ChemTreat, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of ***ChemTreat, Inc. Employee Stock Ownership Plan***, which comprise the statements of net assets available for benefits as of December 12, 2012 and December 31, 2011, and the related statement of changes in net assets available for benefits for the period ending December 12, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 12, 2012 and December 31, 2011, and the changes in net assets available for benefits for the period ending December 12, 2012, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of reportable transactions is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Matters

As further discussed in Note 4 to the financial statements, the board of ChemTreat, Inc. voted on July 11, 2007 to freeze the Plan from future contributions and converted the Plan to a profit sharing plan.

As further discussed in Note 1 to the financial statements, the trustees agreed to merge the Plan into Danaher Savings Plan (a 401(k) plan) effective November 30, 2012.

Notes to Financial Statements

December 12, 2012 and December 31, 2011

1. Description of Plan and Basis of Presentation

The following brief description of the ***ChemTreat, Inc. Employee Stock Ownership Plan*** (Plan) is provided for general information purposes only. Participants should refer to the plan agreement for complete information.

ChemTreat, Inc. (Company) established the Plan in December 1989. Prior to July 2, 2007, the Plan operated as a leveraged employee stock ownership plan (ESOP), and was designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and was subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). As of July 2, 2007, the Plan was converted to a profit sharing plan and on July 11, 2007 the Plan was frozen. The Plan's assets were held by Evercore Trust Company, as trustee. The trustee is appointed by the Company's Board of Directors.

Prior to July 2, 2007, the Plan purchased Company common shares using borrowed funds and held the stock in a trust established under the Plan. The borrowings were repaid by fully deductible Company contributions to the trust fund. As payments were made on the borrowings, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

During 2007, the Company was acquired by Danaher Corporation; as a result all assets were allocated to participants by the end of 2007 and the Plan converted to a profit sharing plan (see Note 4).

Effective November 30, 2012, the Plan merged into the Danaher Savings Plan (a 401(k) plan). The assets were transferred December 12, 2012.

Eligibility

Employees of the Company and its participating subsidiaries were previously eligible to participate in the Plan.

Payment of Benefits

After the sale of the Company on July 2, 2007, the Plan began making distributions directly to participants and transferring certain balances in cash to the ChemTreat, Inc. Profit Sharing Retirement Plan (see Note 4).

Vesting

As a result of the sale of the Company and discontinuance of future contributions, all active participants became fully vested in their accounts. Participants that terminated service prior to July 2, 2007 were fully vested after completing four years of service according to the vesting rules set forth in the Plan.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Prior to July 2, 2007, each participant's account was credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account, shares of Company stock contributed by the Company to replace shares distributed to participants under the terms of the Plan and forfeitures of terminated participants' non-vested accounts. Allocations were based on a participant's eligible compensation, relative to total eligible compensation.

Plan earnings, net of plan expenses, are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance, as reduced by any distribution of capital accumulation during the Plan year, to the total of all participants' beginning of the year account balances, as reduced by the total amount of distributions of capital accumulation during the Plan year.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumption.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employees receive compensation from the Plan.

Payment of Benefits

Benefits are recorded upon distribution.

Subsequent Events

The Plan has evaluated events through July 19, 2013, the date the financial statements were available to be issued.

3. Tax Status

The Plan document was restated effective January 1, 2008. The Internal Revenue Service (the “IRS”) has determined and informed the Company by a letter dated May 22, 2012, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code (“IRC”), subject to the Plan’s adoption of a proposed additional amendment. This required amendment was adopted by the Plan on June 1, 2012. Management believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 12, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

4. Sale of Company Stock

On July 2, 2007, all the Company’s stock, including the Company’s common stock owned by the Plan, was acquired by Danaher Corporation for cash. Effective July 11, 2007, the Plan was frozen, and no further contributions were made to the Plan.

Participant account balances consisted of a stock bonus portion and a money purchase portion. At the recommendation of the trustee, US Trust Company, N.A. (“USTC”), the Plan trustee at the time of the sale to Danaher, the Plan retained \$4,000,000 of the money purchase portion as an escrow to fund operating and legal expenses for the Plan including eventual termination expenses.

The balance of the money purchase portion of the Plan was transferred to the ChemTreat, Inc. Profit Sharing Retirement Plan for active participants (those currently employed with the Company). The stock bonus portion of the Plan for all participants and the money purchase portion for terminated participants were distributed based on participant elections. Stock bonus balances for active participants that did not make a distribution election were also transferred to the ChemTreat, Inc. Profit Sharing Retirement Plan. The escrow balance was paid to participants or transferred to the ChemTreat Profit Sharing Retirement Plan upon termination of the Plan or its merger in the Danaher Savings Plan.

During 2011, the Plan received an amount of supplemental sales proceeds related to the original 2007 sale transaction. The amount represented a portion of the sale proceeds that were set aside in an escrow account to be available to offset any claims or liabilities, including claims for additional tax liabilities, which were not disclosed to the buyer at the time of closing. In March of 2011, an agreement with the IRS was reached on the built-in-gains tax and as a result the majority of these funds held in escrow were distributed between the Plan and the certain owners of the Company at the time of the original sale. These funds were allocated based upon the original sale transaction.

During 2012, the Plan received the remaining funds held in escrow as the final supplemental distribution of sales proceeds.

5. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2011.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments included a mutual fund.

The Plan did not hold any investments at December 12, 2012. The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2011.

	Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
SEI Daily Income Trust	\$ 1,577,126	\$ -	\$ -	\$ 1,577,126

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Exempt Party-in-Interest Transactions

Certain Plan investments were funds managed by Evercore Trust Company. Evercore Trust Company is the trustee as defined by the Plan, and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid to the trustee by the Plan for administrative services were \$5,000 for the period ending December 12, 2012. In addition the Plan paid \$35,415 in accounting and auditing fees, \$37,587 in administration fees and \$14,447 in legal fees for the period ending December 12, 2012.
