Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

We have audited the accompanying financial statements of Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan's net assets available for benefits as of December 31, 2012 and changes therein for the year then ended, and its financial status as of December 31, 2011 and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note 1 - Description of the Plan

The following description of the Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Organization

Longview Fibre Paper and Packaging, Inc. (the "Company") maintains the Plan and the Union Hourly Retirement Plan (the "Retirement Plan"), which are both defined benefit plans. The purpose of the Plan is to provide pension benefits for all salaried and non-bargaining union employees. Pension benefits payable under the Plan are reduced by any benefits due while a member of the Retirement Plan.

The assets of the Plan and the Retirement Plan are included in the Longview Fibre Paper and Packaging, Inc. Master Trust (the "Master Trust"), which is administered by Wells Fargo Bank, N.A. ("Wells Fargo") and the McDermott Trust. The McDermott Trust is administered by an officer of the Company. The McDermott Trust was established on April 7, 1988, to allow the Company to invest Plan assets in more than one trust. Under the terms of the two trust agreements, the trustees act as custodians of the trust assets. The Plan is administered by a Pension Committee appointed by the Board of Directors of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension Benefits

The Plan provides for annual pension benefits at normal retirement age (65), at retirement after age 65, or at a reduced amount as early as age 55 when certain service requirements are met. The amount of benefits is generally calculated based on length of service and specified unit benefits, compensation earned during the years participants are members of the Plan, or length of service and average compensation for the highest five of the last ten years of service. The Plan also provides certain minimum and maximum pension benefits. Under conditions specified in the plan agreement, a participant may elect to receive pension benefits in the form of a joint and survivor annuity.

In most instances, a death benefit of \$1,000 will be paid to the beneficiary on the death of a retired participant. Generally, if a participant becomes disabled and has completed a 15-year period of service, but before normal retirement age, the participant will receive benefits based on benefit service and average ending compensation as of the earlier of the termination date or December 31, 2010, and without any reduction for early commencement.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note 1 - Description of the Plan (continued)

Pension Benefits (continued)

Certain benefits are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. The PBGC typically guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Eligibility and Vesting

All employees of the Company who have completed one year of continuous service with at least 870 hours of service and who are eligible as described above are participants of the Plan.

Participants' benefits in the Plan become fully vested upon completion of three years of qualified service. If termination occurs before rendering three years of service, the right to receive the portion of accumulated plan benefits attributable to the Company's contributions is forfeited. If the employment service resumes and five consecutive one-year breaks in service do not occur, membership in the Plan will be immediate. Participants who terminated employment during the period that commenced on April 20, 2007, and ended on September 30, 2008, have a 100 percent vested nonforfeitable right to his or her entire accrued benefit.

A participant who receives an Early Retirement Benefit shall receive a temporary monthly benefit payable from the participant's early retirement date until the first day of the month that precedes the date the participant attains age 65 or dies, whichever is earlier, provided that as of December 31, 2008 (i) the participant had attained the age of 45 and had a Period of Service of five or more years and (ii) the participant did not attain age 50 and have a Period of Service of ten or more years.

Funding Policy

Provisions of the Plan provide that the Company makes contributions of amounts designated by a qualified actuary to be adequate to fund the Plan on a sound actuarial basis. The actuary utilizes the entry age normal cost method with frozen initial liability. The Plan has met the "full funding limitation" as defined by Internal Revenue Code Section 412(c)(7). As a result, the Company made no contributions to the Plan for the years ended December 31, 2012 and 2011 for current or prior service costs.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note 1 - Description of the Plan (continued)

Disposition of Funds Upon Termination of the Plan

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. To provide for refunds of voluntary contributions made by active and retired members;
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the PBGC up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Payments may be made in lump sums, annuities or as otherwise determined by the Pension Committee.

Plan Amendment

The Plan was amended during the year and effective November 1, 2012, such that a participant who receives an Early Retirement Benefit shall receive a temporary monthly benefit payable from the participant's early retirement date until the first day of the month that precedes the date the participant attains age 65 or dies, whichever is earlier, provided that as of December 31, 2008 (i) the participant had attained the age of 45 and had a Period of Service of five or more years and (ii) the participant did not attain age 50 and have a Period of Service of ten or more years.

Note 2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of Significant Accounting Policies (continued)

Recent Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements* in U.S. GAAP and IFRS ("ASU 2011-04"), which amends FASB ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"). The amendments in this guidance are not intended to result in a change in current accounting. ASU No. 2011-04 changes the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for measurements categorized within Level 3 of the fair value hierarchy. This guidance is effective for annual reporting periods beginning after December 15, 2011. Longview adopted ASU No. 2011-04 on January 1, 2012. The adoption of this guidance did not have a material impact on the Plan's net assets available for benefits, changes in net assets available for benefits, or related disclosures.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis in the period which it is earned. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Concentration of Credit Risk

The Plan maintains its cash balance at Bank of America, N.A. This balance is insured by the Federal Deposit Insurance Corporation up to \$250,000. At various times during the year, deposits in the account exceeded the FDIC coverage. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on its cash balances.

Plan Expense

A portion of the Plan's administrative expenses are paid by the Company. As provided in the Plan agreement, all other administrative expenses are paid by the Plan.

Note 2 - Summary of Significant Accounting Policies (continued)

Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated December 30, 2003, that the Plan and related trusts are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Allocation of Master Trust Assets

Investments, cash, interest receivable and the Plan's interest in unrealized appreciation (depreciation) on the valuation of investments at current fair value are generally allocated based on cumulative contributions to the Plan, plus realized investment income (loss), less cumulative benefit payments and contribution refunds since inception. Realized investment income (loss) is allocated to the Plan generally based on the average funds deposited and invested by each plan with the trustee during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The type and amount of benefits are defined by the Plan document and vary by location. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Buck Consultants and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the in the valuations as of January 1, 2012 and 2011 were (a) life expectancy of participants, (b) retirement age assumptions based on a table of anticipated rates of retirement at each of the ages at which retirement eligibility occurs, and (c) expected long-term rate of return on Plan assets. Life expectancy of participants was based on versions of the RP 2000 Table. The January 1, 2012 and 2011 valuations included an expected long-term rate of return on Plan assets of 6.0% and 7.0%, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The interest rates and mortality tables were updated since January 1, 2011 to reflect changes in accordance with Pension Protection Act of 2006 ("PPA"). The effective interest rate for the January 1, 2012 valuation date of 6.96% increased from the rate used for the January 1, 2011 valuation of 6.22%. The discount rate decreased from 7.00% in 2011 to 6.00% in 2012. The amount of administrative expenses expected to be paid from the Plan was changed from 6.0% of Target Normal Cost as of January 1, 2011 to \$300,000 as of January 1, 2012.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note 3 - Actuarial Present Value of Accumulated Plan Benefits

Participants' interests in the Plan are actuarially determined as of the beginning of each plan year. The present value of obligations for Plan benefits is determined to be the present value of retirement benefits accumulated by participants during the current and prior years to be paid at or during retirement, less benefits forfeited or previously paid. The determination is made using a 7.0% interest rate per annum and the RP-2000 Combined Mortality Table.

Accumulated Plan benefits as of January 1, 2012, the valuation date, are summarized as follows:

	<u>2012</u>
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 120,690,262
Other participants	<u>70,457,145</u>
Total vested benefits	191,147,407
Non-vested benefits	<u>3,537,926</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 194,685,333</u></u>

The changes in accumulated Plan benefits from the year ended January 1, 2012 are as follows:

	<u>Year ended January 1, 2012</u>
Actuarial present value of accumulated plan benefits at January 1, 2011	\$ 171,370,681
Increase (decrease) during the year attributable to:

Note 5 – Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a three-level hierarchy for disclosure of assets and liabilities recorded at fair value. The classification of assets and liabilities within the hierarchy is based on whether the inputs to the valuation methodology used for measurement are observable or unobservable. Observable inputs reflect market-derived or market-based information obtained from independent sources while unobservable inputs reflect estimates about market data. The level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 – Level one inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date. An active market is one in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Longview Fibre Paper and Packaging, Inc.
Employees' Pension Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note 5 – Fair Value Measurements (continued)

Level 2 – Level two inputs are inputs other than quoted prices included within level one that are observable for the asset or liability, either directly or indirectly, at the measurement date. Fair value is determined through the use of models or other valuation methodologies. Such methodologies include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level two inputs must be observable for substantially the full term of the asset or liability.

Level 3 – Level three pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

Following is a description of the valuation methodologies used for assets measured at fair value for the Master Trust. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Cash equivalents: Valued at amortized cost, which approximates fair value.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds and notes, U.S. government securities and municipal bonds: Valued at the closing trade price on day of valuation based on information from third-party pricing services as obtained by Wells Fargo.

Mortgage backed securities: Valued using quotations from an independent pricing service which may employ methodologies that utilize actual market transactions, actual quotations from broker-dealers, or other formula-driven valuation techniques, which consider factors such as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions.

Real estate investment trust: The underlying holdings of this investment are in diversified real estate assets, which are valued using independent appraisers. Investments are redeemed at the current net asset value per share based on the fair value of the underlying assets.

Limited partnership interests: Certain partnership interests are valued at the fund net asset values of each investee fund. For other partnership interest, independent appraisers value properties on an annual basis (at a minimum) and salient valuation assumptions of each asset are reviewed quarterly by the fund trustee in the determination of value of the fund.

Note 5 – Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets measured at fair value as of December 31, 2012 and 2011:

Asset	2012			Total
	Level 1	Level 2	Level 3

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note 5 – Fair Value Measurements (continued)

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share as of December 31, 2012 and 2011, respectively.

Year	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2012				
Limited partnership interest	\$27,639,139	\$6,299,129	(a)	(a)
Real estate investment trust	\$22,484,491	N/A	(b)	(b)
December 31, 2011				
Limited partnership interest	\$27,811,793	\$8,723,000	(a)	(a)
Real estate investment trust	\$21,261,438	N/A	(b)	(b)

(a) The class includes several funds that invest in limited partnerships. The fair values of the investments in this class have been estimated using the net asset value of the Company's ownership interest in partners' capital. Distributions from each fund will be received as the underlying investments of the funds are liquidated.

(b) This category invests the majority of its assets in U.S. commercial real estate holdings including industrial, office, retail, residential and land, which are valued using independent appraisers who primarily use the income capitalization and sales comparable approaches. Redemption requests must be received in writing 45 days prior to the end of the quarter and investments are redeemed at the current net asset value per share based on the fair value of the underlying assets.

Note 6 - Commitments

As of December 31, 2012 and 2011, the Plan and Retirement Plan have a commitment to contribute capital to nine partnership groups totaling approximately \$6,299,129 and \$8,723,000, respectively.

Note 7 – Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A., or an affiliate thereof. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

Note 8 – Subsequent Events

In June 2013, KapStone Kraft Paper Corporation, a wholly owned subsidiary of KapStone Paper and Packaging Corporation (NYSE:KS) ("KapStone") entered into a Stock Purchase Agreement with the Company and Brookfield Asset Management ("Brookfield"). Pursuant to the Agreement, KapStone agreed to purchase all of the issued and outstanding shares of the Company's common stock.

On July 18, 2013, KapStone completed the stock purchase of the Company from its security holders Brookfield Capital Partners II (NR) L.P., Brookfield Capital Partners II (PC) L.P. and Brookfield Capital Partners II L.P., all of which are investment funds affiliated with Brookfield. The Company does not expect the change in control to have a material impact on the Plan.

Subsequent events have been evaluated through July 31, 2013, the date of the independent certified public accounting report, noting no additional matters that require disclosure or adjustment to the financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 24 – Change in Actuarial Assumptions

The assumed interest crediting rate on the 2009 cash account was decreased from 6.49% per annum as of January 1, 2011 to 6.28% per annum as of January 1, 2012.

Conversion factors used to annuitize cash accounts were updated to reflect the December 2011 3-segment spot interest rates of 1.99%, 4.47% and 5.26%, and the 2012 applicable mortality table.

Loading for expenses was changed from 6% of Target Normal Cost as of January 1, 2011 to \$300,000 as of January 1, 2012.

Schedule SB, Line 22 – Description of Weighted Average Retirement Age

This age is derived by applying, for an employee with the characteristics of an average new entrant to the plan, the following formula, modified so that the “½” is not used for $t = \text{FRA} - \text{ERA}$.

$$\sum_{t=0}^{\text{FRA}-\text{ERA}} ({}_t p_{\text{ERA}}) * (q_{\text{ERA}+t}^r) * (\text{ERA} + t + \frac{1}{2})$$

$$\sum_{t=0}^{\text{FRA}-\text{ERA}} ({}_t p_{\text{ERA}}) * (q_{\text{ERA}+t}^r)$$

where

FRA = age by which everyone is assumed to retire
 ERA = age before which nobody is assumed to retire
 ${}_t p_{\text{ERA}}$ = probability of surviving at work to age ERA + t
 $q_{\text{ERA}+t}^r$ = probability of retiring at age ERA + t

Early Retirement:

Benefits may commence at any time upon vesting.

Eligibility for subsidy on frozen benefit at age 55 with 15 years of Qualifying Service. No reduction at age 62 and 5.0% reduction per year from age 55 to 62.

Appendix B: Summary of Plan Provisions (continued)

Pre-retirement Death Benefit:

Eligibility	Completion of either 5 years of Qualifying Service (Type A) or 10 years of Qualifying Service (Type B). Terminated participants may waive coverage after age 35.
Benefit:	50% of the benefit the participant would have received if they had terminated on their date of death and retired with a 50% J&S benefit at their earliest possible retirement date. The surviving spouse of a participant who is employed, but not early retirement eligible at death, and with age plus service greater than or equal to 70, may receive their benefit immediately using a 5% reduction from age 65. Cash accounts, if any, are payable in full on an actuarially equivalent basis and may be paid in a single lump sum.
Charge to accrued benefit:	0.15% per year of post-termination coverage between age 35 and 55. 0.75% per year of post-termination coverage after age 55. No charges apply for periods of coverage after December 31, 2008. No charge for pre-termination coverage.
Special death benefit:	\$1,000 will be paid in a single lump sum upon the death of a participant who has met the requirements for normal, early, disability or late retirement and whose Beneficiary receives no employer-provided insurance proceeds.

Disability Benefit:

Eligibility:	Completion of 15 years of Qualifying Service (Type B) and deemed disabled by the Plan Administrator and Social Security Administration.
Benefit:	Accrued benefit payable immediately with no reduction.

Deferred Vested Benefit:

Eligibility:	Completion of 5 years of Qualifying Service (Type A) or 10 years of Qualifying Service (Type B).
Benefit:	Accrued benefit payable at normal retirement date. Participants with 15 years of Qualifying Service (Type B) may commence receiving benefits in an actuarially equivalent amount on or after age 55.

Appendix B: Summary of Plan Provisions (continued)

Forms of Payment:

- i) Life annuity
- ii) 50% Joint & Survivor annuity
- iii) 75% Joint & Survivor annuity
- iv) 100% Joint & Survivor annuity

Cash accounts may be paid as a single lump sum, regardless of the value.

A lump sum will be paid if the amount of the entire benefit (including the cash balance) does not exceed \$1,000.

A lump sum may be paid if the amount of the entire benefit (including the cash balance) exceeds \$1,000 but does not exceed \$5,000.

Summary of Changes from the January 1, 2011 Valuation

The plan was amended in 2011 so that benefits for participants who terminated between April 20, 2007 and September 30, 2008 that would otherwise have been non-vested will be treated as vested.
