NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The Boyer, Inc. 401(k) Plan (the Plan) was adopted effective January 1, 2000 to establish a savings and investment plan for the exclusive benefit of the employees of Boyer, Inc. (the Company and Plan Sponsor) and their beneficiaries. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized when earned.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States (GAAP) requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

Participant Loans Receivable - GAAP requires that loans to participants be reported as notes receivables from participants at the unpaid principal balance plus any accrued but unpaid interest.

Federal Income Tax - The Internal Revenue Service has determined and informed the plan administrator by a letter dated January 13, 2003, that the Plan and related trust, as then designed, were in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2012, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2009 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent Events - The Company has evaluated subsequent events through July 23, 2013, the date the financial statements were available to be issued. No subsequent events occurred, which require adjustment or disclosure to the financial statements at December 31, 2012.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - The Plan, as amended, is a defined contribution plan covering all full-time employees of the Company who have completed at least six months of service and are age eighteen or older. The entry dates are the first day of each calendar quarter coinciding with or next following the date the employee satisfies the Plan's eligibility requirements.

Contributions - The Plan includes provisions of section 401(k) of the Internal Revenue Code which allows participants to make pre-tax and after tax contributions up to the maximum amount allowed by law ($17,000 for the calendar year 2012 for participants under 50 years of age and $22,500 for participants 50 years of age or older) of their pretax annual eligible compensation, as defined in the Plan. The Company may make discretionary matching contributions to the Plan. There were no discretionary matching contributions for the year ended December 31, 2012.

Vesting - Participants are immediately vested in their salary reduction and rollover contributions plus actual earnings thereon. Any Company discretionary matching contributions and related earnings vest as follows:

Full Years of Vesting Service	Vested Interest
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

NOTE B PLAN DESCRIPTION (CONTINUED)

Form of Benefits - Benefits are recorded when paid. On termination of service, a participant with a vested benefit greater than $5,000 may elect to leave the funds in the Plan, or request either a direct rollover into an IRA or other qualified plan which accepts direct rollovers, or receive a lump sum amount. For participants with a vested benefit less than $5,000, a participant will receive the benefits only in a lump sum as soon as administratively practicable after the time of termination.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer from the investment fund to participant loans receivable. Loan terms range from 1 to 5 years or longer if loan qualifies as a home loan. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan's administrator. Interest rate on all loans was 5% at December 31, 2012. Principal and interest is paid ratably through payroll deductions.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator. Each participant is credited with the participant's contribution, the Company's contribution, and a pro rata share of the earnings of each fund in which the participant has invested.

Forfeitures - Forfeited balances of terminated participants' nonvested accounts are used to reduce future employer contributions. Forfeitures used to reduce employer contributions during 2012 amounted to $82. At December 31, 2012, the Plan had unused forfeitures amounting to $3,743.

Administration - There are three Plan trustees, including two officers of the Company. The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan.

NOTE C PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth in ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions and related earnings.

NOTE E FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active and inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation technique used for investments measured at fair value. There have been no changes in the technique used during 2012 and 2011.

Pooled separate accounts are valued at fair value by the asset custodian of the funds based upon the net asset value of underlying investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
