or deferred profit sharing plan. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designed.

NOTE 7 – RELATED PARTY TRANSACTIONS

Certain administrative costs are paid by the Company.

NOTE 8 – RECLASSIFICATION

There has been no reclassification made to the 2012 or 2011 financial statements.

NOTE 9 – SUBSEQUENT EVENTS

The Plan did not have any subsequent events through July 22, 2013 or September 24, 2012, which is the date the financial statements were available to be issued, requiring recording or disclosure in the financial statements for the year ended December 31, 2012 and 2011.

NOTE 10 - RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. The participants direct their investment choices. See **Note 1 Contributions**.
