1. Description of Plan

The following brief description of the Rochester Midland Corporation 401(k) Salary Deferral and Deferred Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on October 1, 1985 and is a salary reduction plan pursuant to Section 401(k) of the Internal Revenue Code. The Plan covers substantially all employees of Rochester Midland Corporation (RMC) who meet certain age and length-of-service requirements. The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation in 401(k) benefits

Employees who completed six months of service and reached age 18 were entitled to participate in the Plan for the year ended December 31, 2012. Further information concerning the Plan agreement and benefit provisions is contained in the Rochester Midland Corporation Payroll Investment Plan 401(k) Agreement. Copies of this agreement are available from the Rochester Midland Corporation 401(k) Salary Deferral and Deferred Profit Sharing Plan Advisory Committee. In the absence of an election made by a Participant, within a specific period of time as established by the Plan Administrator, a Participant shall be deemed to have elected a pre-tax contribution of 2.0% of his or her compensation.

The Plan provides for a discretionary employer matching contribution. The matching contribution is at the sole discretion of the Board of Directors of the Plan Sponsor. Matching contributions amounted to $70,827 and $92,474 for the years ended December 31, 2012 and 2011, respectively.

Participation in deferred profit sharing benefits

Employees who have completed at least one thousand hours of service in any plan year shall be eligible to receive a profit sharing contribution. Initial eligibility of an employee shall commence on January 1 of the plan year in which they were employed prior to July 1 of the plan year and completed one thousand hours of service. Further information concerning the plan agreement and the vesting and benefit provisions is contained in the Rochester Midland Corporation Deferred Profit Sharing Trust Agreement. Copies of this agreement are available from the Rochester Midland Corporation 401(k) Salary Deferral and Deferred Profit Sharing Plan Advisory Committee.

In May, 2012 the Plan Sponsor purchased the Water Technologies division of Ashland Corporation (Ashland). Per the terms of the agreement, the plan was amended to grant eligibility and vesting credit under the Plan to former employees of Ashland with such service credits based on the employees' service with Ashland prior to May 12, 2012.

1. **Description of Plan** (Continued)

Participation in deferred profit sharing benefits (Continued)

As a result of the acquisition, the plan was also amended in May, 2012 to change the Plan's profit sharing contribution allocation formula to a rate group classifications approach which allows the Plan Sponsor to make certain contributions to the Plan based on commitments made in the acquisition documents. The contribution amount for each rate group is based on the difference between the former Ashland employees' last pension contribution while employed at Ashland and the profit sharing contribution, if any, made by RMC to the Plan for a given year. If the profit sharing contribution from RMC is less than a rate group's last pension contribution at Ashland, RMC is required to contribute the difference. If the profit sharing contribution from RMC is greater than a rate group's last pension contribution at Ashland, no additional contribution is required on behalf of the rate group by RMC. This amendment will be in effect for the Plan years ending December 31, 2012 and 2013.

Administration

The Rochester Midland Corporation 401(k) Salary Deferral and Deferred Profit Sharing Plan Advisory Committee is responsible for the general administration of the Plan and implementation of the plan provisions.

Participant accounts

Each participant shall have an account which will be credited with employer contributions, participant's contributions and plan earnings. Allocations are based on participant compensation or account balances.

Participant loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates determined by the Plan administrator. Participant loans outstanding at December 31, 2012 bear interest rates of 4.25%.

Vesting

100% after 6th year of participation

1. **Description of Plan** (Continued)

Vesting (Continued)

As noted above, the Company acquired certain assets of Ashland Corporation in May, 2012. Former Ashland employees hired in May, 2012 retained vesting credit for prior service with Ashland.

Funding policy

Each eligible participant may contribute any percentage up to 50% of their compensation for the pay period as elected in the salary deferral agreement. Participants' accounts are credited for their contributions upon disbursement of payroll. Discretionary employer matching contributions are provided for in the Plan. In addition, participants may transfer funds from other qualified plans with the consent of the plan administrators.

Included in rollover contributions are $72,852 and $94,535 of transferred funds from the Rochester Midland Corporation Employee Stock Ownership Plan for the years ended December 31, 2012 and 2011, respectively. These rollovers represent the diversification of funds as permitted by the ESOP.

RMC shall provide annual discretionary profit sharing contributions to the Plan, if any, as specified by the Board of Directors of the Company for each participant eligible to share in the allocation for a plan year. The Plan is funded on a current basis. There were no discretionary profit sharing contributions made to the Plan for the years ended December 31, 2012 and 2011.

As noted above, RMC shall provide annual profit sharing contributions to former Ashland employees using a rate group classifications approach. Profit sharing contributions using this approach for the years ended December 31, 2012 and 2011 amounted to $100,149 and $-0-, respectively.

Payment of benefits

Upon retirement, death, or disability, the entire account balance, if less than $5,000 will be distributed in the form of a lump-sum payment. If the account balance is greater than $5,000, the participant may choose a lump-sum distribution or equal installments over various periods based on life expectancy. In addition, lump-sum distributions may be made, with participant consent, under the following conditions: separation from service and upon the hardship of a participant as provided for in the Plan and in government regulations.

Forfeitures

Forfeitures arising under the Plan are used first to offset administrative costs and second to offset the employer match. Any remaining forfeitures are available to be allocated to participant accounts. Forfeitures activity during 2012 and 2011 consisted of the following:

Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

2. **Summary of Significant Accounting Policies** (Continued)

Fair value measurements (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quotes prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Cash equivalents: Includes money market accounts, certificates of deposit and all highly liquid debt instruments with an original maturity date of three months or less.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at the end of the year.

Common collective trust: Reported at fair value, based on the fair market value of the underlying investment contracts (including guaranteed investment contracts issued by insurance companies and other financial institutions, separate account contracts and synthetic wrap contracts). As of December 31, 2012 and 2011, the fair value of the collective investment trust was equal to contract value.

2. Summary of Significant Accounting Policies (Continued)

Fair value measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Use of estimates

The preparation of financial statements requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan management's review of subsequent events

The Plan Administrator evaluated events occurring between the end of the most recent calendar year and July 9, 2013, the date the financial statements were available to be issued.

3. Financial Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of The Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Bank of America, N.A., the trustee of the Plan, has certified the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for plan benefits, the schedule of assets held for investment purposes and the related investment activity reflected in the statements of changes in net assets available for plan benefits.
