Dent Wizard International Savings and Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 1: Description of the Plan

The following description of the Dent Wizard International Savings and Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan’s provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by Dent Wizard International Corporation and its wholly-owned subsidiaries (the “Company”) for the benefit of its employees who have at least 90 days of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Massachusetts Mutual Life Insurance Company is the custodian of the Plan and MassMutual Retirement Services serves as the Plan’s third party administrator.

On November 2, 2010, the Company was acquired from Cox Enterprises, Inc. On December 14, 2010, the Plan assets of Company employees were transferred from the Cox Enterprises, Inc. Savings and Investment Plan (Cox Plan) to the newly established plan. During 2011, an additional group of Company employees was identified and their account balances, totaling \$591,346, were transferred from the Cox Plan to the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 25 percent of eligible compensation. Employee rollover contributions are also permitted. Effective January 1, 2012, the Plan was amended to include an auto deferral election of 3 percent of Plan compensation for all employees who became participants on or after April 1, 2012, and who do not enter into a contrary salary deferral election. For those participants with one year of service, the Company makes matching contributions of 50 percent of employees’ salary deferral amounts on the first 6 percent of employees’ compensation. Company profit-sharing contributions are discretionary as determined by the Company’s Board of Directors. There were no profit-sharing contributions made in 2012 or 2011. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Dent Wizard International Savings and Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, Company matching and profit-sharing contributions, plus earnings thereon.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the value of their account or installment payments.

Participant Loans

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50 percent of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Dent Wizard International Savings and Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment in the guaranteed interest account, as well as the adjustment of the investment in the guaranteed interest account from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Mutual funds are valued at the net asset value (NAV) of shares held by the plan at year-end. The fair value of the guaranteed interest account is based on liquidation value as defined in the contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Plan Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Massachusetts Mutual Life Insurance Company. This prototype Plan Document has been filed with the appropriate agency and has obtained a determination letter dated May 11, 2009, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and, therefore, not subject to tax. The Plan has been amended since adopting the prototype. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Dent Wizard International Savings and Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events have been evaluated through the date of Independent Auditor's Report, which is the date of the financial statements were available to be issued.

Note 3: Investments, Investment Return and Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying Statements of Net Assets Available for Benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011. Investments that represent 5 percent or more of total net assets are separately identified.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying Statements of Net Assets Available for Benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced

Dent Wizard International Savings and Retirement Plan

Notes to Financial Statements

market parameters. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 investments.

Fair value determinations for Level 3 measurements of investments are the responsibility of the Plan Administrator. The Plan Administrator contracts with the custodian to generate fair value estimates on a monthly or quarterly basis. The Plan Administrator challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying Statements of Net Assets Available for Benefits using significant unobservable (Level 3) inputs:

Guaranteed interest account	\$ 3,152,435	Liquidation value	Contractual interest rate	3.65%

Notes to Financial Statements

December 31, 2012 and 2011

Investment Return

During the years ended 2012 and 2011, the Plan's mutual funds (including gains and losses on investments bought, sold and held during the year) appreciated (depreciated) in value by \$4,482,941 and \$(1,760,453), respectively.

Interest and dividends realized on the Plan's investments for years ended 2012 and 2011 were \$919,229 and \$607,150, respectively.

Note 4: Investment Contract with Custodian

The Plan has a fully benefit-responsive investment contract with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the Custodian. Contract value represents contributions made by participants, plus interest at specified rates determined semiannually, less withdrawals or transfers by participants. Participants may ordinarily direct the withdrawal or transfer of all or portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The average rate of return of the contract as of December 31, 2012 and 2011, was 3.65 percent and 4.25 percent, respectively.

Note 5: Information Certified by the Custodian

The Custodian has certified the completeness and accuracy of certain information which management used in preparing the financial statements, supplemental schedules and accompanying notes. Accordingly, this information was not audited. The following is a summary of information provided by the Custodian:

- Investments and notes receivable from participants as reported in the Statements of Net Assets Available for Benefits at December 31, 2012 and 2011.
- Investment income (loss) and interest income from notes receivable from participants as reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011.
- Investments and notes receivable from participants as reported on the Schedule of Assets (Held at End of Year) at December 31, 2012.

Note 8: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions to the Plan, contributions of \$4,020 were not remitted within the required time period for the year ended December 31, 2011. In 2012, management prepared and filed Form 5330 and remitted the lost earnings to the Plan to correct these late remittances.
