## NOTE 1 - PLAN DESCRIPTION

The following description of the Morton Community Bank 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering all employees of Morton Community Bank (Bank) age 21 or older and having attained three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

### Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, or the maximum permissible amount under law, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various mutual fund investment options offered by the Plan. The employer contribution is at the sole discretion of the employer and is invested as directed by the participants.

### Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Bank's contributions and Plan earnings based on a series of formulas. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Vesting

Participants are immediately vested in their contributions and the employer's discretionary contributions, plus actual earnings thereon.

### Notes Receivable From Participants

Participants may borrow from their account balances a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the participant's vested account balance and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid over a level amortization not less frequently than quarterly.

**NOTE 1 - PLAN DESCRIPTION** (CONTINUED)

**Payment of Benefits**

On termination of service due to death, disability, retirement, or other termination, a participant or beneficiary may elect to either receive a lump sum amount equal to the value of the participant's vested account balance or equal monthly, quarterly, or annual installment payments over a period of years not longer than their life expectancy or the joint and last survivor life expectancies of the participant and their beneficiary. If a participant's vested account balance does not exceed $5,000 at termination, it is distributed either in a single lump sum amount or rolled over to an IRA.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

The financial statements of the Plan are prepared using the accrual basis of accounting.

In accordance with accounting standards generally accepted in the United States of America (GAAP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a guaranteed interest contract (GIC). As required by GAAP, the Statements of Net Assets Available for Benefits present the fair value of the investment in the GIC, as well as any adjustment of the investment in the GIC from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (CONTINUED)

**Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The GIC is recorded at contract value. Contract value represents contributions, plus interest, less withdrawals. The fair value of the GIC is based on discounting the related cash flows of the underlying guaranteed investment contract based on current yields of similar instruments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of Benefits**

Benefits are recorded when paid.

**Notes Receivable From Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

**Expenses**

Administrative and operating expenses are paid either by the Plan or by the Bank. Total administrative and operating expenses incurred by the Plan for the years ended December 31, 2012 and 2011 were $39,276 and $36,819, respectively.

**Subsequent Events**

Management evaluated subsequent events through July 11, 2013, the date the financial statements were available to be issued.

## NOTE 3 - INVESTMENTS

For 2012 and 2011, the Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $5,786,145 as of December 31, 2012 and $4,793,498 as of December 31, 2011.

b. Total investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of $674,628 and $(184,173) for the years ended December 31, 2012 and 2011, respectively.

The fair value of individual investments that represent 5 percent or more of the Plan's net assets as of December 31 are as follows:

| | 2012 | 2011 |
|---|---|---|
| DFA International Value III | $ 489,577 | $ 351,598 |

*This investment did not represent 5 percent or more of the Plan's net assets as of December 31.

**NOTE 3 - INVESTMENTS** (CONTINUED)

Investment income is comprised of the following for the years ended December 31:

| | 2012 | 2011 |
|---|---|---|
| Dividends and interest from mutual and money funds | $ 174,187 | $ 95,904 |
| Dividends and interest from common collective trust | 12 | 1 |
| Net appreciation (depreciation) in fair value of mutual and money funds | 490,752 | (300,728) |
| Net appreciation in fair value of guaranteed investment contract | 9,677 | 20,650 |
| | $ 674,628 | $ (184,173) |

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

**NOTE 4 - FAIR VALUE MEASUREMENTS**

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**NOTE 4 - FAIR VALUE MEASUREMENTS** (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

*Mutual and money funds:* Valued at the net asset value ("NAV"), based on quoted market prices in active markets, of shares held by the plan at year end.

*Common collective trust*: Valued at the NAV of their underlying investments.

*Guaranteed investment contracts*: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the nature of the categories of assets by major security type.

*U.S. equity:* This asset class is generally composed of investment options that invest in the stocks of U.S. companies of various sizes. Small U.S. company stocks may be an appropriate choice for investors who are seeking the potential for long-term growth. Large, well-established U.S. company stocks may be an appropriate choice for current income with some potential growth in the long-term.

*Non-U.S. equity:* This asset class is generally composed of investment options that invest in the stocks of non-U.S. companies of various sizes. The investment in foreign stocks within this category is only done in developed markets. Small company stocks may be an appropriate choice for investors who are seeking the potential for long-term growth. Large, well-established company stocks may be an appropriate choice for current income with some potential growth in the long-term.

*Fixed income:* This asset class is generally composed of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). They may be an appropriate choice for investors who are seeking current income and secondarily, the growth of capital.

**NOTE 4 - FAIR VALUE MEASUREMENTS** (CONTINUED)

*Emerging markets equity:* This asset class is generally composed of investment options that invest in the stocks of non-U.S. companies of various sizes. The investment in foreign stocks within this category is only done in emerging markets. They may be an appropriate choice for investors who are seeking the potential for long-term growth.

*Real estate:* This asset class is generally composed of investment options that invest in the stocks of real estate related companies (including U.S. and Non-U.S.). Small company stocks may be an appropriate choice for investors who are seeking the potential for long-term growth. They may be an appropriate choice for current income with some potential growth in the long-term.

*Balanced:* This asset class is generally composed of investment options that invest in a diversified allocation of equity funds, such as stocks of companies, and fixed income funds, such as bonds or debt of a company or government entity. They may be an appropriate choice for current income with some potential growth in the long-term.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

| | Assets at Fair Value as of December 31, 2012 | | | |

**NOTE 4 - FAIR VALUE MEASUREMENTS** (CONTINUED)

**Level 3 Gains and Losses**

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

| | Guaranteed Investment Contract | |
|---|---|---|
| | 2012 | 2011 |
| Balance, beginning of year | $ 921,706 | $ 949,786 |
| Realized gains | 6,061 | 13,667 |
| Unrealized gains relating to instruments still held at the reporting date | (38,286) | 23,335 |
| Purchases | 53,870 | 54,929 |
| Sales | (943,351) | (120,011) |
| **Balance, end of year** | $ - | $ 921,706 |

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

**NOTE 5 - INVESTMENT CONTRACT**

The Plan had entered into a benefit-responsive investment contract with MetLife that was held by a master trust. In 2012, the bank approved a resolution to terminate the contract and commence liquidation of the assets held by the master trust. This change eliminated the trust's wrap contracts and changed the accounting method from contract value to fair value accounting. MetLife maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. MetLife was contractually obligated to repay the principal and accrued interest, based on credited interest rates, for participant-initiated withdrawals as long as the contract remained active. There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than zero percent. Such interest rates were reviewed on a quarterly basis for resetting.

**NOTE 5 - INVESTMENT CONTRACT** (CONTINUED)

Certain events limited the ability of the Plan to transact at contract value with the master trust. Such events included the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events, which cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. There was no occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants.

As described above, because the GIC was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

| Average Yields for GIC | 2011 |
|---|---|
| Based on actual earnings | 6.45% |
| Based on interest rate credited to participants | 2.96% |

**NOTE 6 - RELATED PARTY TRANSACTIONS**

Certain Plan investments are shares of mutual and money funds managed by Charles Schwab Bank and Charles Schwab Trust Company. Charles Schwab Bank and Charles Schwab Trust Company are the custodians of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $39,276 and $36,819 for the years ended December 31, 2012 and 2011, respectively.

**NOTE 7 - PLAN TERMINATION**

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

## NOTE 8 - TAX STATUS

The Employer has adopted a non-standardized prototype plan designed by Alliance Benefit Group North Central States Inc. The Internal Revenue Service has determined and informed Alliance Benefit Group North Central States Inc. by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the adoption of the prototype plan, but the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes is included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

## NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
