Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2012 and 2011, and for the years ended December 31, 2012 and 2011, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedules of assets (held at end of year) as of December 31, 2012, and reportable transactions for the year ended December 31, 2012 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note 3, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the Plan) is provided for general informational purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the Company), a wholly-owned subsidiary of Fiberweb PLC, is the Plan Sponsor.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

The Plan is a noncontributory, defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington (Washougal) location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

The Company makes contributions to the Plan in order to fund the normal cost and amortization of prior service cost, based on actuarial determinations. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the years ended December 31, 2012 and 2011.

On December 13, 2012, the Plan Sponsor made a contribution of \$5,000,000 in excess of the minimum funding requirements. The Plan Sponsor has made this excess contribution in order to improve the funded status of the Plan and intends to use the contribution to pre-fund future minimum funding requirements as defined by ERISA.

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if the participant has completed at least 15 years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on rate of pay at the time of retirement and years of service by the employee, as outlined in the plan document.

The Plan provides for 100% vesting of participants' benefits after five years of service.

2 Summary of Significant Accounting Policies **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures" establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in the money market fund are valued based on quoted market prices in an active market. Mutual fund assets are redeemable securities, which permit the shareholder to present, redeem and receive a proportionate share of the current value of the fund's assets during normal trade hours. Investments in bonds are valued based on quoted market prices for similar assets in active markets.

Net gain (loss) from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gains and losses represent the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gains and losses represent the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2012 and 2011, there were no transfers in or out of Levels 1, 2 or 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Non-interest Bearing Cash

The Plan's trustee places temporary cash with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

Administrative Expenses

The majority of administrative expenses are paid by the Plan, as provided in the plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term could materially affect the funded status of the Plan and amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants

Benefits are recorded when paid.

3 Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Non-interest bearing cash, investments and accrued income receivable, as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011
- Interest and dividend income and net gain from investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011
- Schedule H, Line 4i - Schedule of assets (held at end of year) as of December 31, 2012
- Schedule H, Line 4j - Schedule of reportable transactions for the year ended December 31, 2012

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value, as of December 31, 2012:

As of December 31, 2012	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Money market funds	8,764,689	-	-	8,764,689

Corporate debt instruments - Large-cap	-	2,232,969	-	2,232,969
Total investments at fair value	9,935,847	9,642,418	-	19,578,265

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

As of December 31, 2011	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Money market funds	160,530	-	-	160,530
Mutual funds:				
Large-cap blend	2,185,788	-	-	2,185,788
Large-cap growth	575,976	-	-	575,976
Large-cap value	1,416,208	-	-	1,416,208
Mid-cap growth	599,100	-	-	599,100
Small-cap blend	302,687	-	-	302,687
Bonds:				
U.S. Government securities	-	1,308,426	-	1,308,426
Corporate debt instruments - Preferred - Large-cap	-	4,812,639	-	4,812,639
Corporate debt instruments - Large-cap	-	2,164,413	-	2,164,413
Total investments at fair value	5,240,289	8,285,478	-	13,525,767

The Plan's investment strategy related to its investments in mutual funds is to primarily maintain a large-cap focus. The Plan's investment in U.S. Government securities includes both government treasury bonds and government agency bonds, as detailed in the supplemental schedule, which are measured using a mix of Level 1 and Level 2 inputs. As the Level 2 inputs are significant to the fair value measurement, the investments are reported as Level 2 in the table above. The Plan's investments in domestic corporate debt instruments focus on fixed-income strategies that match the duration of the Plan's liabilities. The majority of these instruments are large-cap debt instruments allocated over a variety of industries, with no one industry providing over 25% of the allocation. A money market fund balance of \$8,764,689 was held at December 31, 2012 to protect the Plan against uncertainty over the U.S. fiscal cliff. This balance was reallocated back into bonds and mutual funds in accordance with the investment strategy during the first quarter of 2013.

Investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are as follows:

Investment	2012	2011
	\$	\$
PIMCO Money Market Inst	8,691,436	*
Vanguard 500 Index (Signal)	1,171,158	1,321,157
Artisan International Fund	*	864,631
Dodge & Cox International Stock Fund	*	823,536

* The fair market value of these investments did not represent 5% or more of the fair market value of the plan assets as of the balance sheet date.

The net gain (loss) from investment activity for the plan years ended December 31, 2012 and 2011, resulted from the following types of investments:

	2012	2011
	\$	\$
Mutual funds	166,614	(258,678)
Bonds	1,344,033	791,460
	1,510,647	532,782

5 Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to the services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) designated beneficiaries of deceased employees. In 2010, the Plan changed presentation of actuarial present value of accumulated plan benefits from end-of-period reporting to beginning-of-period reporting. Actuarial computations were made by the Plan's actuary using the traditional unit credit actuarial cost method and are based on the following assumptions at December 31, 2011 and 2010:

Mortality basis	IRS 2008 Generational Mortality Table
Retirement	Age 65, adjusted for early retirement
Rate of return	5.80% and 5.20%, respectively

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2011 and 2010 was as follows:

At December 31	2011	2010
	\$	\$
Vested benefits:		
Participants currently receiving payments	12,065,813	12,322,123
Participants entitled to deferred benefits	-	963,769
Other participants	3,493,578	2,850,915
	15,559,391	16,136,807
Nonvested benefits	-	189,200
Total actuarial present value of accumulated plan benefits	15,559,391	16,326,007

The change in the actuarial present value of accumulated plan benefits for the years ended December 31, 2011 and 2010, consisted of the following:

For the years ended December 31	2011	2010
	\$	\$
Actuarial present value of accumulated plan benefits, beginning of year	16,326,007	16,270,178
Increase (decrease) attributable to:		
Decrease in discount period	943,640	940,292
Benefits paid	(1,215,049)	(1,232,818)
Additional benefits earned, including experience gains and losses	(495,207)	348,355
Actuarial present value of accumulated plan benefits, end of year	15,559,391	16,326,007

6 Federal Income Tax Status

The Internal Revenue Service (IRS) issued a determination letter dated October 25, 2011, stating that the Plan and related trust were designed to be tax exempt in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2009.

7 Plan Termination

While it has not expressed any intention to do so, the Company has the right, as presented in the plan document, to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the net assets of the Plan shall be allocated in accordance with provisions as outlined in the plan document. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan and the amount of benefit protection are subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the maximum amount of an individual's monthly benefit that the PBGC guarantees. For terminations occurring during 2012, this ceiling was \$4,653 per month. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8 Party-in-Interest Transactions

The Plan's non-interest bearing cash is held by New York Life Investment Management and certain plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of New York Life Trust Company (NYL). NYL is the trustee as defined by the Plan and, therefore, transactions in investments managed by the NYL and its affiliates qualify as party-in-interest transactions.

During the years ended December 31, 2012 and 2011, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, to the financial information reported in the Plan's Form 5500 filing:

10 Subsequent Events

The Plan has analyzed its activity subsequent to December 31, 2012, through August 2, 2013, the date the financial statements were available to be issued, and has determined that it does not have any material subsequent events that require adjustment to or disclosure in these financial statements.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with no lookback (as of January 2012), each adjusted as needed to fall within the 25-year average interest rate corridor under MAP-21
1st Segment Rate	5.54%
2nd Segment Rate	6.85%
3rd Segment Rate	7.52%
Interest Rates for Maximum Tax Purposes	Based on segment rates with no lookback (as of January 2012), without regard to the MAP-21 interest rate corridor
1st Segment Rate	1.98%
2nd Segment Rate	5.07%
3rd Segment Rate	6.19%
Retirement Age	
Active Participants	See Table 1
Terminated Vested Participants	Age 65
Mortality Rates	
Healthy and Disabled	Generational Mortality Table in accordance with §1.430(h)(3)
Withdrawal Rates	See Table 2
Disability Rates	See Table 3
Decrement Timing	Beginning of year decrements, with 100% retirement occurring at beginning of year
Surviving Spouse Benefit	It is assumed that 90% of males and 90% of females have an eligible spouse, and that males are three years older than their spouses.

Washougal
EIN: 62-1421310 PN: 003

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Investment Committee of the
Fiberweb Washougal, Inc. Retirement Plan
for Hourly Employees at Washougal:

Report on the financial statements

We were engaged to audit the accompanying financial statements of **Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal** (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2012 and 2011, and for the years ended December 31, 2012 and 2011, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedules of assets (held at end of year) as of December 31, 2012, and reportable transactions for the year ended December 31, 2012 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note 3, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the Plan) is provided for general informational purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the Company), a wholly-owned subsidiary of Fiberweb PLC, is the Plan Sponsor.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

The Plan is a noncontributory, defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington (Washougal) location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

The Company makes contributions to the Plan in order to fund the normal cost and amortization of prior service cost, based on actuarial determinations. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the years ended December 31, 2012 and 2011.

On December 13, 2012, the Plan Sponsor made a contribution of \$5,000,000 in excess of the minimum funding requirements. The Plan Sponsor has made this excess contribution in order to improve the funded status of the Plan and intends to use the contribution to pre-fund future minimum funding requirements as defined by ERISA.

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if the participant has completed at least 15 years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on rate of pay at the time of retirement and years of service by the employee, as outlined in the plan document.

The Plan provides for 100% vesting of participants' benefits after five years of service.

2 Summary of Significant Accounting Policies **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures" establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in the money market fund are valued based on quoted market prices in an active market. Mutual fund assets are redeemable securities, which permit the shareholder to present, redeem and receive a proportionate share of the current value of the fund's assets during normal trade hours. Investments in bonds are valued based on quoted market prices for similar assets in active markets.

Net gain (loss) from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gains and losses represent the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gains and losses represent the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2012 and 2011, there were no transfers in or out of Levels 1, 2 or 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Non-interest Bearing Cash

The Plan's trustee places temporary cash with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

Administrative Expenses

The majority of administrative expenses are paid by the Plan, as provided in the plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term could materially affect the funded status of the Plan and amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants

Benefits are recorded when paid.

3 Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Non-interest bearing cash, investments and accrued income receivable, as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011
- Interest and dividend income and net gain from investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011
- Schedule H, Line 4i - Schedule of assets (held at end of year) as of December 31, 2012
- Schedule H, Line 4j - Schedule of reportable transactions for the year ended December 31, 2012

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value, as of December 31, 2012:

As of December 31, 2012	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Money market funds	8,764,689	-	-	8,764,689

Corporate debt instruments - Large-cap	-	2,232,969	-	2,232,969
Total investments at fair value	9,935,847	9,642,418	-	19,578,265

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

As of December 31, 2011	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Money market funds	160,530	-	-	160,530
Mutual funds:				
Large-cap blend	2,185,788	-	-	2,185,788
Large-cap growth	575,976	-	-	575,976
Large-cap value	1,416,208	-	-	1,416,208
Mid-cap growth	599,100	-	-	599,100
Small-cap blend	302,687	-	-	302,687
Bonds:				
U.S. Government securities	-	1,308,426	-	1,308,426
Corporate debt instruments - Preferred - Large-cap	-	4,812,639	-	4,812,639
Corporate debt instruments - Large-cap	-	2,164,413	-	2,164,413
Total investments at fair value	5,240,289	8,285,478	-	13,525,767

The Plan's investment strategy related to its investments in mutual funds is to primarily maintain a large-cap focus. The Plan's investment in U.S. Government securities includes both government treasury bonds and government agency bonds, as detailed in the supplemental schedule, which are measured using a mix of Level 1 and Level 2 inputs. As the Level 2 inputs are significant to the fair value measurement, the investments are reported as Level 2 in the table above. The Plan's investments in domestic corporate debt instruments focus on fixed-income strategies that match the duration of the Plan's liabilities. The majority of these instruments are large-cap debt instruments allocated over a variety of industries, with no one industry providing over 25% of the allocation. A money market fund balance of \$8,764,689 was held at December 31, 2012 to protect the Plan against uncertainty over the U.S. fiscal cliff. This balance was reallocated back into bonds and mutual funds in accordance with the investment strategy during the first quarter of 2013.

Investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are as follows:

Investment	2012	2011
	\$	\$
PIMCO Money Market Inst	8,691,436	*
Vanguard 500 Index (Signal)	1,171,158	1,321,157
Artisan International Fund	*	864,631
Dodge & Cox International Stock Fund	*	823,536

* The fair market value of these investments did not represent 5% or more of the fair market value of the plan assets as of the balance sheet date.

The net gain (loss) from investment activity for the plan years ended December 31, 2012 and 2011, resulted from the following types of investments:

	2012	2011
	\$	\$
Mutual funds	166,614	(258,678)
Bonds	1,344,033	791,460
	1,510,647	532,782

5 Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to the services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) designated beneficiaries of deceased employees. In 2010, the Plan changed presentation of actuarial present value of accumulated plan benefits from end-of-period reporting to beginning-of-period reporting. Actuarial computations were made by the Plan's actuary using the traditional unit credit actuarial cost method and are based on the following assumptions at December 31, 2011 and 2010:

Mortality basis	IRS 2008 Generational Mortality Table
Retirement	Age 65, adjusted for early retirement
Rate of return	5.80% and 5.20%, respectively

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2011 and 2010 was as follows:

At December 31	2011	2010
	\$	\$
Vested benefits:		
Participants currently receiving payments	12,065,813	12,322,123
Participants entitled to deferred benefits	-	963,769
Other participants	3,493,578	2,850,915
	15,559,391	16,136,807
Nonvested benefits	-	189,200
Total actuarial present value of accumulated plan benefits	15,559,391	16,326,007

The change in the actuarial present value of accumulated plan benefits for the years ended December 31, 2011 and 2010, consisted of the following:

For the years ended December 31	2011	2010
	\$	\$
Actuarial present value of accumulated plan benefits, beginning of year	16,326,007	16,270,178
Increase (decrease) attributable to:		
Decrease in discount period	943,640	940,292
Benefits paid	(1,215,049)	(1,232,818)
Additional benefits earned, including experience gains and losses	(495,207)	348,355
Actuarial present value of accumulated plan benefits, end of year	15,559,391	16,326,007

6 Federal Income Tax Status

The Internal Revenue Service (IRS) issued a determination letter dated October 25, 2011, stating that the Plan and related trust were designed to be tax exempt in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2009.

7 Plan Termination

While it has not expressed any intention to do so, the Company has the right, as presented in the plan document, to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the net assets of the Plan shall be allocated in accordance with provisions as outlined in the plan document. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan and the amount of benefit protection are subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the maximum amount of an individual's monthly benefit that the PBGC guarantees. For terminations occurring during 2012, this ceiling was \$4,653 per month. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8 Party-in-Interest Transactions

The Plan's non-interest bearing cash is held by New York Life Investment Management and certain plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of New York Life Trust Company (NYL). NYL is the trustee as defined by the Plan and, therefore, transactions in investments managed by the NYL and its affiliates qualify as party-in-interest transactions.

During the years ended December 31, 2012 and 2011, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, to the financial information reported in the Plan's Form 5500 filing:

10 Subsequent Events

The Plan has analyzed its activity subsequent to December 31, 2012, through August 2, 2013, the date the financial statements were available to be issued, and has determined that it does not have any material subsequent events that require adjustment to or disclosure in these financial statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date	April 4, 1990
Effective Date of Last Amendment	January 31, 2010
Plan Year	January 1 to December 31
Employer Fiscal Year	January 1 to December 31
Plan Administrator	Fiberweb, Inc.

Eligibility Requirements

To be eligible for plan participation, an employee must have attained age 21 and completed one year of service. In no event shall an employee have to wait more than five years to enter the plan.

As of January 31, 2010 the plan is closed to new entrants.

Plan Entry Dates

An eligible employee will participate in the plan on the January 1 or July 1 immediately following completion of the age and service requirements.

As of January 31, 2010 the plan is closed to new entrants.

Service

Service shall equal total years, months, and days of service with the employer. Service for benefit accrual purposes is frozen as of January 31, 2010.

A period of severance occurs when an employee does not work for more than 365 days. Service will not be interrupted by:

- a. A leave of absence granted by the employer;
- b. A period of service in the Armed Forces of the United States under which employment rights are granted; or
- c. A period of disability during which the participant is being paid directly or indirectly by the employer.

An employee will be given credit for his pre-break service if either of the following occurs:

- a. The employee had a vested interest in his accrued benefit at the time of his break in service; or
- b. The employee's period of absence was less than the greater of his pre-break service or five years.

Vesting

All participants shall be vested based upon a 5-year cliff vesting schedule.

Normal Retirement
Eligibility

The normal retirement date for each participant is the attainment of age 65.

Benefit

Schedule of benefit rates per year of service payable at age 65 on a lifetime only basis:

Accrued Benefit

The monthly accrued benefit, with respect to the formula above, as of any date but no later than January 31, 2010.

Delayed Retirement

A participant may continue in employment after his normal retirement age and will accrue benefits until the late retirement date.

Schedule SB Attachment (Form 5500)—2012 Plan Year
Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at
Washougal
EIN: 62-1421310 PN: 003

Early Retirement

A participant's optional early retirement date shall be upon the attainment of age 55 and service as indicated below:

Age	Service
55–57	15
58	14
59	10
60 or over	5

If the payment date precedes the normal retirement date, the benefit will be reduced by 3% for each year early. However, if payments begin after a participant attains age 62 with 15 years of service, there will be no reduction for early payment.

Effective December 30, 2011 active employees of FitesaFiberweb Washougal, Inc. are deemed to have met the service requirement for early retirement eligibility.

Preretirement Death Benefit

If a vested active participant should die prior to retirement, his spouse shall be entitled to the vested accrued benefit as of the date of death, but payable as if the participant had elected payment to begin on his earliest retirement date in the form of a Joint and 100% Survivor benefit.

In no event shall a participant receive less than the employee contributions with interest.

Postretirement Death Benefit

If a participant dies after retirement and at the time of retirement they were an eligible employee, the beneficiary will receive \$1,000.

Methods of Payments

The normal form of retirement benefit payable to a retired participant is a straight life annuity. If the participant is married, the pension is paid as an actuarial equivalent Joint and 50% Survivor benefit unless the participant and his spouse elect otherwise.

Schedule SB Attachment (Form 5500)—2012 Plan Year
Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at
Washougal
EIN: 62-1421310 PN: 003

Other than the normal form of payment, a participant may elect to receive an annuity under one of the following actuarially equivalent optional modes:

- a. A reduced benefit is paid to the participant for life, with 120 monthly payments guaranteed. If the participant dies within the guarantee period, the payments continue to be paid to a beneficiary until the balance of payments has been paid.
- b. A reduced benefit is paid to the participant for life, with such benefit (50%, 75% or 100% of such benefit thereof) continued after death for the subsequent lifetime of the surviving spouse.
- c. An increased benefit is paid to the participant prior to age 62, with such benefit being reduced at age 62 to reflect the Social Security income for the life of the participant, or for the life of the participant with reduction by 50% after death for the subsequent lifetime of the surviving spouse.

Contributions

No employee contributions are required.

Amendments

The employer reserves the right to amend or terminate the plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the plan if the employer fails to meet the minimum funding standards, or is unable to pay benefits when due. If the plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the employer shall be liable for any unfunded vested benefits to the extent required by law.

Plan Changes Since the Prior Year

The funding, financial accounting, and plan reporting valuations reflect a plan change for Early Retirement eligibility as described in this section. The plan was also amended as a single employer plan.

General Information

Original Effective Date	April 4, 1990
Effective Date of Last Amendment	January 31, 2010
Plan Year	January 1 to December 31
Employer Fiscal Year	January 1 to December 31
Plan Administrator	Fiberweb, Inc.

Eligibility Requirements

To be eligible for plan participation, an employee must have attained age 21 and completed one year of service. In no event shall an employee have to wait more than five years to enter the plan.

As of January 31, 2010 the plan is closed to new entrants.

Plan Entry Dates

An eligible employee will participate in the plan on the January 1 or July 1 immediately following completion of the age and service requirements.

As of January 31, 2010 the plan is closed to new entrants.

Service

Service shall equal total years, months, and days of service with the employer. Service for benefit accrual purposes is frozen as of January 31, 2010.

A period of severance occurs when an employee does not work for more than 365 days. Service will not be interrupted by:

- a. A leave of absence granted by the employer;
- b. A period of service in the Armed Forces of the United States under which employment rights are granted; or
- c. A period of disability during which the participant is being paid directly or indirectly by the employer.

An employee will be given credit for his pre-break service if either of the following occurs:

- The employee had a vested interest in his accrued benefit at the time of his break in service; or
- The employee's period of absence was less than the greater of his pre-break service or five years.

Vesting

All participants shall be vested based upon a 5-year cliff vesting schedule.

Normal Retirement
Eligibility

The normal retirement date for each participant is the attainment of age 65.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Investment Committee of the
Fiberweb Washougal, Inc. Retirement Plan
for Hourly Employees at Washougal:

Report on the financial statements

We were engaged to audit the accompanying financial statements of **Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal** (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2012 and 2011, and for the years ended December 31, 2012 and 2011, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedules of assets (held at end of year) as of December 31, 2012, and reportable transactions for the year ended December 31, 2012 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note 3, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the Plan) is provided for general informational purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the Company), a wholly-owned subsidiary of Fiberweb PLC, is the Plan Sponsor.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

The Plan is a noncontributory, defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington (Washougal) location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

The Company makes contributions to the Plan in order to fund the normal cost and amortization of prior service cost, based on actuarial determinations. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the years ended December 31, 2012 and 2011.

On December 13, 2012, the Plan Sponsor made a contribution of \$5,000,000 in excess of the minimum funding requirements. The Plan Sponsor has made this excess contribution in order to improve the funded status of the Plan and intends to use the contribution to pre-fund future minimum funding requirements as defined by ERISA.

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if the participant has completed at least 15 years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on rate of pay at the time of retirement and years of service by the employee, as outlined in the plan document.

The Plan provides for 100% vesting of participants' benefits after five years of service.

2 Summary of Significant Accounting Policies **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures" establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in the money market fund are valued based on quoted market prices in an active market. Mutual fund assets are redeemable securities, which permit the shareholder to present, redeem and receive a proportionate share of the current value of the fund's assets during normal trade hours. Investments in bonds are valued based on quoted market prices for similar assets in active markets.

Net gain (loss) from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gains and losses represent the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gains and losses represent the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2012 and 2011, there were no transfers in or out of Levels 1, 2 or 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Non-interest Bearing Cash

The Plan's trustee places temporary cash with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

Administrative Expenses

The majority of administrative expenses are paid by the Plan, as provided in the plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term could materially affect the funded status of the Plan and amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants

Benefits are recorded when paid.

3 Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Non-interest bearing cash, investments and accrued income receivable, as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011
- Interest and dividend income and net gain from investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011
- Schedule H, Line 4i - Schedule of assets (held at end of year) as of December 31, 2012
- Schedule H, Line 4j - Schedule of reportable transactions for the year ended December 31, 2012

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value, as of December 31, 2012:

As of December 31, 2012	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Money market funds	8,764,689	-	-	8,764,689
Mutual funds:

Corporate debt instruments - Preferred - Large-cap	-	4,875,337	-	4,875,337
Corporate debt instruments - Large-cap	-	2,232,969	-	2,232,969
Total investments at fair value	9,935,847	9,642,418	-	19,578,265

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

As of December 31, 2011	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Money market funds	160,530	-	-	160,530
Mutual funds:				
Large-cap blend	2,185,788	-	-	2,185,788
Large-cap growth	575,976	-	-	575,976
Large-cap value	1,416,208	-	-	1,416,208
Mid-cap growth	599,100	-	-	599,100
Small-cap blend	302,687	-	-	302,687
Bonds:				
U.S. Government securities	-	1,308,426	-	1,308,426
Corporate debt instruments - Preferred - Large-cap	-	4,812,639	-	4,812,639
Corporate debt instruments - Large-cap	-	2,164,413	-	2,164,413
Total investments at fair value	5,240,289	8,285,478	-	13,525,767

The Plan's investment strategy related to its investments in mutual funds is to primarily maintain a large-cap focus. The Plan's investment in U.S. Government securities includes both government treasury bonds and government agency bonds, as detailed in the supplemental schedule, which are measured using a mix of Level 1 and Level 2 inputs. As the Level 2 inputs are significant to the fair value measurement, the investments are reported as Level 2 in the table above. The Plan's investments in domestic corporate debt instruments focus on fixed-income strategies that match the duration of the Plan's liabilities. The majority of these instruments are large-cap debt instruments allocated over a variety of industries, with no one industry providing over 25% of the allocation. A money market fund balance of \$8,764,689 was held at December 31, 2012 to protect the Plan against uncertainty over the U.S. fiscal cliff. This balance was reallocated back into bonds and mutual funds in accordance with the investment strategy during the first quarter of 2013.

Investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are as follows:

Investment	2012	2011
	\$	\$
PIMCO Money Market Inst	8,691,436	*
Vanguard 500 Index (Signal)	1,171,158	1,321,157
Artisan International Fund	*	864,631
Dodge & Cox International Stock Fund	*	823,536

* The fair market value of these investments did not represent 5% or more of the fair market value of the plan assets as of the balance sheet date.

The net gain (loss) from investment activity for the plan years ended December 31, 2012 and 2011, resulted from the following types of investments:

	2012	2011
	\$	\$
Mutual funds	166,614	(258,678)
Bonds	1,344,033	791,460
	1,510,647	532,782

5 Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to the services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) designated beneficiaries of deceased employees. In 2010, the Plan changed presentation of actuarial present value of accumulated plan benefits from end-of-period reporting to beginning-of-period reporting. Actuarial computations were made by the Plan's actuary using the traditional unit credit actuarial cost method and are based on the following assumptions at December 31, 2011 and 2010:

Mortality basis	IRS 2008 Generational Mortality Table
Retirement	Age 65, adjusted for early retirement
Rate of return	5.80% and 5.20%, respectively

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2011 and 2010 was as follows:

At December 31	2011	2010
	\$	\$
Vested benefits:		
Participants currently receiving payments	12,065,813	12,322,123
Participants entitled to deferred benefits	-	963,769
Other participants	3,493,578	2,850,915
	15,559,391	16,136,807
Nonvested benefits	-	189,200
Total actuarial present value of accumulated plan benefits	15,559,391	16,326,007

The change in the actuarial present value of accumulated plan benefits for the years ended December 31, 2011 and 2010, consisted of the following:

For the years ended December 31	2011	2010
	\$	\$
Actuarial present value of accumulated plan benefits, beginning of year	16,326,007	16,270,178
Increase (decrease) attributable to:		
Decrease in discount period	943,640	940,292
Benefits paid	(1,215,049)	(1,232,818)
Additional benefits earned, including experience gains and losses	(495,207)	348,355
Actuarial present value of accumulated plan benefits, end of year	15,559,391	16,326,007

6 Federal Income Tax Status

The Internal Revenue Service (IRS) issued a determination letter dated October 25, 2011, stating that the Plan and related trust were designed to be tax exempt in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2009.

7 Plan Termination

While it has not expressed any intention to do so, the Company has the right, as presented in the plan document, to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the net assets of the Plan shall be allocated in accordance with provisions as outlined in the plan document. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan and the amount of benefit protection are subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the maximum amount of an individual's monthly benefit that the PBGC guarantees. For terminations occurring during 2012, this ceiling was \$4,653 per month. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8 Party-in-Interest Transactions

The Plan's non-interest bearing cash is held by New York Life Investment Management and certain plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of New York Life Trust Company (NYL). NYL is the trustee as defined by the Plan and, therefore, transactions in investments managed by the NYL and its affiliates qualify as party-in-interest transactions.

During the years ended December 31, 2012 and 2011, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, to the financial information reported in the Plan's Form 5500 filing:

									December 31, 2012	December 31, 2011

10 Subsequent Events

The Plan has analyzed its activity subsequent to December 31, 2012, through August 2, 2013, the date the financial statements were available to be issued, and has determined that it does not have any material subsequent events that require adjustment to or disclosure in these financial statements.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with no lookback (as of January 2012), each adjusted as needed to fall within the 25-year average interest rate corridor under MAP-21
1st Segment Rate	5.54%
2nd Segment Rate	6.85%
3rd Segment Rate	7.52%
Interest Rates for Maximum Tax Purposes	Based on segment rates with no lookback (as of January 2012), without regard to the MAP-21 interest rate corridor
1st Segment Rate	1.98%
2nd Segment Rate	5.07%
3rd Segment Rate	6.19%

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
