ADVANTAGE SECURITY, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

1. Description of Plan

General:

The Advantage Security, Inc. 401(k) Plan (the Plan) is a defined contribution plan established for the regular full-time and regular part-time employees of Advantage Security, Inc. (the Company) who have at least one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description of the Plan provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

Amounts shown in the financial statements are based on reports certified to be complete and accurate by the trustee, as adjusted for necessary accruals to present the financial statements in accordance with accounting principles generally accepted in the United States of America.

Contributions:

The Plan allows for Internal Revenue Code (IRC) Section 401(k) employee salary deferral contributions and employer matching contributions. Participants may contribute up to 100% of compensation on a pre-tax basis during the Plan year or the maximum allowed by the IRC ($17,000 and $16,500 for the Plan years ended December 31, 2012 and 2011, respectively. In addition, eligible employees age 50 and over may contribute "catch-up" contributions of $5,500 in 2012 and 2011. The Plan provides for discretionary Company matching contributions of participants' elective deferral contributions up to 6% of the participants' compensation. For the years ended December 31, 2012 and 2011, no discretionary matching was made. The total of all contributions to the Plan and any other Company sponsored plans are subject to certain limitations imposed by the IRC.

Investment programs:

The Plan's assets are invested in ten accounts offered by The Standard Insurance Company. The ten investment options are: a guaranteed interest fund, and nine pooled separate accounts, which individually invest in common stocks, bonds and mortgages, international stocks, small company stocks, and growth stocks. Participant contributions, which are voluntary, and employer contributions may be invested in any of the ten accounts, at the employees' discretion.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, and (b) Plan earnings. All participants may direct the trustee as to the investment of their individual account balances. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

1. Description of Plan (continued)

Vesting:

Participants become vested in the Company's contributions at the rate of 20% per year of service commencing the second year of service until 100% vested. Forfeitures arising from termination of employment prior to full vesting are used to reduce the Company's future contributions or may be used to pay plan expenses. The amount of forfeitures from terminating participants was $0 in 2012 and 2011. Participant contributions are fully vested.

Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of termination of the Plan, participants become 100% vested in their employer account balances and the net assets held in the Plan will be distributed to the participants based on the participants' account balances.

Benefit payments:

Upon termination of service, a participant can choose to roll their account balance into an IRA, receive a lump-sum payout, or leave the assets in the Plan if the balance is greater than $1,000.

2. Significant accounting policies

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis.

As described in Financial Accounting Standards Board Codification Section 962, Reporting of Investment Contracts Held by Health and Welfare and Defined Contribution Pension Plans, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Significant accounting policies (continued)

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in a combination of pooled separate accounts, and a guaranteed interest fund. Investments securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Investment valuation:

The Plan's investments are stated at fair value. Investments in the shares of pooled separate accounts are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

3. Summary of information furnished by trustee

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator has received certification from The Standard Insurance Company as to the accuracy and completeness of certain financial information of the Plan.

The following items were provided by or were derived from data provided by the trustee:

- Statements of net assets available for benefits at December 31, 2012 and 2011:
    - Investments including guaranteed interest fund and pooled separate account assets and their valuation.
    - Adjustment from fair value to contract value for fully benefit-responsive investment contracts.
- Statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011:

3. Summary of information furnished by trustee (continued)

- Net realized and unrealized appreciation (depreciation) in fair value of investments

- Supplemental schedule of assets (held at end of year) – all information included in the schedule.

- Information presented in Note 5.

The fair values of investments as of December 31, 2012 and 2011 that represents 5% or more of the Plan's net assets are as follows:

	2012	2011

4. Fair Value Measurements:

Financial Accounting Standards Board Accounting Standards Codification Section 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4. Fair Value Measurements (continued):

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Investments in pooled separate accounts: Valued at quoted market prices of the underlying investments held by the Plan at year end.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Large Cap Equity	$ -	$ 118,588	$ -	$ 118,588

4. Fair Value Measurements (continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

	$ -	$ 279,857	$ 71,221	$ 351,078

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2012 and 2011:

	2012 Guaranteed Interest Fund	2011 Guaranteed Interest Fund
Balance, beginning of year	$ 71,221	$ 55,366

Sales, issuances and settlements	(23,242)	(1,340)
Balance, end of year	$ 74,121	$ 71,221

5. Investment contract with insurance company

The Plan entered into a benefit-responsive investment contract with The Standard Life Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

On a monthly basis, Standard's asset advisory group provides an interest rate forecast for the coming month based on the investments underlying the contracts. Based on these rates and the margins required for the business Standard declares a crediting rate for financial activity in the coming month. Approval is required for all crediting rates.

5. Investment contract with insurance company (continued)

Monthly rates are combined quarterly into cells (weighted based on the amount of net transactions in the fund over each month). Each cell has a five-year rate guarantee. No negative cells are established, but rather negative net quarterly transactions are deducted from the oldest established cell. The crediting rate for the stable asset fund for a plan is the combined returns on all the existing cells, weighted by the size of the cell.

Certain events may limit the ability of the plan to transact at contract value with Standard. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply.

Standard may terminate the contract with 30 days advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least $25,000, plan disqualification, and failure to adopt the plan in a reasonable period of time. Upon termination by Standard, a market value adjustment may apply.

	2012	2011
Average yields:		
Based on actual earnings	3.03%	3.03%
Based on interest rate credited to participants	3.01%	3.00%

6. Administration of the Plan

The Company has appointed an administrator to be responsible for the reporting and disclosure requirements of federal and state regulations. The administrator's duties include interpretation of the Plan, decisions on eligibility of participants, adoption of rules deemed necessary for Plan administration, and authorization of benefit programs.

Plan operations are conducted as a trust and all Plan assets are held by The Standard Insurance Company as trustee. Trustee fees incurred in Plan administration were agreed to by the trustee and the Company and are paid directly to the trustee by the Plan participants.

During 2012 and 2011, the Plan paid trustees fees of $3,539 and $3,574, respectively.

7. Internal Revenue Service status

The volume submitter plan obtained its latest tax determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the volume submitter plan is in compliance with the applicable requirements of the IRC. The Trustees of the Plan have elected not to file for a separate IRS determination letter for the Plan. The Plan has been amended since receiving the determination letter.

However, the Plan administrator believes that the Plan is designed and is currently being operated in

7. Internal Revenue Service status (continued)

compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The Plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2009.

8. Reconciliation of financial statements to Form 5500

The Plan Trustee has prepared the 5500 on a cash basis as opposed to the Plan's financial statements which are prepared on an accrual basis.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011 to Form 5500:

There has been no material event noted in this period which would impact the results reflected in this report, the Plan's results going forwards, or require additional disclosure.
