IQNavigator, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2012

1. Description of the Plan and Significant Accounting Policies

The following description of the IQNavigator, Inc. 401(k) Plan (the Plan) provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is available to employees aged 21 years or older who have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

IQNavigator, Inc. (the Company) administers the Plan. The Plan's trustee is Principal Trust Company (Principal).

Principal offers participants a variety of investment options through various mutual funds, collective investment trust funds, and a benefit-responsive investment contract under the following major brand names: Pimco, AIM Investments, Heartland Funds, Royce Funds, Lord Abbet, Janus, Goldman Sachs, Principal, and American Century Funds. Additionally, eligible participants can now opt for Roth elective deferrals, as well as qualify for loans.

The Plan also offers participants the choice to self-direct their investment elections outside the Plan's investment options. This alternative allows participants to invest their account balances in cash equivalents or marketable securities. As of December 31, 2012 and 2011, no participants had elected to self-direct their investments.

Contributions

Annual participant contributions are limited to 75% of a participant's annual compensation, not to exceed annual limits established by the Internal Revenue Service (the IRS). The Plan also permits rollover contributions from other qualified retirement plans. Additional catch-up contributions are available to any participant who is aged 50 or older and has made the maximum contributions for the year. Participant contributions to the Plan are made through regular payroll deductions. Roth elective deferrals are also allowed. Participants may change their elective deferral contributions at any time during the Plan year.

1. Description of the Plan and Significant Accounting Policies (continued)

The Company may make a discretionary profit-sharing contribution in an amount to be determined by the Company in the same ratio as each participant's compensation bears to the total of such compensation of all participants. Additional contributions may be made at the Company's discretion. For the year ended December 31, 2012, no profit-sharing contributions were made to the Plan. All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Excess Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants prior to March 15, 2013 and 2012.

Participant Accounts

Each participant account is credited with the participant's contribution, an allocation of the Company's profit-sharing contributions (if any), and Plan earnings or losses. Plan earnings or losses are allocated based on the participant's share of net earnings or losses of their respective elected investment options. If the Company makes a discretionary profit-sharing contribution to the Plan, each eligible participant is awarded their pro rata share of the contribution based on the percentage of their compensation divided into the total compensation of all participants eligible to share in the contribution. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon.

1. Description of the Plan and Significant Accounting Policies (continued)

Any employer contributions and the earnings or losses thereon will vest as follows:

Two years	67%	67%
Three years	100%	100%

A participant's account becomes 100% vested upon death, total and permanent disability, attaining the normal retirement age (the age of 65), or if the Plan is terminated.

Forfeitures

The forfeited nonvested accounts will be used to reduce future employer contributions in the Plan year in which the forfeiture occurs. No forfeitures have occurred since the inception of the Plan.

Participant Loans

Participants may borrow a portion of their account balance subject to a minimum loan of $1,000 and a maximum loan of the lesser of (i) 50% of the vested account reduced by any outstanding loan balance or (ii) $50,000, reduced by the highest outstanding loan balance during the one-year period ending on the day before the new loan is made. The loans are secured by the balance in the participant's account. The maximum duration of all loans cannot exceed five years. All loans are due and payable 60 days after termination of employment, and subject to an interest rate of prime plus 1%.

1. Description of the Plan and Significant Accounting Policies (continued)

Payments of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance, or an annuity. Balances greater than or equal to $1,000 but less than $5,000 will be rolled over to an individual retirement account with Principal Bank upon termination, if not otherwise directed by the participant. Account balances less than $1,000 are to be automatically distributed upon termination if not otherwise directed by the participant. Benefits are recorded when paid. The Plan does not allow for hardship withdrawals.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion.

Purchases and sales of investments are recorded on a trade-date basis. Net appreciation in the fair value of investments represents the net amount of realized and unrealized gains and losses on investments bought and sold, as well as held during the year. Interest income is recorded on the accrual basis. Dividends are recognized on the ex-dividend date.

The Stable Value Trust Fund invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 6); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

1. Description of the Plan and Significant Accounting Policies (continued)

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investments, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement,* to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures are not required for nonpublic entities, as defined in

1. Description of the Plan and Significant Accounting Policies (continued)

ASC 820. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Subsequent Events

Plan management has evaluated subsequent events and transactions for potential recognition or disclosure through July 26, 2013, the date these financial statements were available to be issued.

2. Investments

Other than the fair value of the Stable Value Fund and the adjustment from fair value to contract value for fully benefit-responsive investment contracts, all investment information disclosed in the accompanying financial statements and supplemental schedule including investments held and notes receivable from participants as of December 31, 2012 and 2011, and net appreciation in fair value of investments, interest, dividends and interest income on notes receivable from participants for the year ended December 31, 2012, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Principal Trust Company, the trustee of the Plan. The contract value of the Stable Value Trust Fund was certified complete and accurate by the trustee.

During 2012, the Plan's investments including investments purchased, sold, as well as held during the year, appreciated in fair value as follows:

Collective trust funds	$ 126,472
Mutual funds	561,899
Total	$ 688,371

3. Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated March 31, 2008, stating that the form of the plan qualified under Section 401(a) of the Code and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the Plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

4. Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan at anytime and also pays the cost of certain outside services for the Plan.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at anytime subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested and the Plan administrator is to distribute each participant's account to the participant or the participant's beneficiary.

6. Fair Value Measurements

U.S. GAAP defines fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering assumptions, the Plan follows a three-tier, fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

6. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Mutual Funds: Valued using quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Collective Investment Trust Funds: Valued at NAV based on the underlying net assets of the trust as determined by the issuer.

Stable Value Fund: Fair value is based on the NAV reported by the issuer of the common/collective trust at year-end based on the underlying net assets of the fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2012 and 2011.

(a) The objective of these life cycle funds range from seeking current income and capital appreciation to returns seeking long-term growth of capital and current income.

Withdrawals are generally permitted on any business day. Principal has adopted policies and procedures intended to discourage frequent trading and market timing. Participants of participating funds may transact one "round trip" in a fund in any rolling 30-day period. A "round trip" is defined as two transactions, a purchase and a redemption, in a fund within 30 calendar days.

A participant of a participating fund may direct Principal to transfer units from the fund. Requests to transfer units from the fund include exchanges and nonscheduled rebalancing transactions that result in canceling units in the fund. A participant will not be permitted to initiate a transaction that will transfer units into a fund within 30 days of a transaction that resulted in canceling units from the same fund.

(b) The objective of the fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low-risk profile, and liquidity for benefit-responsive payments. Plan withdrawals shall be made on a valuation date that is 12 months after receiving notice of the Plan's request for withdrawal, except for participant withdrawals for benefit payments and participant transfers to noncompeting funds. However, a withdrawal may be granted earlier than the valuation date at the fund's trustee's discretion.

7. Related Party Transactions

The Plan holds units of mutual funds and collective trust funds managed by Principal Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Reconciliation to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31 to the Form 5500:
