MONDI JACKSON, INC. RETIREMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 And 2011

1. Description Of The Plan

The following description of the Mondi Jackson, Inc. Retirement Program (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Mondi Jackson, Inc. (the Company or Plan Administrator) who are age 18 or older and are not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

During 2012, the Plan was amended to change the name of the Plan from Nordenia U.S.A. Retirement Program to Mondi Jackson, Inc. Retirement Program.

Contributions

Participants may contribute between 1% and 100% of pretax annual compensation, as defined in the Plan Document, and subject to Internal Revenue Service (IRS) limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company made a discretionary matching contribution which was equal to 50% of a participant's contributions in 2012 and 2011, up to a maximum dollar amount of \$1,000 per Plan year. The matching contribution amounted to \$282,485 and \$324,187 for the years ended December 31, 2012 and 2011, respectively, and is included in Company contributions.

A discretionary profit sharing contribution may be made at the option of the Company's Board of Directors to participants employed by the Company on the last day of the Plan year. The profit sharing contribution amounted to \$423,247 and \$584,173 for the years ended December 31, 2012 and 2011, respectively, and is included in Company contributions.

MONDI JACKSON, INC. RETIREMENT PROGRAM

Notes To Financial Statements (*Continued*)

Participant Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Company contributions is based on years of continuous service. A participant is 100% vested after five years of credited service as follows:

<u>Years Of Service</u>	<u>Vesting</u>
1	20%
2	30%
3	40%
4	80%
5	100%

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Company contributions, Plan earnings, and charged with allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment Of Benefits

On termination of service due to death, disability, retirement, or separation from the Company, a participant may elect to receive either a lump-sum distribution or one of several forms of annuities, as defined in the Plan Document.

In-Service Withdrawals

Participants who attain the age of 59-1/2 may withdraw any portion of their vested account balance. In certain circumstances, a participant may elect a hardship distribution, as defined in the Plan Document.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 5.25%, which are commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. Loan repayment periods are a maximum of five years. Participant loans mature at various dates through October 2017.

MONDI JACKSON, INC. RETIREMENT PROGRAM

Notes To Financial Statements (*Continued*)

Forfeitures

Forfeitures from the nonvested portion of participants' accounts upon termination are reallocated to Plan participants based on annual pay for the Plan year. For the years ended December 31, 2012 and 2011, forfeited nonvested amounts totaling \$56,988 and \$69,312, respectively, were reallocated to Plan participants. At December 31, 2012 and 2011, remaining forfeitures of \$57,980 and \$56,988, respectively, are available to be reallocated to Plan participants.

Administrative Expenses

Administrative expenses incidental to the administration of the Plan may be paid by the Company and, if not paid by the Company, are paid directly by the Plan.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

MONDI JACKSON, INC. RETIREMENT PROGRAM

Notes To Financial Statements (*Continued*)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The guaranteed investment accounts are not considered fully benefit-responsive and as such, the amounts reported on the statement of net assets available for benefits and the statement of changes in net assets available for benefits are presented at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through June 28, 2013, the date which the financial statements were available for issue.

3. Investments

Financial information related to the investments and earnings thereon is included in the accompanying financial statements and is based on information provided by Principal Life Insurance Company, the Custodian. This information, which has not been audited by the Plan's independent auditors, has been certified to as complete and accurate by the Custodian.

MONDI JACKSON, INC. RETIREMENT PROGRAM

Notes To Financial Statements (*Continued*)

Investments at fair value that represent 5% or more of net assets are as follows:

	<u>2012</u>	<u>2011</u>
Guaranteed Interest Accounts	\$ 2,243,676	\$ 2,470,698
Large Cap S&P 500 Index	2,256,330	2,348,726
Bond and Mortgage Account	2,143,488	1,992,462
Medium Company Blend	1,777,882	1,606,827
Diversified International Stock	1,594,608	1,501,445
Money Market Account	1,480,777	1,499,853

4. Fair Value Measurements

The Plan follows current accounting standards, which provide a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

MONDI JACKSON, INC. RETIREMENT PROGRAM

Notes To Financial Statements (*Continued*)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value:

Pooled Separate Accounts

Valued at the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are primarily comprised of shares of registered investment companies held through subaccounts of a separate account of an insurance company at December 31, 2012 and 2011, respectively. The Plan has concluded that the NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments.

Guaranteed Interest Accounts

Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceeds crediting rates. Contract value represents contributions plus earnings, less withdrawals and expenses. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through utilizing interest rates applied.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Balance - December 31, 2012	\$ —	\$ 2,243,676

The pooled separate account is valued at NAV, but was classified as a Level 3 investment at December 31, 2010 due to the withdrawal restrictions imposed. During 2011, the withdrawal restrictions were removed and the investment was transferred to Level 2. The Plan's policy is to recognize transfers out as of the beginning of the Plan year.

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Investment	Fair Value	Principal Valuation Techniques	Unobservable Inputs	Range Of Significant Input Values
Guaranteed Interest Accounts	\$ 2,243,676	Assumed Proceeds At Discontinuance	Composite Guaranteed Rates	0.05% - 4.26%
			Current Rates on December 31, 2012	0.64% - 1.03%

There have been no changes in the methodologies used at December 31, 2012 or 2011.

Notes To Financial Statements (*Continued*)

5. Transactions With Parties-In-Interest

Plan investments are issued and managed by the Custodian. Therefore, transactions related to these investments qualify as exempt party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

7. Income Tax Status

The prototype plan sponsor has obtained an opinion letter dated March 31, 2008 in which the IRS stated that the restated prototype Plan Document was in compliance with the applicable requirements of the Internal Revenue Code (the IRC). The Plan Administrator timely adopted the restated prototype plan. The Plan itself has not received a determination letter. The Plan has been amended since the date of the opinion letter; however, the Plan Administrator believes that the Plan is currently being operated in accordance with the IRC.

The Plan's federal tax returns for tax years 2009 and later remain subject to examination by taxing authorities.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
