The Plan sponsor may contribute additional amounts at the discretion of the board of directors on an annual basis. For the years ended December 31, 2012 and 2011, no additional amounts were contributed to the Plan.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant, or his or her beneficiary, may elect to receive a lump-sum distribution of his or her entire account balance or a portion of the account balance. For termination of service for other reasons, the participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution of his or her entire account balance or a portion of the account balance.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Companies' discretionary matching contributions and an allocation of investment earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested benefit in the participant's account.

Investments

Participants direct the investment of their participant contributions, employer contributions and earnings thereon into investment options offered by the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' discretionary matching contributions is based on years of service. A participant vests 20% per year for each year of service and is 100% vested after 5 years. In the event the Plan is terminated, matching contributions to the participants' accounts will become fully vested.

Forfeitures
Forfeitures of the nonvested portion of terminated participant accounts may be used to reduce employer matching contributions. Total forfeitures of $34,731 were used to reduce employer matching contributions for 2011. At December 31, 2012 and 2011, the Plan's forfeiture account balance was $40,043 and $1,672, respectively.

Participant Loans
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates determined by the plan administrator (ranging from 4.25% to 9.25% at both December 31, 2012 and 2011). Loans are repayable through periodic payroll deductions or by check or money order whenever payroll withholdings are not possible, over a period generally ranging up to 60 months. Loans for the purchase of a primary residence can be repaid over a reasonable period of time that may exceed 60 months.

Plan Termination
Although it has not expressed any intent to do so, DRA Advisors, LLC has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

Administrative Expenses
Administrative expenses of the Plan are paid by the Plan to the extent not paid by the plan sponsors.

2. Summary of Significant Accounting Policies

Basis of Preparation
The Plan reports on the basis of cash receipts and disbursements, except that investments are reported at fair value in the statements of net assets available for benefits and changes in fair value of investments are shown as appreciation or depreciation in the statements of changes in net assets available for benefits. This modified cash basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Estimates
The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value as measured by quoted prices in an active market. Fully benefit-responsive investment contracts are stated at contract value which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the date received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds and guaranteed investment accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for

such investments.

Payment of Benefits
Benefit payments to participants are recorded when paid.

3. Information Certified by the Plan's Custodians (Unaudited)

The following is a summary of investment and participant loan information included in the Plan's financial statements and supplemental schedule as of and for the years ended December 31, 2012 and 2011, that was prepared or derived from information provided by Great-West Life and Annuity Company of New York ("GWLAC") and Great West Trust Company, LLC ("GWTC"), the custodians of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodians that such information is complete and accurate.

4. Fully Benefit-Responsive Investment Contract with Insurance Company

The Plan is party to an investment contract with GWLAC whereby GWLAC maintained certain of the Plan's contributions in a guaranteed investment account. The guaranteed investment account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by GWLAC. The contract was fully benefit-responsive and was reflected in the financial statements at contract value, which approximates fair value. For the years ended December 31, 2012 and 2011, the average yield and crediting interest rate of the guaranteed investment account were both approximately 1.45% and 2.03%, respectively.

The crediting interest rate for the guaranteed interest fund is determined as follows: the current yield to maturity of the underlying investments plus or minus an adjustment for any difference between the contract value and fair value of securities taken over the contract value and the duration of the securities. The key factors that influenced credit rates are changes to market interest rates, changes in the market value of securities, changes in the duration or weighted average life of securities and deposits or withdrawals to the guaranteed interest fund. The interest crediting rate is reset at least semi-annually, although under certain circumstances such as a large deposit or withdrawal, they may be reset more frequently.

Certain events could limit the ability of the Plan to transact at contract value with GWLAC. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsors or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

The guaranteed investment contract does not permit GWLAC to terminate the agreement prior to the scheduled maturity date.

5. Party-in-Interest Transactions

Certain Plan investments were managed by GWTC during the years ended December 31, 2012 and 2011. GWTC is a custodian of the Plan and, therefore, transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. For the years ended December 31, 2012 and 2011, the administrative expenses paid to GWTC totaled $1,576 and $1,175, respectively.

6. Tax Status

The Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of both December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. Risks and Uncertainties

The Plan has contracts with its custodians that encompass various investment instruments, including mutual funds and guaranteed investment accounts. Investment securities, in general, are exposed to various risks, such as interest rate, credit and market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

8. Subsequent Events

The Plan has evaluated subsequent events through July 23, 2013, the date the financial statements were available for issuance.
