SPG HOLDINGS LLC 401(k) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

Note A - Description of Plan

The following description of the SPG Holdings LLC 401(k) Retirement Savings Plan ("Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2011. It is a defined contribution plan covering all substantially full-time and part-time employees of the Company. An employee becomes eligible to participate in the Plan on the first entry date (the first day of the quarter) following completion of six months of service, provided they have reached the age of 18. To receive an allocation of the Company matching contributions, an employee must be employed on the last day of the plan year. To receive allocation of the Company discretionary profit sharing contribution, an employee must be employed on the last day of the plan year with a minimum of 1,000 hours of service during the plan year, unless they are separated from service due to retirement, disability or death. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and Funding

Participants may contribute a percentage of their annual compensation subject to maximum dollar amounts determined by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. During 2012, the Plan offered various pooled separate accounts as investment options for participants. Participant contributions are submitted after each payroll is paid. The Company may, at its discretion, match a portion of base compensation that a participant contributes to the Plan. For 2012, the Company contributed 50% of the first 4% of base compensation that a participant contributed to the Plan. The Company's matching contribution is also invested based on the participant's direction, and is remitted annually.

The Company may also contribute a discretionary profit-sharing amount at the option of the Company. Discretionary profit-sharing contributions are subject to certain limitations. The participants direct the Company discretionary profit-sharing contributions into the various investment options. Any Company contributions are paid annually. In 2012, the Company did not make a discretionary profit-sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, the Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested in the Company's matching and discretionary profit sharing contributions after three years of credited service. In addition, participants employed by Hattiesburg Paper Company, LLC, Augusta Select Tissue, LLC and SPG Holdings LLC on January 1, 2011 became 100% vested in all contributions in the Plan.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

Note A - Description of Plan - Continued

Forfeited Accounts

Plan forfeitures arise as a result of participants who terminate service with the Company before becoming 100% vested in the Company's contributions. The forfeitures are used to pay Plan expenses. Any remaining forfeitures are used to reduce the matching contribution for the plan year in which the forfeitures occur. At December 31, 2012 and 2011, forfeited non-vested accounts totaled \$0. The amount of forfeitures used to reduce the Plan expenses was \$0 for the year ended December 31, 2012.

Benefit Payment Options

Upon termination of service due to death, disability, retirement or other termination, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account or installments over a period of time, not exceeding a participant's life expectancy or joint life expectancy of the participant and beneficiary, if the vested account balance exceeds \$1,000. If the participant's vested account balance does not exceed \$1,000, the Plan will distribute that portion, in a lump-sum, on the first distribution date after the participant terminates employment with the Company, or as soon as administratively practical following that date.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Revenue is recognized when earned rather than received and expenses are recognized when incurred rather than when paid.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts (included in the JH Stable Value Fund) as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

Note B - Summary of Significant Accounting Policies - Continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid. Account balances of participants who have elected to withdraw from the Plan but have not been paid as of December 31, 2012, totaled \$0.

Plan Costs

All administrative fees are paid directly by the Plan participants from their respective accounts. The Plan sponsor pays the annual audit fees on behalf of the Plan.

Date of Management's Review

Management has evaluated subsequent events through June 3, 2013, the date the financial statements were available to be issued.

Note C - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

Level 2 Fair Value Measurements

The pooled separate accounts are valued based on the value of the underlying investments, which are based on quoted market prices, when available.

Pooled separate accounts	<u>\$ 677,391</u>
--------------------------	-------------------

Note E - Investment Contracts with Insurance Companies

The Plan is invested in fully benefit responsive investment contracts through the JH Stable Value Fund (Fund). The Fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fund is presented on the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the Fund as of December 31, 2012 and 2011 was \$495,386 and \$426,827, respectively. The crediting interest rate is determined daily and is not subject to a minimum crediting interest rate.

The fund seeks to preserve principal and provide book value liquidity on a daily basis while maintaining a competitive rate of interest. The fund invests primarily in diversified fixed income mutual funds, separately managed bond accounts and book value stabilizing agreements offered by high quality financial institutions. The Trustee of the Fund has the right to delay any participant-initiated withdrawal for up to 30 days if it determines that immediate withdrawal may have an adverse impact on the Fund. In addition, the Fund also has the right to delay for up to 12 months, any other withdrawal of all, or a portion of the assets of an investor in the Fund.

The average yields for contracts included in the Fund were as follows for the years ended December 31:

	<u>2012</u>	<u>2011</u>
Based on actual earnings	2.05%	2.09%
Based on interest rate credited to participants	1.22%	1.47%

Note F - Tax Status

The Company adopted a volume submitter nonstandardized profit sharing plan with CODA (cash or deferred arrangement) and utilizes the services of a third-party administrator that has received an IRS notification letter dated March, 31, 2008, which indicates that an employer who adopts this plan may rely on the notification letter with respect to the qualification of its plan under the appropriate sections of the Internal Revenue Code ("IRC"). Companies that adopt a volume submitter plan approved by the IRS are no longer required to obtain a determination letter. The Plan has been amended since receiving the notification letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC. As such, the plan administrator believes no provision for income taxes is necessary and none has been included in the Plan's financial statements

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Note G - Risks and Uncertainties

The Plan invests in various investment types. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of certain investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note H - Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by John Hancock Life Insurance Company (U.S.A.). John Hancock Life Insurance Company (U.S.A.) is also the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to John Hancock Life Insurance Company (U.S.A.) amounted to \$30,985 for the year ended December 31, 2012.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note I - Reconciliation of Financial Statements to Form 5500

There are no reconciling items between these financial statements and the Form 5500 filed for the year ended December 31, 2012.
