Report of Independent Auditors

The Board of Trustees
College of Mount St. Joseph

We were engaged to audit the accompanying financial statements of College of Mount St. Joseph Tax Deferred Annuity Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information summarized in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information met the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2012 and 2011, and for the year ended December 31, 2012, stating that the investment information provided to the plan administrator is complete and accurate.

Additionally, the Plan has not maintained sufficient accounting records and supporting documents relating to annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2012, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we do not express an opinion on the supplemental schedule referred to above.

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2012

1. Description of Plan

The following description of the College of Mount St. Joseph Tax Deferred Annuity Plan (the Plan) provides general information about the Plan's provisions. The College of Mount St. Joseph (the College) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan available to substantially all employees of the College (specifically excluding student employees). There are no age or service requirements that need to be satisfied.

The College is responsible for the general administration of the Plan. Teachers Insurance and Annuity Association and College Retirement Equity Fund (collectively, TIAA-CREF) and JPMorgan Chase Bank, N.A. are the custodians of the Plan and TIAA-CREF is recordkeeper for the Plan assets held by JP Morgan Chase Bank, N.A.. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may elect to contribute a percentage of all earnings (W-2 compensation) to the Plan. All contributions are made on a pretax basis and are subject to certain limitations of the Internal Revenue Code (the Code). The Plan is also able to accept participant contributions from those who are eligible to make additional deferrals through Age 50 Catch-up Contributions and the Special 403(b) Catch-up Contributions. The Plan accepts participant contributions only. There are no employer contributions to the Plan. Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

Forfeitures

Participant contributions are fully vested immediately and cannot be forfeited upon termination of employment or ineligibility to participate in the Plan.

Loans

Participants may take a loan from the Plan, subject to the terms and restrictions in the individual agreements. Generally, the minimum loan amount that may be taken is \$1,000 and the maximum loan amount is \$50,000. The maximum amount may be less depending on two factors: (1) the amount of the participant's accumulation under the Plan, and (2) whether the participant has taken other loans from the Plan within the last year. If a loan is taken from a TIAA-CREF annuity, the maximum loan amount is further limited to (1) 45% of the combined TIAA and CREF accumulation attributable to participant under the Plan; (2) 90% of the participant's CREF and TIAA Real Estate accumulation attributable to participation under the Plan for Retirement Loan loans; or (3) 90% of the participant's TIAA Annuity accumulation attributable to participation under the Plan for a Group Supplemental Retirement Annuity loan. TIAA is authorized under the Plan to administer and account for plan loans available under the terms of the Plan including application and repayment. There were no participant loans outstanding as of December 31, 2012 and 2011, respectively.

TIAA-CREF offers plan loans that are issued directly from funds owned by TIAA and not directly from the participant's account. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Annuity. Plan loans outstanding as of December 31, 2012 and 2011 were \$223,657 and \$186,913, respectively.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Payment of Benefits

Participants may request a distribution of deferrals upon termination of employment, disability, attainment of age 59-1/2, financial hardship, or at any time with respect to pre-1989 deferrals invested in an annuity contract. Participants may elect a distribution of transfer contributions and/or rollover contributions at any time subject to the restrictions in the individual agreements. With the proper consents, participants may choose lump-sum, partial payment, installment payment, annuity contract, or conversion to an income option. The individual agreements governing the investment options that participants have selected for their contributions may restrict payout options.

Administrative Expenses

All reasonable plan administration expenses including those involved in retaining necessary professional assistance may be paid from the assets of the Plan, to the extent permitted by the Plan's provisions. These expenses may be allocated among all participants or, for expenses directly related to a participant, charged against their account balance. Certain expenses of the Plan are paid by the College.

Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the plan is terminated, a participant's entire account balance will be distributed from the Plan. To the extent a participant is invested in an annuity contract, they will receive a distribution of the contract.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. No significant excess contributions were made for the plan year 2012 or 2011.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price) (see Note 4).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures are not required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

3. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2012	2011
CREF Stock Fund	\$ 3,390,500	\$ 3,716,627
TIAA Traditional Non-Benefit Responsive	2,777,670	2,619,899
TIAA Traditional Annuity	2,383,454	2,359,199
CREF Global Equities Fund	1,007,912	1,033,907
CREF Growth Fund	925,857	940,669

During 2012, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

Guaranteed annuity contract	\$ 154,431
Variable annuities	530,073
Registered investment companies	113,832
Pooled separate account	653,569
	<u>\$ 1,451,905</u>

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2012 and 2011, and net appreciation in fair value of investments, interest and dividend income for the year ended December 31, 2012, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by TIAA-CREF, the recordkeeper of the Plan, as agent for JPMorgan Chase Bank, N.A..

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for similar or identical assets that are observable either directly or indirectly. Level 2 inputs include the following:
 - Quoted prices for similar assets in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the asset (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value. There have been no changes in methodologies used at December 31, 2012.

- *Registered investment companies:* Consists of investments primarily in equity securities, fixed-income instruments, other mutual funds, and short-term instruments. The fair values of these investments are primarily valued using market quotations or prices obtained from independent pricing sources. The investments are valued at the share price or net asset value of the shares held by the plan at year-end.
- *Pooled separate accounts (PSA) (TIAA Real Estate Account):* Consists of a non-fully benefit-responsive investment valued principally from the market value of the underlying real estate holdings or real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. Sometimes securities are held as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day. The PSA itself is not traded on an exchange in an active market.
- *Variable annuities (CREF Accounts):* These accounts consist of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation-Linked Bond, Social Choice, and Money Market Accounts (individually referred to as the "Account" or collectively referred to as the "Accounts"). CREF is registered with the Securities and Exchange Commission under the Investment Company Act of 1940 as an open-end management investment company; however, the CREF Accounts themselves are not traded on an exchange in an active market. These Accounts are variable annuities, which are primarily valued based on net asset value per share as determined by market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments including matrix pricing, except for the Money Market Account, which is generally valued at amortized cost.

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Guaranteed Annuity Contract (TIAA Traditional Annuity): This investment consists of approximately \$2.4 million in fully benefit-responsive investments and \$2.8 million in non-fully benefit-responsive investments. The investment is valued at contract value, which approximates fair value. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates. The contract value equals the accumulated cash contributions and interest credited to the Plan's accounts, less any withdrawals. Since the annuity is not available for sale or transfer on any securities exchange, transactions in similar investment instruments are not observable. As a guaranteed annuity backed by TIAA's claim-paying ability, the TIAA Traditional Annuity guarantees principal and a minimum interest rate, plus the opportunity for additional amounts in excess of the guaranteed rate. These additional amounts, when declared by the TIAA Board of Trustees, remain in effect for the "declaration year." The declaration year begins March 1. The guaranteed minimum interest rate during the accumulation phase is generally 3%, but between 1% and 3% for some contracts. These guarantees of principal and minimum interest rates assure that each participant's accumulation is protected from loss and will always increase in value. Together, the guaranteed minimum and additional amounts make up the "crediting rate" in the accumulation phase of the account. TIAA uses a "vintage" method of crediting interest for funds in the TIAA Traditional Annuity. Because the yields available on new long-term investments tend to vary over time, TIAA groups the funds received over discrete time period into vintages. The interest credited to each vintage reflects the investment returns initially obtained on TIAA's investments during each period. When the accumulation in the TIAA Traditional Annuity Fund is converted to an annuity based on life expectancy, the present value of the stream payments is equal to the accumulation. The average yield earned by the Plan and credited to participants in the Plan for all fully benefit-responsive investment contracts was 3% at both December 31, 2012 and 2011. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration) while others are substantiated utilizing available market data (for example, discount rate applied). The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

(a) The investment objective of this account is to achieve a favorable rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks.

(b) The investment objective of this account is to achieve high current income consistent with maintaining liquidity and preserving capital

(c) The investment objective of this account is to achieve a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria.

- (d) The investment objective of this account is to achieve a favorable long-term rate of return through high current income consistent with preserving capital. The majority of the account's assets are invested in U.S. Treasury and Agency securities, corporate bonds, and mortgage-backed or other asset-backed securities.
- (e) The investment objective of this account is to achieve a favorable long-term rate of return through capital appreciation and investment income from a broadly diversified portfolio that consists of foreign and domestic stocks.
- (f) The investment objective of this account is to achieve a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth.
- (g) The investment objective of this account is to achieve a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index.
- (h) The investment objective of this account is to achieve a favorable long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds, which are fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond.
- (i) The investment objective for this fund is to achieve long-term returns primarily through rental income and appreciation of real estate investments owned by the Account. The Account will also invest in publicly traded securities and short-term higher quality liquid investments that are easily converted to cash to enable the Account to meet participant redemption requests, purchase or improve properties, or cover other expense needs. Participant transfers out are limited to one per calendar quarter. Liquidity is guaranteed since the fund is backed by the TIAA general account.

There were no transfers between Level 1 and Level 2 assets during the year ended December 31, 2012.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related-Party Transactions

The Plan holds investments managed by TIAA-CREF AND JP Morgan Chase Bank, N.A., the custodians of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA

7. Tax Status

The Plan has been designed to qualify under Section 403(b) of the Code and, therefore, it is not currently eligible to receive a determination letter from the IRS. The Plan is required to operate in conformity with the Code to maintain its qualification under Section 403(b). The plan administrator believes that the Plan is operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

8. Subsequent Events

Management evaluated subsequent events for the Plan through July 25, 2013, the date the financial statements were available to be issued.
