NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

1. Description of plan

The following description of the R. P. Lumber Company, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. **General** - The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service, are age twenty-one or older, and worked a minimum of 1,000 hours during the calendar year. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. **Contributions** - Each year, participants may contribute up to 50 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. Effective January 1, 2012, the Company contributes 12 percent of the first 15 percent of compensation that a participant contributes to the Plan. Prior to January 1, 2012, the Company contributed 15 percent of the first 15 percent of compensation that a participant contributed to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by the Participants. Contributions are subject to certain limitations.

C. **Participant accounts** - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses unless paid from forfeitures. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. **Vesting** - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of credited service. To receive credit for one year of vesting, a participant must have completed at least 1,000 hours of service in a calendar year. A participant is 100 percent vested after six years of credited service.

E. **Payment of benefits** - On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In addition, hardship distributions are permitted if certain criteria are met.

1. Description of plan (continued)

F. **Forfeited accounts** - At December 31, 2012 and 2011, forfeited nonvested accounts totaled $9,115 and $35,008, respectively. These accounts will be used to reduce future employer contributions and plan administration fees. Also, in 2012 and 2011, of the amounts previously forfeited, $6,800 was used for plan administration fees and $44,605 was used to reduce employer contributions in 2012.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Reclassifications

Certain amounts in the 2011 financial statements have been reclassified to conform with the 2012 presentation. Such reclassifications had no effect on net income.

Investment valuation and income recognition

Investments are reported at fair value based on the quoted market prices of the underlying securities within each fund at December 31, 2012 and 2011, Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits

Benefits are recorded when paid.

Refunds of excess contributions

At December 31, 2012 and 2011, refunds of excess contributions totaled $219 and $71, respectively. These amounts came from excess contributions from highly compensated employees. The corrective refunds were distributed after year-end in order to pass discrimination tests.

2. Summary of accounting policies (continued)

Administrative expenses

Certain expenses incurred in connection with the general administration of the Plan and advisory services are paid by the Plan and are recorded in the accompanying statement of changes in net assets available for benefits as administrative expenses. The following presents a breakdown of the administrative expenses for the years ended December 31, 2012 and 2011.

	2012	2011
Recordkeeping fees	$ 16,946	$ 32,279
Participant investment management fees	53,153	58,250
Contract administration fees	8,863	8,434
Audit fees	6,800	6,800
Total administrative expenses	$ 85,762	$ 105,763

Subsequent events

Subsequent events were evaluated through July 23, 2013, which is the date the financial statements were available to be issued.

3. Investments

The Plan's mutual fund investments (including gains and losses on investments bought, sold, and held during the years 2012 and 2011) appreciated (depreciated) in value by $1,416,079 and $(1,024,040), respectively.

The following presents investments at December 31, 2012, that represent 5 percent or more of the Plan's net assets:

American Funds - American High Income Tr - R3	$1,495,079
American Funds - New World - R3	1,049,320
Lord Abbett High Yield Fund - A	1,601,049
Nw Money Market Inst	2,096,986
Principal High Yield - A	1,599,601

The following presents investments at December 31, 2011, that represent 5 percent or more of the Plan's net assets:

Flex Defn Bal	$1,081,041
Flex Dynmc Growth	1,624,214
Flex Muirfield	1,767,367

4. Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. There have been no changes in the valuation methodologies used for assets measured at fair value at December 31, 2012 and 2011.

The method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

8. Tax status

Effective January 1, 2009, the Company amended and restated the Plan. This is a volume submitter profit sharing plan document. The Internal Revenue Service has determined and informed the volume submitter by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that should require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Information prepared and certified by trustee

The December 31, 2012 and December 31, 2011, Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011, and the accompanying notes to the financial statements were prepared in part or entirely from information certified as complete and accurate by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes the following:

	2012	2011
Mutual funds	$ 16,281,516	$ 14,743,028
Total	$ 16,281,516	$ 14,743,028
Net appreciation (depreciation) in fair value of investments	$ 1,416,079	$ (1,024,040)
Interest and dividends	502,881	300,818
Total investment activity	$ 1,918,960	$ (723,222)

10. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
