THEREX 401(K) PLAN

Notes to the Financial Statements

December 31, 2012 and 2011

(1) Description of plan

The following description of the TherEX 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) Eligibility

The Plan is a defined contribution plan which was adopted on January 1, 1999 to provide retirement benefits for employees of TherEX, Inc. (the "Plan Sponsor"). Previously, the Plan covered substantially all full-time employees who were age twenty-one or older and had completed 1,000 hours of service. Effective November 1, 2011, the Plan was amended to cover substantially all employees who have completed 500 hours of service within a six consecutive month time period or 1,000 hours within a twelve month time period following their date of hire ("participants"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Contributions

Participants may voluntarily make qualified retirement contributions to the Plan which are deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan Sponsor may make matching contributions at a percentage of participant contributions authorized by the Plan Sponsor's management; however, matching contributions by the Plan Sponsor are not required. The Plan Sponsor suspended matching contributions in September 2011 and did not resume matching contributions until May 2012. There were \$92,440 and \$129,954 in matching contributions made in 2012 and 2011, respectively. The Plan also provides that the Plan Sponsor may contribute an additional annual discretionary contribution as authorized by the Plan Sponsor's management. No additional discretionary contributions were made during 2012 or 2011.

Plan Sponsor and participant contributions may not exceed the maximum amount deductible for federal income tax purposes.

(c) Participant accounts

Each participant's account is credited or charged with the participant's contributions and allocations of Plan Sponsor contributions, investment earnings (losses) and administrative expenses. Allocations are based on participant compensation or account balances as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

THEREX 401(K) PLAN

Notes to the Financial Statements

December 31, 2012 and 2011

(d) Vesting

Participants are immediately vested in their elective salary deferral plus actual earnings (losses) thereon. Vesting in the Plan Sponsor contributions is based on years of credited service. Participants receive one year of credited service for completing 1,000 hours of service between January 1 and December 31. Participants vest 20% each year, beginning in the second year, and are fully vested after six years of credited service.

(e) Notes receivable from participants

Prior to March 1, 2008, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the respective balances in the participant's vested accounts and bear interest at fixed rates ranging from 6.00% to 8.25%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are collected ratably through payroll deductions. Effective March 1, 2008, the Plan was amended to no longer allow the issuance of any new notes receivable to participants.

(f) Payment of benefits

On termination of service due to death, permanent disability, or retirement, a participant may elect to receive either a lump-sum payment or annual installments over a specified period equal to his or her entire account balance. For termination of service due to other reasons, a participant will be entitled to receive only the vested interest in his or her account balance as a lump-sum distribution.

(g) Forfeited accounts

Forfeitures are created when participants terminate employment prior to becoming fully vested in the Plan Sponsor contribution portion of their accounts. Such forfeitures are used to reduce any Plan Sponsor contributions to the Plan. During 2012 and 2011, forfeitures of \$36,755 and \$13,908 were used to reduce Plan Sponsor contributions, respectively. Forfeited nonvested amounts outstanding totaled \$1,783 and \$32,386 at December 31, 2012 and 2011, respectively.

(h) Hardship withdrawals

The Plan permits distributions in the event of a hardship, as defined in the plan agreement. These distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Hardship withdrawals are limited to the participant's elective account balance. Participants are not permitted to defer withholdings for up to six months following a hardship withdrawal.

(i) Administrative expenses

Certain administrative expenses are paid by the Plan.

Notes to the Financial Statements

December 31, 2012 and 2011

(j) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their account balances.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

The Plan's investments include a benefit-responsive investment contract which is presented at contract value in the statement of net assets available for benefits. The statement of changes in net assets available for benefits is also presented on a contract value basis.

(b) Investment valuation and income recognition

The Plan's investments are stated at fair value or contract value as reported by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

(c) Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

(d) Payment of benefits

Benefits are recorded when paid.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

THEREX 401(K) PLAN

Notes to the Financial Statements

December 31, 2012 and 2011

(f) Reclassifications

Certain items in the 2011 financial statements have been reclassified to conform to the presentation of the 2012 financial statements. These reclassifications had no effect on net assets available for benefits or changes therein, as previously reported.

(g) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between December 31, 2012 and July 25, 2013, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Summary of information certified by the custodian

The following information was certified as complete and accurate by Transamerica Life Insurance Company ("Transamerica"), custodian, as of and for the years ended December 31, 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Investments	\$ <u>6,820,149</u>	\$ <u>5,739,655</u>
Net change resulting from investment activity	\$ <u>720,965</u>	\$ <u>(75,896)</u>

Notes receivable from participants and related interest income are not certified by Transamerica.

(4) Fair value measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

THEREX 401(K) PLAN

Notes to the Financial Statements

December 31, 2012 and 2011

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- (i) *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.**
- (ii) *Investment contract:* Valued at fair value based on the amount the Plan Sponsor would receive if they terminated the contract at the reporting date, which is book value less an early withdrawal charge, discounting the related cash flow based on current yields of similar investments with comparable duration considering the creditworthiness of the issuer.**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Investments and investment income

The value of investments that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
Vanguard Total Stock Market Index Fund	\$ <u>609,939</u>	\$ <u>521,287</u>
Vanguard Mid Cap Index Fund	\$ <u>521,801</u>	\$ <u>497,354</u>
Vanguard Small Cap Index Fund	\$ <u>586,190</u>	\$ <u>522,271</u>
American Funds EuroPacific Growth Fund	\$ <u>450,963</u>	\$ <u>389,150</u>
Vanguard LifeStrategy Moderate Growth Fund	\$ <u>954,066</u>	\$ <u>760,805</u>
Vanguard LifeStrategy Growth Fund	\$ <u>1,056,270</u>	\$ <u>832,152</u>
Transamerica Stable Value Compass, at contract value	\$ <u>895,313</u>	\$ <u>852,750</u>

During 2012 and 2011, the Plan's net appreciation (depreciation) in fair value of investments (including gains and losses on investments bought and sold, as well as held during the year) was solely attributable to mutual funds.

(6) Investment contract with insurance company

As of December 31, 2012 and 2011, the Plan maintained one investment contract related investment option with Transamerica, the Stable Value Compass fund. The contract underlying this investment option is considered to be fully benefit-responsive. As of December 31, 2012 and 2011, the contract value of the investment in the Stable Value Compass fund was \$895,313 and \$852,750, which equals fair value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The average yield and interest credited to participants was 0.50% and 0.95% for the years ended December 31, 2012 and 2011, respectively. Interest rates are reset monthly at the beginning of the month.

The terms of the contract require all permitted participant initiated transactions to occur at contract value. Since the contract is the obligation of Transamerica, the plan administrator believes the occurrence of an event that limits the ability of the investment to transact at contract value is not probable. The contract allows participants reasonable access to their assets. The contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

THEREX 401(K) PLAN

Notes to the Financial Statements

December 31, 2012 and 2011

(7) Income tax status

The Plan Sponsor adopted a prototype non-standardized profit sharing plan, which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, which stated that the prototype plan was designed in accordance with the applicable sections of the IRC. The prototype plan has been amended since receiving the opinion letter, and the Plan itself has not received a determination letter from the IRS stating that the Plan is qualified under Section 401(a) of the IRC. However, the plan administrator believes that the adopted prototype plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and is, therefore, qualified and exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(8) Untimely remittance of participant contributions

The Plan Sponsor is required by Department of Labor regulation to remit participant contributions as soon as practicable, but by no later than the fifteenth business day following the end of the month in which the amounts were withheld from wages. Contributions withheld on various payroll dates during the year ended December 31, 2011 totaling \$72,932 were not remitted for periods ranging from 8 to 18 business days after the payroll date.

(9) Related party transactions

Certain Plan investments are an investment contract managed by Transamerica, the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid by the Plan to the custodian amounted to \$38,838 and \$34,608 in 2012 and 2011, respectively. The Plan also holds notes receivable from participants which also qualify as party-in-interest transactions.

(10) Risks and uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
