Note 1. Plan Description

The following brief description of the G3 Enterprises, Inc. Retirement Plan (the "Plan") is provided for general information purposes only. The Plan was formerly known as the G3 Enterprises, Inc. Profit Sharing Plan. Participants should refer to the summary plan description for more complete information.

General:

The Plan is a defined contribution plan that was established on January 1, 1983 for the salaried employees of G3 Enterprises, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Merger:

Effective July 2, 2012, the Board of Directors of the Company approved the merger of the assets and liabilities of G3 Enterprises, Inc. 401(k) Savings Plan for Hourly Non-Union Employees and the G3 Enterprises, Inc. Winery Workers' 401(k) Savings Plan to the G3 Enterprises, Inc. Retirement Plan. The assets were transferred to the Plan on July 2, 2012.

Contributions:

The Plan permits participants to defer a percentage of their compensation into the Plan on a pre-tax or after-tax for the years ending December 31, 2012 and 2011, pursuant to Section 401(k) of the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company provides for a matching contribution where applicable. In addition, where applicable, the Company makes annual profit sharing contributions or a nonelective contribution to the Plan based on participating employees' compensation (in each instance reduced by forfeitures of non-vested benefits), unless otherwise determined by its Board of Directors. Contributions are funded currently.

Vesting:

Participants' salary deferrals and rollover contributions and earnings thereon are 100% vested and nonforfeitable. A participant is 100% vested after: (1) 4 years for the Company's profit sharing contributions and the matching contributions for these participants are immediately vested; and (2) 3 years cliff vesting for the Company's matching contribution for hourly nonunion employees.

Vesting associated with the employer contributions for union participants is dependent upon the collective bargaining agreement for the covered employee group.

Notes receivable, participants:

Participants can apply for one or more loans from the Plan. The total amount owed to the Plan by an individual participant cannot exceed the lesser of 50% of such participant's vested account balance or $50,000, reduced by the highest outstanding balance of all loans during the preceding twelve months. The loans are secured by the balance in the participant's account and bear interest at the then current prime rate of interest plus 1%. The loans are held in the Master Trust Loan Fund (see Note 4).

Payment of benefits:

On termination of service, participants may elect to receive a lump-sum distribution equal to the vested value of their account or leave the value of the account on deposit until age 70 1/2, at which time the minimum distributions are required to be made. Participants immediately vest in Company contributions upon death, disability, retirement age or termination of the Plan. Employees receive the value of their accumulated Plan benefits as either as an annuity, periodic payments or a lump-sum distribution.

Amounts allocated to accounts of persons who, at December 31, 2012, have elected to withdraw from the Plan but have not been paid are $-0-.

Participant accounts:

Each participant's account is credited with the participant's contributions and allocation of employer contributions, Plan earnings, and Plan fees. Allocations of earnings are based on account balances as defined by the Plan. All amounts in participant accounts are participant directed. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account. Accounts are valued daily. Distributions are based on the current day's valuation of account balances.

Forfeited accounts:

At December 31, 2012 and 2011, the forfeited non-vested account totaled $35,147 and $38,710, respectively. Employer contributions receivable at December 31, 2012 and 2011 were reduced by $35,147 and $38,710, respectively, from forfeited non-vested accounts.

Plan termination:

Although they have not expressed intent to do so, the Company has the right to discontinue their contributions at any time and to terminate the Plan subject to the provision of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Payments of such amounts will be made to participants by the Trustees as directed by the Plan Committee.

Note 2. Significant Accounting Policies

The following is a summary of significant accounting policies applied in the preparation of these financial statements:

Basis of accounting:

The Plan uses the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reporting amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment valuation:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Notes receivable, participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefits:

Benefit payments are recorded when paid.

Plan fees:

During the year ended December 31, 2012, the Company paid a significant amount of the Plan's other fees.

Note 3. Fair Value Measurements

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB are described as follows: Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 - inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means; Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Registered investment companies (mutual funds): Value at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Investment contract: The fair value of the unallocated investment contract is stated at contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriated and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

(the "trustees") and furnished to the Plan administrator. The Plan's administrator has obtained certification from the trustees that the information provided by the trustees is complete and accurate.

The Master Trusts consisted of the following as of December 31:

	2012	*2011*
Investment, at contract value **	$ 165,297,913	$ 159,497,857

The Plan's proportionate share of the Master Trusts was 5.1% and 4.2% at December 31, 2012 and 2011, respectively. The fair value of the Plan's interest in the Master Trusts is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses.

Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Vanguard Fiduciary Trust Company, a subsidiary of the Vanguard Group, Inc., one of the Plan's trustees. In addition, the investment contract is managed by Galliard Capital Management, Inc., which is a subsidiary of Wells Fargo Bank, N.A., the Plan's other trustee. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Note 6. Reconciliation of Financial Statements to Form 5500

Certain balances included on Schedule H, Part I, II on the Annual Return/Report of Employee Benefit Plan (Form 5500) have been reclassified for the purpose of presentation in the financial statements.

Note 7. Tax Status

The Plan obtained its latest determination letter October 3, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8. Subsequent Events

The Plan has evaluated events and transactions subsequent to December 31, 2012 through June 14, 2013, the date of the independent auditors' report, noting no significant items requiring further discussion.
