Notes to Financial Statements

December 31, 2012

1. Description of the Plan

The following description of Express Oil Change, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Express Oil Change, LLC and subsidiaries (the Company) who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage of pretax annual compensation (as defined by the Plan), not to exceed federal limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Excess contributions, plus earnings thereon, of $2,252 were refunded to applicable participants after year-end.

The Plan provides for a discretionary match as determined by the Company. In 2012, the Company match was equivalent to 50 percent of the first four percent of base compensation that a participant contributes to the Plan. Additional discretionary amounts may be contributed at the option of the Company. No such contribution was made in 2012. Contributions are subject to certain limitations.

Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions and Plan earnings or losses from the participant's investment activities. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Benefit Payments

On termination of service due to separation, death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan also allows early retirement after six years of service and upon attainment of age 57 ½. For minimum distributions only, a participant may elect to receive annual installments over a fixed reasonable period of time not to exceed the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary. Hardship withdrawals may be available as defined by the Plan document.

Forfeitures

Forfeitures of terminated, nonvested participant accounts relating to match contributions are used to reduce future Company match contributions. Forfeitures of terminated nonvested participant accounts relating to discretionary contributions are allocated to active participant accounts as an additional contribution. Forfeitures of $20,000 were used to reduce the Company match contribution in 2012.

Administrative Expenses

Certain administrative expenses, including accounting and custodial fees, have been paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

2. Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan has adopted ASC 820, Fair Value Measurements and Disclosures (ASC 820), which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: valued based on prices quoted and published by the investment advisor of the accounts. Quoted prices are determined daily based on the market value of the underlying mutual funds and other securities in the accounts. Net change in fair value of the accounts includes interest, dividends and realized and unrealized gains and losses on investments in the accounts.

Cash equivalents: stated at cost which approximates fair value.

Guaranteed interest account: fair value represents the amount that would be received if amounts were withdrawn at the reporting date, which is book value less an early withdrawal charge. The guaranteed interest account is issued by John Hancock Insurance Company, the custodian, with the backing of their general account, and is not considered fully benefit responsive. Due to the nature of the guaranteed interest account, it does not have specific underlying assets assigned.

The following table sets forth by level and investment category, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The Plan provides for investments in various investment securities that in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investment Information

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2012 and 2011, and net appreciation in fair value of investments and interest for the year ended December 31, 2012, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company, the custodian.

Investments that represent five percent or more of the Plan's net assets are as follows:

	2012	2011
John Hancock:		
Lifestyle Growth Fund	**$ 874,576**	$ 841,088
Lifestyle Balanced Fund	**866,081**	751,049
Lifestyle Aggressive Fund	**673,389**	554,095
Oppenheimer Developing Markets Fund	**294,683**	243,636

3. Investment Information (continued)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Guaranteed interest account	$	1,660
Pooled separate accounts		639,582
	$	641,242

4. Tax Status

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

5. Subsequent Events

Management of the Company evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through July 26, 2013, which is the date the financial statements were available to be issued.
