NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Connor Co. (Company) Employees Savings and Profit Sharing 401(k) Plan & Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service (except for employees who are members of the Teamsters and are covered by Central States Health and Welfare Pension Fund). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Contributions

Participants may contribute from 1 to 100 percent of pretax annual compensation, as defined in the Plan. There is also a matching contribution by the Company equal to 50 percent of the first 5 percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. Participants direct the investment of their contributions and amounts contributed by the Company into various investment options offered by the Plan. The Plan currently offers seven mutual funds, one money market account, and one common collective trust account as investment options for Plan participants.

(c) Participant Accounts

Each participant's account is credited with the participant's voluntary contributions, the Company's matching contribution, and allocations of the Company's discretionary contribution and an allocation of Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. Income is allocated daily based on the shares in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Years of Service	Vested Interest
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

(e) Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in installments over a period of not more than the participant's assumed life expectancy or the assumed life expectancy of the participant and the beneficiary. Any distribution to a participant who has a benefit which exceeds $5,000 shall require such participant's consent if such distribution commences prior to the later of his normal retirement age or age 62. Distribution cannot be delayed past April 1 following the year that the participant attains age 70 ½.

(f) Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts that represent the participant matching contribution made by the Company may be used to reduce future Company contributions to the Plan. Forfeited amounts that represent discretionary contributions made by the Company are reallocated to the Plan participants. At December 31, 2012 and 2011, unallocated forfeited nonvested accounts totaled $-0-.

For the year ended December 31, 2012, the Plan applied $1,840 of forfeitures to reduce Company contributions to the Plan.

For the year ended December 31, 2012, $12,347 of forfeitures were reallocated to Plan participants.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

(a) Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan and, thus, is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value as required by authoritative accounting literature. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investment in the common/collective trust is valued using the net asset value of units, which are based on observable market prices for the underlying assets held by the Plan at year-end. Investments in the mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Expenses

Administrative expenses and fees are paid by the Company.

NOTE 3 - INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Mutual funds and money market fund, at fair value, cash, and the contract value for the fully benefit-responsive investment contract, as shown in the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, respectively.

b. Total investment income as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2012.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Individual investments that represent 5 percent or more of the Plan's net assets as of December 31 are as follows:

Investments at fair value:	**2012**	**2011**
Van Kampen Equity Income Fund	$ 3,104,390	$ 2,950,572
Schwab - S&P 500 Index Fund	3,244,763	2,064,951
WHG Large Cap Value Instl Equity Fund	4,034,053	3,609,580
PIMCO Total Return Fund	3,915,077	2,821,408
American Funds Capital World Growth & Income Fund	3,709,164	3,183,585
Schwab Investor Money Market Fund	1,679,832	1,814,820
Oppenheimer Small Cap Value Fund	*	3,442,392
John Hancock Disciplined Value Mid Cap Fund	4,061,571	*
Investments at contract value:		
Morley Stable Value Fund	3,275,670	*
Schwab Stable Value Fund	*	3,293,327

*This investment did not represent 5 percent or more of the Plan's net assets as of December 31.

NOTE 3 - INVESTMENTS (CONTINUED)

The Plan has an investment in common/collective trusts, Morley Stable Value Fund as of April 24, 2012, and the Schwab Stable Value Fund prior to April 24, 2012 (Funds), which are reported in the financial statements at contract value because they are fully benefit-responsive. The Funds maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Funds issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the common/collective trusts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common/collective trusts. The common/collective trusts are presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Funds, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

On November 8, 2011, Charles Schwab Bank announced its plans to terminate the Schwab Stable Value Fund effective as of the close of business on April 30, 2012. The change eliminated the trust's wrap contracts and changes the accounting method from contract value to fair value accounting. Any balances or investment elections remaining in the Schwab Stable Value Fund at the close of April 24, 2012 were automatically moved to the Morley Stable Value Fund.

The fair value and contract value as of December 31, 2012 and 2011 are as follows:

	2012	2011
Fair value	$ 3,338,499	$ 3,319,692
Contract value	$ 3,275,670	$ 3,293,327

NOTE 3 - INVESTMENTS (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The crediting interest rate of the contract is based on a formula agreed upon with the issuer. Such interest rates are reviewed monthly for resetting. The average yields of the contract are as follows:

	2012	2011
Based on actual earnings	.87%	1.53%
Based on interest credited to participants	1.65%	4.59%

NOTE 4 - FAIR VALUE MEASUREMENTS

In determining fair value, the Plan uses various valuation approaches within the required fair value measurement framework. Fair value measurements are determined based upon the assumptions that market participants would use in pricing an asset or liability.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets:
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the Fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments to the common/collective trust.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds and money market account:				
Equity funds	$ 18,154,187	$ -	$ -	$ 18,154,187

Total assets at fair value	$ 23,749,096	$ 3,338,499	$ -	$ 27,087,595

	Assets at Fair Value as of December 31, 2011

Total assets at fair value	$ 19,887,308	$ 3,319,692	$ -	$ 23,207,000

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 6 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated December 24, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The effects of an uncertain tax position are recognized in the financial statements when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 7 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of common/collective trust funds, money market funds, and mutual funds managed by Charles Schwab, who is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of amounts per the financial statements to the Form 5500:

	December 31, 2012	December 31, 2011
Net assets available for benefits per the financial statements	$ 28,515,683	$ 24,590,405

Adjustment from fair value to contract value	(26,365)	
Net increase (decrease) in net assets available for benefits per Form 5500	$ 3,898,913	

NOTE 10 - PENDING BENEFIT PAYMENTS

At December 31, 2012 and 2011, there were no net assets available for benefits that were pending payment.

NOTE 11 - SUBSEQUENT EVENTS

Management evaluated subsequent events through July 29, 2013, the date the financial statements were available to be issued.
