NOTE 1 – DESCRIPTION OF PLAN

The following description of the FMA Alliance, LTD 401k & Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan is sponsored by FMA Alliance, Ltd. (the "Partnership").

General

The Plan was adopted effective June 1, 1997, and is a defined contribution plan covering substantially all employees of the Partnership. The purpose of the Plan is to provide employees with retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Under the terms of the Plan, employees become eligible to make salary deferral contributions upon the completion of one year of service and having attained the age of 21. Entry dates into the Plan are the first day of every month.

Contributions

Participants may contribute from 1% to 80% of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Partnership may make matching discretionary contributions to the Plan. For the years ended December 31, 2012 and 2011, no discretionary contributions were made to the Plan by the Partnership.

Participant Accounts

Separate accounts are maintained for each participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Partnership's discretionary contributions and (b) Plan earnings, and is charged with distributions and an allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Partnership contributions portion of their accounts plus actual earnings thereon is based on years of continuous service. The following schedule describes the participant's level of vesting after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
1	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6	100 %

NOTE 1 – DESCRIPTION OF PLAN – CONTINUED

Investment Options

Upon enrollment in the Plan, participants may direct the investment of their accounts among various investment options provided under the Plan. Participants may change their investment elections at any time, as well as transfer existing balances between investment funds.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. Loan transactions are treated as a transfer between investment funds and the loan fund. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the Wall Street Journal Prime Rate plus two percent. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payment of Benefits

Upon termination of service due to retirement, death, or disability, a participant or their beneficiary will be 100% vested and will receive a lump-sum distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals

A hardship withdrawal, if approved, can be made on pretax contributions to satisfy certain immediate and heavy financial needs, as defined, up to the amount of the participant's vested balance, in which case, the participants' contributions to the Plan must be suspended for six months after receipt of the hardship withdrawal. A withdrawal can be made at the age of 59½ or upon normal retirement age of 65 on all or a portion of the participants' vested account.

Forfeitures

Participants terminating employment prior to full vesting forfeit their right to the nonvested portion of employer contributions. Forfeitures are used to reduce employer contributions or pay plan expenses. Forfeitures for the year ended December 31, 2012 totaled $4,516. In 2012, no forfeitures were utilized to pay plan expenses or reduce employer contributions. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $19,706 and $15,041, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Estimates that have the most impact on financial position and results of performance primarily relate to the fair value of investments and the collectability of participant notes receivable. Plan management believes these estimates and assumptions provide a reasonable basis for the fair presentation of the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The net change in the fair value of investments is reported in the statement of changes in net assets available for benefits in the period of the change.

Investment contracts considered benefit-responsive held by a defined-contribution plan are required to be reported at fair value, even though contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan, through the Invesco Stable Asset ADP 85 collective trust investment (the "Fund"), holds an investment in a common collective trust fund ("Trust Fund"). Investments in the Fund were originated with the purchase of individual units; with each unit having a net asset value of $1. To mitigate the risk of market losses on the unit investments, the Trust Fund enters into synthetic guaranteed investments contracts ("synthetic GICS"). Synthetic GICS are portfolios of securities (debt securities and units of collective trusts) owned by the Trust Fund. The Trust Fund may also invest in traditional guaranteed investment contracts ("traditional GICS") which are backed by the general account of the issuer. The assets underlying the investment contracts are owned by the Trust Fund with the Plan owning units of the Trust Fund. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. These contracts are fully benefit responsive and any adjustment of these investments' contact value is captured in the statement of net assets available for benefits. At December 31, 2012, and 2011, contract value of the Plan's common collective trust approximates fair value.

The Plan uses net asset value ("NAV") per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

The Plan's management has evaluated subsequent events through August 5, 2013, the date which the financial statements were available to be issued. In 2013, the Plan began mandatory distributions for terminated employees with account balances below $5,000.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan uses fair value to measure financial assets and liabilities and certain nonfinancial assets and liabilities. The fair value hierarchy established and prioritized fair value measurements into three levels based on the nature of the inputs. The hierarchy gives the highest priority to inputs based on market data from independent sources (observable inputs-Level 1) and the lowest priority to a reporting entity's internal assumptions based upon the best information available when external market data is limited or unavailable (unobservable inputs-Level 3).

The three levels of the fair value hierarchy are described as follows:

> Level 1 – Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
>
> Level 2 – Inputs, excluding those included in Level 1, are either observable prices for identical assets or liabilities in inactive markets, observable prices for similar assets and liabilities, or other inputs derived principally from, or corroborated by, observable market data at the measurement date.
>
> Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 3 – FAIR VALUE MEASUREMENTS – CONTINUED

Common Collective Trust: At December 31, 2012, the Trust Fund held only synthetic GICS and short-term securities. The Partnership determined the valuation measurement inputs of the Trust Fund investments reflect prices based on quoted market prices utilizing public information and required no independent third-party valuation or pricing services. Accordingly the Partnership concluded the valuation inputs of these securities reflect, at the lowest level, quoted market prices for identical or similar assets in markets where there are few transactions for the assets and categorized such investments within Level 2 of the fair value hierarchy framework.

At December 31, 2012 the Trust Fund investments included traditional GICS which are valued at fair value discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (Level 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Quoted Market Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)

NOTE 4 – ADMINISTRATION OF PLAN ASSETS

The Partnership is the Plan Sponsor and handles certain administrative functions for the Plan. The Plan's assets are maintained by the Trustee and are invested through participant-directed accounts in various mutual funds or other investments offered by the Trustee. Certain administrative expenses, including loan administration fees, are paid by the participants. Other administrative expenses, such as accounting and legal fees, are paid by the Partnership.

NOTE 5 – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTOINS

State Street Bank and Trust Company ("State Street") provides the Plan with investment management services, the fees for which are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Fees paid by the Plan to the Trustee for administrative services totaled $2,098 for the year ended December 31, 2012.

The Plan investments include notes receivable from participants. As a result, these investments and all transactions relating to these investments were with parties-in-interest. These transactions are exempt from being prohibited transactions by ERISA.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Partnership has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 7 – FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – INFORMATION CERTIFIED BY THE PLAN TRUSTEE (UNAUDITED)

At December 31, 2012 and 2011, the Plan's investments were held by State Street. The following is a summary of the Plan's financial information that is included in the accompanying financial statements and supplemental schedule based on information that was certified by State Street as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The following summarizes investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011:

* Assets did not amount to 5% of the total value during this period.

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $100,625. Dividend income from the common collective trust totaled $1,357 and is included in the net appreciation in fair value of investments.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
