NOTE 1 DESCRIPTION OF PLAN

The following description of the Lewis Bolt & Nut Company 401(k) Plan (the Plan) is intended to provide only general information. Participants should refer to the Summary Plan Description or the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) profit sharing defined contribution plan covering substantially all employees of Lewis Bolt & Nut Company (the plan sponsor and administrator). The Plan became effective on July 1, 1996. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and all requirements of Sections 401(a) and 401(k) of the Internal Revenue Code.

Plan Administration

The company is the sponsor and plan administrator. The company has appointed Fidelity Management Trust Company (Custodian) as asset custodian of the Plan. The Custodian pays the distributions and retirement benefits at the direction of the plan administrator and provides custodial and investment management services with respect to the net assets of the Plan. The Custodian also advises the plan administrator of compliance with ERISA and other matters related to the operation of the Plan.

Eligibility

Each employee meeting minimum eligibility requirements is eligible to participate and can become a participant on January 1, April 1, July 1, or October 1 following their completion of six months of service.

Employee Wage Deferrals

Participants may elect to contribute between 0% to 60%, or a specified dollar amount of their compensation to the Plan via wage deferrals subject to a calendar year dollar limit determined annually by the Internal Revenue Service.

Employer Contributions

The Plan also provides for discretionary employer matching contributions. Lewis Bolt & Nut Company provides a matching contribution equal to 25% of wage deferral up to a maximum of 6% of compensation. Discretionary employer matching contributions of $38,453 and $32,647 were made for the years ended December 31, 2012 and 2011, respectively.

Employee Rollover Contributions

The Plan provides for participants and nonparticipants to roll over contributions from other qualified retirement or profit sharing plans.

NOTE 1 DESCRIPTION OF PLAN – Continued

Profit Sharing Contributions

Employer profit sharing contributions are discretionary and are determined by the plan sponsor's Board of Directors. A participant is eligible to receive an allocated share of the contributions if requirements of eligibility are met and the participant has not been terminated for any reason other than death or disability. Contributions to the Plan are funded within the time prescribed by law. There were no profit sharing contributions for the years ended December 31, 2012 and 2011.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the employer's contributions, if any, and allocation of plan earnings, and charged with plan withdrawals and an allocation of administrative expenses.

The allocation of the employer's matching contribution, if any, is based on each participant's ratio of their wage deferral percentage to the total deferral of all qualifying participants. Profit sharing contributions are allocated to participants employed on the last day of the year based on a ratio of each participant's compensation to all participant's compensation. Allocation of plan earnings is based on the share of each individual fund in a participant's account to the total of each fund in all participants' accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their contributions and all company contributions into various investment options offered by the Plan. The Plan currently offers its participants 27 mutual fund accounts as investment options.

Forfeited Accounts

Forfeitures of terminated participants will first be used to reduce plan administrative expenses and any remaining amount will be used to reduce future employer obligations.

At December 31, 2012, there was $1,194 of forfeited nonvested account balances. During 2012, the plan used $0 of forfeited nonvested accounts to fund employer contributions and $2,825 to pay administrative expenses of the Plan.

At December 31, 2011, there was $982 of forfeited nonvested account balances. During 2011, the Plan used $0 of forfeited nonvested accounts to fund employer contributions and $1,771 to pay administrative expenses of the Plan.

Participant Loans Receivable

Participant loans are permitted in accordance with the employer's written loan policy. Loans may not exceed 50% of the employee's vested account balance and may not exceed $50,000 for any participant. Employees are entitled to only one loan at any given time. Loans bear interest at rates equal to 3%. Payments are made monthly through payroll deductions over the loan term, not to exceed six years.

NOTE 1 DESCRIPTION OF PLAN – Continued

Vesting

Participants are immediately 100% vested in their wage deferrals and earnings on these deferrals. The following schedule determines vesting in the employer matching and profit sharing contributions:

Years of Vesting	Percentage Vested
Less Than One Year	0%
One Year	20%
Two Years	40%
Three Years	60%
Four Years	80%
Five or More Years	100%

Payment of Benefits

Upon termination of employment, participants are entitled to receive an amount equal to their vested account balance, determined as of the valuation date. The participants may elect to receive their benefits in a lump sum payment or defer some or all of the distribution within the provisions set forth in the Plan Document.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Presentation

The financial statements of the Plan are prepared using the accrual method of accounting.

The financial statements and related notes are intended to conform with The Department of Labor's rules of Section 2520.103-8 and regulations for reporting and disclosures under The Employee Retirement Income Security Act of 1974. All information required to comply with these laws has been included herein and is in conformity with those laws.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. The realized gain or loss on sales of investments is determined based upon the average cost of investments sold. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividend income is recorded on the ex-dividend rate. Interest is recorded as earned.

Participant Loans Receivable

Participant loans receivable are valued at their amortized cost/outstanding principal balance, plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Employee Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. There was $6,069 of participant contributions and earnings thereon returned to participants during 2013 related to the year ended December 31, 2012. There was $1,629 of participant contributions and earnings thereon returned to participants during 2012 related to the year ended December 31, 2011.

Excess Employer Contributions

Amounts for employer match contributions related to excess employee contributions are transferred to the forfeiture account. There was $3,785 of excess employer matching contributions and earnings thereon transferred to the forfeiture account during 2013 related to the year ended December 31, 2012. There was $2,924 of excess employer matching contributions and earnings thereon transferred to the forfeiture account during 2013 related to the year ended December 31, 2011.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan is sponsored by the employer. Personnel within the employer's organization perform various administrative services for the Plan. The payroll and related overhead costs associated with these services are not included as plan expenses. The Plan made direct payments of $4,027 and $2,921 to Fidelity Management Trust Company for recordkeeping and other plan expense for the plan years 2012 and 2011, respectively. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Subsequent Events

Management has evaluated subsequent events, for transactions and events that would require recognition in the financial statements or disclosures, through July 16, 2013.

NOTE 3 INFORMATION CERTIFIED BY THE PLAN CUSTODIAN (UNAUDITED)

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Company has received certifications from the custodian as to the accuracy and completeness of certain plan financial information. The Independent Auditors have not audited the following information regarding investments and earnings on investments and participant loans receivable and interest income from participant loans contained in the financial statements and supplemental schedule to the financial statements as it has been certified by the custodian for the applicable periods:

- Investment balances
- Interest and dividends
- Net appreciation in fair value of investments
- Supplemental Schedule of Assets (Held at End of Year) – December 31, 2012
- Participant loan terms and balances

NOTE 4 ABILITY TO TERMINATE THE PLAN

The plan sponsor has the right to discontinue its contributions or terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is completely terminated, all amounts credited to the affected participants' accounts shall become 100% vested and shall not be subject to forfeiture. All unallocated amounts shall be allocated to the accounts of all participants in accordance with the provisions of the Plan Document.

Upon such termination, the plan sponsor will direct the trustee and plan administrator either to completely distribute all assets in the trust fund to the participants or continue the trust and distribute benefits in such a manner as though the Plan had not been terminated.

NOTE 5 FEDERAL INCOME TAX STATUS

Fidelity Management Trust Company, the provider of the prototype Plan Document adopted by the Plan has received a determination letter in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code. The Plan is relying on an opinion letter that the prototype plan received from the Internal Revenue Service, that the Plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The prototype plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the prototype plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan Administrator believes the Plan meets the requirements of Section 401(a) of the IRC and is exempt from federal income tax under Section 401(a) of the Code.

NOTE 5 FEDERAL INCOME TAX STATUS – Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are not uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 FAIR VALUE MEASUREMENTS

The Fair Value Measurements Topic of the FASB Accounting Standards Codifications establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: ◆ Quoted prices for similar assets or liabilities in active markets; ◆ Quoted prices for identical or similar assets or liabilities in inactive markets; ◆ Inputs other than quoted prices that are observable for the asset or liability; ◆ Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 PARTY-IN-INTEREST TRANSACTIONS

Plan Trustee and Custodian

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions and are denoted as such on the Supplemental Schedule of Assets (Held at End of Year). The trustee is not precluded under contract provisions or by ERISA, from executing investment transactions involving assets under the trustee's control.

Fees incurred by the Plan for investment services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing and are charged directly to each participant's account, rather than a direct payment. In addition, as described in Note 2, the Plan made direct payments to Fidelity of $4,027 and $2,921 for recordkeeping and other plan expenses which was not covered by revenue sharing and are included in administration expenses of the Plan for the years ended December 31, 2012 and 2011, respectively.
