NOTES TO FINANCIAL STATEMENTS

COMMUNITY SUPPORT SERVICES, INC. PENSION PLAN AND TRUST

Note 1. Description of the Plan

The following description of Community Support Services, Inc. Pension Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution money purchase plan covering substantially all employees of Community Support Services, Inc. (the Company or Plan Sponsor) who have completed one year of service, as defined and attained 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective August 8, 2012, the Plan was amended and restated, the custodial and recordkeeping functions were transferred from Hand Benefits and Trust Company to Principal Trust Company. The new provisions as a result of the Plan restatement are summarized in the various sections of this note.

Contributions

The Company contributes an amount equal to 5% of each participant's eligible compensation subject to the Internal Revenue Service (IRS) limits, as defined in the Plan Document. Participants are not permitted to make contributions to the Plan.

Participant Accounts

Each participant's account is credited with the contributions by the Company, and allocations of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

Vesting

Employer contributions are subject to a vesting schedule based on years of continuous service, as defined, with the participant becoming fully vested after three years of credited service.

Notes Receivable From Participants

Participants may borrow from their vested account balance. The minimum loan is \$1,000 and the maximum is the lesser of one-half of the participant's vested account balance or \$50,000. Generally, loans are for a maximum term of five years unless the loan is for the purpose of purchasing a principal residence, in which case the administrator has the discretion to extend repayment terms. A participant may not have more than one loan outstanding. The loans are secured by the balances in the participant's account. Effective August 8, 2012, the loans are assessed interest at the prime rate plus 2%. Prior to August 8, 2012, the loans were assessed interest at the prime rate plus 1%. Principal and interest are paid ratably through bi-weekly payroll deductions.

NOTES TO FINANCIAL STATEMENTS

COMMUNITY SUPPORT SERVICES, INC. PENSION PLAN AND TRUST

Note 1. Description of the Plan (Continued)

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump-sum distribution or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If the balance is less than \$1,000, the plan administrator may direct the custodian to make a lump-sum distribution of the account balance.

Forfeited Accounts

At December 31, 2012 and 2011 forfeited non-vested accounts totaled \$973 and \$9,551, respectively. Forfeitures are temporarily held in a suspense account maintained within the Plan and are used to reduce employer contributions and to cover audit expenses. During 2012, \$13,508 of funds from the forfeited non-vested accounts were used to offset employer contributions.

Note 2. Significant Accounting Policies

The accompanying financial statements reflect the application of certain accounting policies described in this note.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Effective August 8, 2012, the Plan's investment in the Community Support Services, Inc. Master Trust was liquidated when the assets of the Plan were transferred from Hand Benefit and Trust Company to Principal Trust Company. The investments held by the Plan are stated at fair value.

NOTES TO FINANCIAL STATEMENTS

COMMUNITY SUPPORT SERVICES, INC. PENSION PLAN AND TRUST

Note 2. Significant Accounting Policies (Continued)

Prior to August 8, 2012, the Plan's sole investment was an interest in the Community Support Services, Inc. Master Trust, which was established for the pooled investment of assets of the Plan and Community Support Services, Inc. 403(b) Plan. The Plan's investment in the Master Trust was stated at fair value based on the fair value of the net assets of the Master Trust.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investment bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Plan fees and expenses are paid from Plan assets or by the Company, as provided in the Plan document.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs" (ASU 2011-04). ASU 2011-04 amended the FASB *Fair Value Measurements and Disclosures* topic to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in the *Fair Value Measurements and Disclosures* topic. In addition, ASU 2011-04 requires additional fair value disclosures. This amendment was adopted for the year ended December 31, 2012. The adoption resulted in additional fair value disclosures (see Note 3). There was no impact to the net assets as of December 31, 2012 and 2011, as a result of the adoption.

Pending Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent Events

The Plan has evaluated subsequent events through July 18, 2013, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

The FASB topic, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this FASB topic are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Fixed Income Guaranteed Option Contract: The Principal Fixed Income Guaranteed Option Contract is a fully benefit-responsive group annuity contract issued by the Principal Trust Company (PLIC). The methodology for calculating the interest crediting rate is defined in the option contract. Under the terms of the existing contract, the Composite Crediting Rate is currently reset on a semiannual basis and will never be less than the Guaranteed Minimum Interest Rate. The methodology for calculating the Guaranteed Minimum Interest Rate is defined in the option contract. In estimating fair value of the investments in Level 3, the Board of Trustees may use third party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Board of Trustees evaluate a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Changes in future interest crediting rates will not effect the amount reported as an adjustment from fair value to contract value on the statement of net assets available for benefits for the portion of net assets attributable to fully benefit-responsive investment contracts. Fair value is considered book value less early withdrawal charge.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at fair value as of December 31, 2012

Note 3. Fair Value Measurements (Continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 4. Investments

All information including investments held, interest and dividend income and net appreciation in fair value as of December 31, 2012 and for the period August 8, 2012 through December 31, 2012, included in the Plan's financial statements, was prepared by or derived from information provided by Principal Trust Company, the current custodian of the Plan, and furnished to the plan administrator. The plan administrator obtained a certification from the custodian that the information provided to the plan administrator by the custodian related to the Plan was complete and accurate, with the exception of the adjustment to fair value of the fixed income guaranteed option contract at December 31, 2012, which is reported at contract value by Principal Trust Company. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information.

The values of individual participant-directed investments that represent 5% or more of the Plan's net asset values as of December 31, 2012 are as follows:

Mutual Funds

Principal LifeTime 2015 R5 Fund	\$ 1,107,033
Principal LifeTime 2020 R5 Fund	1,249,973
Principal LifeTime 2025 R5 Fund	981,971
Principal LifeTime 2030 R5 Fund	699,502
Principal LifeTime 2035 R5 Fund	753,942

Note 5. Interest in Community Support Services, Inc. Master Trust

Prior to August 8, 2012, investments of the Plan were maintained in the Master Trust administered by Hand Benefits and Trust Company, the prior custodian. The Master Trust was established by Community Support Services, Inc. for the pooled investment of assets of the Plan and Community Support Services, Inc. 403(b) Plan.

Pursuant to the custodian's method of allocating the investment holdings between the two plans, contributions into the Master Trust were treated as purchases of shares in the Master Trust, withdrawals were treated as sales of shares, and investment income was allocated proportionately to all shares held.

NOTES TO FINANCIAL STATEMENTS

Note 5. Interest in Community Support Services, Inc. Master Trust (continued)

Accordingly, the value of the Plan's investment in the Master Trust was equal to the Plan's interest in the Master Trust's combined net assets available for benefits.

All information including assets held in the Master Trust, interest and dividend income and net appreciation in fair value for the period January 1, 2012 through August 8, 2012 and as of December 31, 2011, included in the Plan's financial statements, were prepared by or derived from information provided by Hand Benefits and Trust Company, the prior custodian of the Plan, and furnished to the plan administrator. The plan administrator obtained a certification from the custodian that the information provided to the plan administrator by the custodian related to the Master Trust and to the Plan was complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information.

The fair value of Master Trust investments held by the custodian, of which the Plan had a proportionate interest of approximately 68% at December 31, 2011, is presented in the table below. The following tables include unaudited information regarding the Master Trust and the Plan as of and for the years ended December 31:

	2012	2011
Investments - mutual funds	\$ -	\$ 8,294,569
Amount allocated to the Plan	\$ -	\$ 5,595,605

The Master Trust's investments appreciated in value by \$754,153, during the period January 1, 2012 through August 8, 2012.

Investment income for the plan's interest in the Master Trust is as follows:

	2012
Investment income	
Net appreciation in fair value of investments	
Mutual Funds	\$ 506,925
Interest and dividends	39,705

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 7. Income Tax Status

The Plan adopted a non-standardized form of a volume submitter plan sponsored by SunGard Corbel LLC (SunGard). The SunGard volume submitter plan has received an opinion letter from the IRS as to the prototype plan's qualified status dated March 31, 2008. The prototype plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination, including the resolution of appeals or litigation processes, if any. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTES TO FINANCIAL STATEMENTS

COMMUNITY SUPPORT SERVICES, INC. PENSION PLAN AND TRUST

Note 8. Guaranteed Investment Contract with Principal Trust Company

In 2012, the Plan entered into a fully benefit-responsive guaranteed investment contract with Principal Trust Company. Principal Trust Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was \$159,087. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1 percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield earned by the guaranteed investment contract was 2.50% for the year-ended December 31, 2012.

Note 9. Related-Party Transactions and Party In Interest Transactions

Certain Plan investments are shares of mutual funds managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
