1 - DESCRIPTION OF PLAN

The following description of the Certilman Balin Adler & Hyman, LLP Salary Reduction & Bonus Deferral Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. During May 2012, the vast majority of the Plan's investments were transferred from Hartford Life Insurance Company ("Hartford") to John Hancock Life Insurance Company ("John Hancock") (collectively, the "Custodians").

a. ***General*** - The Plan is a 401(k) defined contribution plan covering all eligible, permanent employees of Certilman Balin Adler & Hyman, LLP (the "Company"), as defined in the Plan, who have completed six months of service. Leased employees, if any, are not eligible to participate in the Plan. Eligible participants may enter the Plan on the first day of a calendar quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

   The Plan was amended and restated, effective December 1, 2010, to allow for each individual participant to exist as their own employee group within the Plan, for the purpose of the allocation of the employer's discretionary profit sharing contributions. (See b below.)

b. ***Contributions*** - Plan contributions consist of compensation reduction elections of participants (401(k) contributions), employer discretionary matching contributions, employer discretionary profit-sharing contributions, and rollovers. Under the terms of the Plan, the Company may determine to match up to 100% of the employee elective deferrals. For the year ended December 31, 2012, the Company elected not to match employee deferrals.

   Employer discretionary profit-sharing contributions are determined annually by the Company. Each participant is considered to be his own employee group for the purpose of allocating employer discretionary profit-sharing contributions. Contribution amounts are calculated based on a discretionary percentage of each participant's considered compensation. For the year ended December 31, 2012, the Company made discretionary profit-sharing contributions totaling $985,877.

   All investments are participant directed. Participants direct the investment of current contributions into a variety of pooled separate accounts as offered through John Hancock. While the Plan's assets were held by Hartford, participants similarly directed their investments into a variety of pooled separate accounts. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

c. ***Participant Accounts*** - Each participant's account is credited with the participant's contributions, the Company's contribution to the Plan on behalf of the participant, and allocations of earnings or losses are based upon actual performance of each participant's investment elections. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. ***Vesting*** - Participants are immediately vested in their elective contributions, the rollover portion of their account balances, and the earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus earnings thereon is based on years of credited service, defined as 1,000 hours in a calendar year, according to a vesting schedule of 20% per year of credited service beginning with the second full year of service. A participant is 100% vested in the employer discretionary contribution and earnings thereon upon attainment of the earlier of six years of credited service, normal retirement age, disability, or death.

Continued

e. ***Notes Receivable from Participants*** - Participants may borrow from their Plan accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the participant's highest outstanding note balance to the Plan during the one-year period ending on the day before the date on which the note is made or 50% of their vested account balances less current outstanding note balances. All notes, other than those used to purchase a principal residence, must be repaid within five years. Notes used to purchase a principal residence can currently have terms of up to 20 years. All notes outstanding were in compliance with the provisions of the Plan applicable at the time of the note's inception. The notes are secured by the vested balance in the participant's account. The interest rate on each note is set at prime plus 1% at inception. At December 31, 2012, outstanding notes bear interest at rates ranging from 4.25% to 5.75%. Principal and interest are paid ratably through payroll deductions or another approved manner, with payments made not less frequently than quarterly. Upon termination of employment, remaining balances due on such notes become immediately due. Should such amounts remain outstanding for more than 90 days from termination, the remaining balance will be a deemed distribution, subject to taxes and penalties, as applicable.

f. ***Payment of Benefits*** - Participants may elect to receive distribution of their benefits upon retirement, in the event of death or disability, in the event of immediate and heavy financial hardship, or upon termination of employment. Normal retirement age is 59½. Participants who have vested benefits in excess of $5,000 and are eligible to receive benefits due to retirement, death or disability, hardship or termination, may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or installment payments over a period of years that does not exceed the life expectancy of the participant or, if applicable, the beneficiary. If at the time of termination, the participant's vested account balance does not exceed $5,000, the participant may receive a lump-sum distribution of his or her benefits at the discretion of the Plan's trustees.

g. ***Plan Costs*** - The Company has elected to absorb substantially all significant costs relating to the Plan. The Plan provides for direct transactional charges such as for benefit payments or loan transactions, to be directly charged to the participant involved. Investment related expenses are included in net appreciation of fair value investments.

h. ***Forfeitures*** - Forfeitures by participants, as defined in the Plan, may be used by the Plan for the payment of Plan expenses or to reduce employer contributions to the Plan. During 2012, employer contributions were reduced by $3,394 from forfeited nonvested accounts. At December 31, 2012, all previously forfeited funds had been utilized for such purposes.

2 - Summary of Significant Accounting Policies

a. ***Basis of Accounting*** - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by the Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of a retirement plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The accompanying Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

b. ***Investment Valuation and Income Recognition*** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains or losses on investments bought or sold as well as held during the year.

c. ***Payments of Benefits*** - Benefits are recorded when paid.

d. ***Use of Estimates*** - The preparation of financial statements in conformity with GAAP requires the Plan trustees to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

e. ***Notes Receivable from Participants*** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

3 - Information Certified by the Custodians (Unaudited)

The Plan's investments in pooled separate accounts are held by the Custodians. Investment information related to those investments as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included in this note, the accompanying financial statements, and supplemental schedule of assets held at end of year as of December 31, 2012, is based on information supplied and certified by the Custodians in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The following table presents investments that represent 5% or more of the Plan's net assets.

	December 31,	
	2012	2011
Pooled Separate Accounts:		
Wells Fargo Stable Value Fund, at contract value (fair value $2,727,859 and $4,147,738, respectively)	**$2,650,883**	$ 4,042,618
Retirement Choices at 2025	**2,013,167**	-
PIMCO Real Return	**1,941,274**	-
Davis New York Venture	**1,760,565**	-
Oppenheimer Developing Mkt	**1,635,226**	-
Franklin Income	-	1,517,820
SSGA S&P 500 Flagship	-	1,399,454

For the year ended December 31, 2012, the Plan's investments in pooled separate accounts and common stock (including investments bought, sold, and held during the year) appreciated in value by $2,566,863 as follows:

Pooled Separate Accounts	$ 2,565,929
Common Stock	934*
	$ 2,566,863

*Represents information on investments not held by the Custodians and, therefore, not covered by certifications issued by the Custodians.

As of December 31, 2012, the Plan's investments included the John Hancock Stable Value Fund and the Wells Fargo Stable Value Fund, and as of December 31, 2011, the Plan's investments included the Wells Fargo Stable Value Fund as investment alternatives (collectively, "the Trusts"). Each investor in the Trusts has an undivided interest in its underlying assets. The Trusts operate on a calendar year. Investment income and administrative expenses relating to the Trusts are allocated in the form of additional trust units. Aggregate investment in the Trusts is summarized as follows:

	December 31,	
	2012	2011
Fair Value of Plan's Investment in the Trusts	**$ 3,728,869**	$ 4,147,738
Adjustment from Fair Value to Contract Value	**(112,746)**	(105,120)
Contract Value of Plan's Investment in the Trusts	**$ 3,616,123**	$ 4,042,618

The fair value of the Plan's interest in the Trusts is based on information reported by the issuers of the Trusts at year-end.

The Plan's aggregate investment in the Wells Fargo Stable Value Fund is deemed to be a fully benefit-responsive investment. Because this investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. The Trust fully invests in the Wells Fargo Stable Return Fund G, which primarily invests in investment contracts and security-backed contracts. The underlying crediting rate represents the periodic interest rate accrued on this investment, which is a fixed rate of interest over the term to maturity with respect to the underlying investment contracts, and is reset on a quarterly basis for the underlying security-backed contracts. The crediting rate for the underlying security-backed contracts cannot be less than zero. The average yield earned by this Trust was .94% and 1.56% at December 31, 2012 and 2011, respectively. The average yield credited by this Trust was 1.95% and 2.33% at December 31, 2012 and 2011, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the Trust's issuer or otherwise.

The Plan's aggregate investment in the John Hancock Stable Value Fund is deemed to be a fully benefit-responsive investment. Because this investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. The trust fully invests in the John Hancock Stable Value Fund Collective Investment Trust, which primarily invests in diversified fixed-income mutual funds and separately managed bond accounts run by investment subsidiaries of John Hancock Life Insurance Company. The underlying crediting rate represents the periodic interest rate accrued on this investment, which fluctuates based on an agreed-upon formula with the issuers, but cannot be less than zero. The average yield and crediting rates for this Trust were approximately 2.62% and 1.65%, respectively, for 2012. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the Trust's issuer or otherwise.

4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Continued

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies consistently used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts - Valued on a per unit basis, which is calculated based on the net asset value of the underlying investment in mutual funds or the fair value of other investments held and adjusted for an annual expense charge, as defined.

Common Stock - Valued at the closing price reported on an active market on which the individual security is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2012:

	Assets at Fair Value			
	Level 1	*Level 2*	*Level 3*	*Total*

Total Investments at Fair Value	$ 4,999	$26,522,240	$ -	$26,527,239

Pooled separate accounts reported as Level 2 investments with a reported net asset value per share may be redeemed on a daily basis. The redemption notice period for pooled separate accounts is 30 days, with the exception of stable value investments, which generally have a 1-year redemption notice period. There are no unfunded commitments or other redemption restrictions.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. There were no transfers into or out of Level 3 for the years ended December 31, 2012 and December 31, 2011, respectively.

5 - Income Tax Status

The IRS determined and informed the Plan's third party administrator by a letter dated March 16, 2010 that its prototype plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and is exempt from income taxes. This Plan was amended and restated on December 1, 2010. Plan management believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust continues to be tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan document to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the value in their accounts.

7 - Party-in-Interest Transactions

The Company is the Plan sponsor and administrator. Certain trustees are partners or employees of the Company and, therefore, participants in the Plan. Plan investments include pooled separate accounts managed by the Custodians, or their affiliates and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan sponsor pays directly any other fees, except for direct transactional charges charged to participants, related to the Plan's operations.

8 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9 - Subsequent Events

The Plan has evaluated subsequent events through July 24, 2013, the date the financial statements were available to be issued.
