Note 1. Plan Description

The following brief description of the Addison Search 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Addison Professional Financial Search, Inc. (the Company), as defined by the Plan. Employees are eligible to make deferral contributions to the Plan upon reaching the age 21 and are eligible to receive match contributions after completing one year of service, as defined by the Plan. These employees are eligible to receive a matching contribution, a safe harbor matching contribution and any discretionary contribution made by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a minimum of 1 percent up to the lesser of 50 percent of pretax annual compensation, as defined in the Plan, or the maximum allowed by the IRS. Participants age 50 and older may contribute catch-up contributions as allowed per IRS limitations. The Company provides a safe harbor matching contribution for all participants equal to 100 percent of each participant's contribution up to the first 3 percent of the participants' compensation plus 50 percent of the next 2 percent of the participants' compensation, as defined by the Plan. The Company may also make separate discretionary contributions to the Plan. During 2011 plan year, the Company did not make separate discretionary contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts: Each participant's account is credited with the participant's contribution, Company safe harbor matching contribution, matching contribution, and allocations of the Company's discretionary contribution, if any, plan earnings, and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, the Company's safe harbor matching 401(k) contributions and earnings thereon. Company matching contribution and discretionary contributions are vested 20 percent after two years of service, and 20 percent per year thereafter, being fully vested after six years of credited service.

Notes receivable from participants: Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 less the highest outstanding balance of notes receivable during the one-year period prior to the date of the current loan or 50 percent of their vested account balance. Notes receivable terms range from one to five years, or longer if used to purchase a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at reasonable interest rate, as defined. Interest rates on current notes receivable range from 4.25 percent to 5.50 percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Under certain circumstances, participants may make financial hardship withdrawals.

Administrative expenses: Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the Plan Administrator.

Note 1. Plan Description (Continued)

Forfeitures: At December 31, 2011 and 2010, forfeited nonvested accounts amounted to $13,145 and $16,113, respectively. Forfeitures related to Company matching and discretionary contributions are used to offset administrative expenses and future Company contributions. The Plan's matching contributions were reduced by $5,277 in 2011 from forfeited nonvested accounts.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable are classified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Reclassification: Amounts previously shown have been reclassified to conform to the current year presentation.

Recent accounting pronouncement: In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements,* which requires new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. This update also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters related to reconciliation of Level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2010. See Note 4 for impact of adoption.

Note 2. Significant Accounting Policies (Continued)

Pending accounting pronouncement: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04)*. ASU 2011-04 amended ASC 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Management is currently evaluating the impact this update will have on the Plan's financial statements.

Note 3. Information Certified and Provided by Transamerica Life Insurance Company

The following is a summary of the Plan's asset and income information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets and income is accurate and complete. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2011	2010
Shares of pooled separate accounts	$ 5,786,359	$ 5,265,882
Net depreciation in fair value of investments	$ (228,428)	

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Shares of pooled separate accounts: Valued at the total of the net asset value of the underlying investments, primarily consisting of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of the market date is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2011, there were no such transfers in or out of Levels 1, 2, or 3.

Note 5. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2011 and 2010.

* Represents less than 5 percent of net assets

During 2011, the Plan's investments in shares of pooled separate accounts (including investments bought, sold and held during the year) depreciated in value by $228,428.

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments are held and managed by Transamerica Life Insurance Company, the custodian. Also, Southeastern Employee Benefit Services, Inc. provides plan administrative services to the Plan. Therefore, these investment transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan were $14,083 for the year ended December 31, 2011.

Certain employees of the Company provide administrative and trustee services to the Plan. These employees do not receive compensation from the Plan for their services. Certain other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

Effective January 1, 2010, the Plan adopted a volume submitter plan sponsored by Southeastern Employee Benefit Services, Inc. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by the Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9. Risks and Uncertainties

The Plan invests in various investment options. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Late Deposits

During the years ended December 31, 2011, 2010 and 2009, the Plan engaged in prohibited transactions related to the late deposit of employee deferrals and loan repayments totaling $1,858,734. Lost earnings for the years ended December 31, 2011 and 2010 were deposited to the trust in 2012. Lost earnings for the year ended December 31, 2009 were deposited in 2011 and 2012. The plan sponsor will file Form 5330 and pay the applicable excise tax to the IRS for the years ended December 31, 2011, 2010 and 2009 in 2012. The plan sponsor filed Form 5330 and the applicable excise tax to the IRS for a portion of the year ended December 31, 2009 in 2011. The excise tax payments will be made from the plan sponsor's assets and not from assets of the Plan.
