1. PLAN DESCRIPTION

The following is a brief description of the Try-It Distributing Co., Inc. & Subsidiaries Cash or Deferred Plan (the "Plan") provided for general informational purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is funded by employee and employer contributions and covers all employees of Try-It Distributing Co., Inc. (the "Company" or "Plan Sponsor") its wholly-owned subsidiaries Balkan Beverage, LLC and Saratoga Eagle Sales & Service, Inc. and its affiliate Eagle Associates of WNY, Inc. who have completed at least 12 months of service, are at least 21 years of age and are not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's administrative expenses are paid by the Plan Sponsor.

Contributions – Participants may make contributions to the Plan in the form of salary deductions of up to 100% of their compensation. Participant contributions are limited by the maximum allowable contribution under the IRC. The Plan also has a provision for employer matching contributions, whereby the Company will match 25% of employee contributions up to a maximum of $1,000 for each participant. The Company may also make a discretionary profit sharing contribution and the amount may vary from year to year. This contribution is determined at year-end by the Board of Directors. In order to share in the discretionary contribution, an employee must be employed on the last day of the Plan year and have completed one year of service as defined by the Plan.

Vesting – Participants are immediately vested in both their voluntary contributions and Company matching contributions and the earnings thereon. Vesting in the discretionary profit sharing contributions, and earnings thereon, are based on a graded vesting schedule with participants 100% vested after six years.

Forfeitures – Forfeitures for profit sharing contributions are allocated to participants in the ratio which the compensation of each participant for the plan year bears to the total compensation for the plan year of all participants otherwise entitled to share in the employer contributions.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of the employer contributions and Plan earnings. Allocations of earnings are based on participant account balances.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants shall become 100% vested and entitled to the amount of their account at the date of such termination.

1. PLAN DESCRIPTION (continued)

Payment of Benefits – Employees are eligible for retirement at age 65. Benefits are determined by the final value of the participant's account at the time of retirement, termination or death. Various payment options are available upon retirement including lump-sum cash or minimum distribution installments.

Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or actual retirement date. Distributions are also permitted in the event of financial hardship, as defined by the Plan. In addition, in-service distributions may be made from any of the participant's vested accounts at any time upon or after the participant attains age 59 ½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Investments – The Plan establishes a fair value based on a hierarchy which identifies three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded, on an exchange. Level 2 inputs generally consist of market prices for identical assets which are not actively traded or market prices of similar assets or liabilities which are actively traded, on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available. These may include such things as present value of expected future cash flows or other valuation methodologies. Under the hierarchy, Level 1 inputs are the most preferred followed by Level 2, and Level 3. Level 3 inputs are to be used when neither Level 1 nor Level 2 inputs are available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value as of December 31, 2012 and 2011:

Mutual funds: Valued based on the net asset values of the shares held by the Plan at year end.

Common collective trusts: Are fully benefit-responsive and are valued based on the contract values of the underlying investment in the fund. Contract value represents contributions made under the contract, adjusted for dividend earnings, transfers, loan activity, and distributions. The Plans' investment in this fully benefit-responsive investment fund yielded investment gains of 1.3% and 1.6% for the years ended December 31, 2012 and 2011, respectively.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan presents in the statements of changes in net assets available for benefits, the net appreciation (depreciation) of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the year and the change in contract value of fully benefit-responsive investment contracts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date.

Notes Receivable from Participants – Notes receivable arising from participant loans in 2011 represented amounts transferred into the Plan in conjunction with the merger of the Northern Distributing Savings and Investment Plan in 2006 ("Northern Plan"). Participants under the Northern Plan could borrow from their fund accounts a minimum of $1,000 or up to 50% of their vested account balance. No additional loans are permitted under the Plan.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management of the Plan has evaluated the effects of all subsequent events through July 29, 2013, the date the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

3. INVESTMENTS

4. FAIR VALUE MEASUREMENTS

The Plan uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. For additional information on how the Plan measures fair value, refer to Note 2 – Summary of Significant Accounting Policies. The following table presents the balances of the assets of the Plan measured at fair value on a recurring basis at December 31:

Total investments at fair value	$ 17,674,159	$ 15,459,621

The common collective trusts have been recategorized in the 2011 financial statements as Level 2 investments. It was determined that the common collective trusts' underlying assets were mainly valued using quoted market prices and other observable inputs. These investments were previously presented as Level 3 assets in the 2011 financial statements.

5. PARTY IN INTEREST TRANSACTIONS

Certain investments are shares of mutual funds managed by the Merrill Lynch Retirement Group, an affiliate of Merrill Lynch Trust Company, FSB ("Merrill Lynch"), which is a wholly-owned subsidiary of Bank of America, N.A. ("Bank of America"). As Bank of America is the Plan trustee as defined in the Plan document, these transactions qualify as party in interest transactions.

6. INCOME TAX STATUS

The Plan received a determination letter from the Internal Revenue Service ("IRS") stating the Plan is qualified under Section 401(a) of the IRC, and, therefore, the related net trust investment income is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan was amended subsequent to the IRS determination letter. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust investment income is tax exempt.
