NOTES TO THE FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note A - Description of Plan

The following description of the LBC Holdings, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan established in 1998 by LBC Holdings, Inc. (the Company) to provide benefits to eligible employees, as defined in the Plan document as those who have completed twelve months of service and are at least 21 years old. The Plan is subject to the provisions of ERISA.

Administration. Under the terms of the Plan, a group of designated officers of the Company act as the trustee. The Company has appointed an Administrative Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with Hicks Pension Services to act as the third-party administrator. Substantially all expenses of maintaining the Plan are paid by the Company.

Contributions. Participants may elect to have the Company contribute up 100% of eligible pre-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified dined benefit or defined contribution plans. Participants direct the investments of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds as investment options for participants.

Annually the Company is allowed to make discretionary matching contributions equal to 25 percent of the aggregate salary contributions of each employee. The Plan also allows for a discretionary profit sharing contribution. In 2012 and 2011, the Company has not made a discretionary profit sharing contribution. A participant must be employed on the last day of the Plan year to be eligible for the discretionary profit sharing contribution.

Participant Accounts. Each participant's account is credited with the participant's contributions, rollovers, and allocations of (i) Plan earnings or loss, and charged with an allocation of administrative expenses and (ii) the Company's contributions, if any. Allocations are based on participants' compensation or account balances, as defined in the Plan. Allocation of the Company's

discretionary matching contribution is based on participant contributions. Allocation of the Company's discretionary profit sharing contribution is based on employee eligible compensation, as defined in the Plan.

Vesting. Participants are immediately vested in their salary deferral, rollover contributions and related earnings. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after four years of credited service, receiving 25 percent annually after one year of service.

Notes Receivable From Participants. Participants may borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's vested balance. The loans are secured by the balance in the participants account and bear interest at rates that range from 4.25 percent to 5.5 percent, which are commensurate with local prevailing rates as determined quarterly. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits. On termination of service, the participants or beneficiaries may elect to leave their account balance in the Plan, receive the benefits in a lump sum amount equal to the value of the participant's vested interest in their account or in the form of a life annuity. The Plan allows for the automatic lump sum distribution of participant vested account balances that do not exceed $5,000.

Forfeitures. As of December 31, 2012 and 2011 the balance of the forfeited non-vested account totaled $650 and $603, respectively. These accounts will be used to deduct future employer contributions.

Note B - Summary of Significant Accounting Policies

Basis of Accounting. The accounts of the Plan are maintained, and the accompanying financial statements have been prepared on the modified cash basis method of accounting. Additionally, mutual fund investments are reflected at fair value. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note H for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the modified cash basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are assumed by participants. No allowance for credit loss has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan payments the plan administrator deem the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits. Benefits are recorded when paid.

Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administration of the notes receivable are charged directly the participant's account. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events. The plan has evaluated subsequent events through July 11, 2013, the date the financial statements were available to be issued.

Note C - Related Party Transactions and Party In Interest Transactions

Certain Plan investments are managed by Hartford Retirement Services, LLC. Hartford Retirement Services, LLC is the custodian as defined by the plan, and therefore, these transactions qualify as party in interest transactions. Fees paid by the plan for the investment management services are included in net change in fair value of investments.

Note D – Investments

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under EIRSA. Accordingly, Reliance Trust Company, the trustee of the Plan, has certified to the completeness an accuracy of all investments reflected on the accompanying statements of assets net assets available for benefit as of December 31, 2012 and 2011 and the related investment activity reflected in the statements of changes in assets available for benefits for the year ended December 31, 2012.

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2012	2011
MFS Cash Reserve	$ 351,561	$ 282,499
MFS Bond	396,641	320,623
MFS Total Return Fund	220,317	183,008
American Funds Growth Fund	271,693	206,140
Mutual Discovery	154,518	119,155

During the year ended December 31, 2012 the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $117,643.

Note E - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and resolution of its Board of Directors. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note F - Tax Status

The Company adopted a Prototype Non Standardized Profit Sharing Plan with a cash or deferral arrangement. The Internal Revenue Service has issued an opinion letter for the prototype plan dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the opinion letter, the plan administrator believes that the plan currently is designed and being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualifies for tax-exempt.

Accounting principles require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan as taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for periods prior to 2010.

Note G - Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at the least

reasonably possible that changes in market values, interest rates or other factors will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statement of net assets available for benefits.

Note H - Fair Value Measurements

That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:
