NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

Background - The Tourneau LLC 401(k) Employee Savings Plan (the "Plan"), as amended, is a defined contribution plan as described in the Internal Revenue Code section 401(k) sponsored by Tourneau LLC (the "Company"). The Plan was adopted on January 1, 1995 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). DWS Trust Company is the trustee of the Plan and ADP Inc. is the third-party administrator.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

Plan Merger - The Company acquired the remaining 50 percent of Time Sales, Inc. effective July 2, 2011. Accrual of assets from related plan on the accompanying statement of net assets available for benefits as of December 31, 2011 consists of an accrual for the net assets of the Time Sales, Inc. 401(k) Employee Savings Plan which was merged into the Plan at the close of business on December 31, 2011. The assets, which were received by the Plan on January 3, 2012, consisted of the following:

Proceeds from investment funds	$ 38,822
Participant loans	1,476
Total transfer from related plan	$ 40,298

Plan Amendments – The Plan was amended in June 2010 to make the following changes to eligibility and plan entry dates effective August 1, 2010: (1) the eligibility period was amended to two months of service, measured using the elapsed time method; and (2) the plan entry date was amended to the first of the month coinciding with or next following the date eligibility requirements are satisfied.

In November 2010 the prototype plan documents were amended to incorporate recent regulatory and statutory changes.

Eligibility – Employees become eligible to participate in the Plan on the first day of the month after attaining age twenty-one and completing two months of service measured under the elapsed time method.

Contributions and Vesting - Participants in the Plan may make pre-tax salary deferral contributions (referred to as "regular 401(k) deferrals") from 1 percent to 70 percent of their compensation, and may make Roth 401(k) deferrals on an after-tax basis, subject to section 401(k) maximum limitations. Under the Plan's automatic enrollment feature, once an employee meets the Plan's eligibility requirements, 3 percent of salary is automatically deducted and contributed to the Plan as regular 401(k) deferrals, unless the employee specifies a different percentage or elects not to contribute to the Plan.

Employees who have attained age 50 before the close of the Plan year are eligible to make catch-up contributions of up to $5,500 annually.

An eligible employee may make a transfer to the Plan of a benefit from a qualified retirement plan of another employer, referred to as rollover contributions, with certain restrictions.

Contributions from participants consisted of the following for the year ended December 31, 2012:

Regular pre-tax 401(k) deferrals, including catch-up contributions	$ 1,726,320
Roth after-tax 401(k) deferrals	31,925
Rollover contributions	132,025
Total	$ 1,890,270

Participants who have completed a year of service and are actively employed on the last day of the Plan year are eligible to participate in the discretionary matching contribution which the employer may make equal to a uniform percentage of each such participant's contribution. No such discretionary employer contribution was made for the year ended December 31, 2012.

Participants are fully and immediately vested with respect to their elective deferral contributions and earnings thereon. Employer contributions vest over a period of six years at a rate of 20 percent per year starting after completion of the second year of service.

Forfeitures – When participants terminate employment prior to full vesting, the nonvested amounts in their individual accounts, referred to as forfeitures, may be used to reduce future employer contributions or to pay Plan expenses. Unallocated forfeitures as of December 31, 2012 amounted to approximately $12,000.

Distributions to Participants - Distributions to participants are available upon the following events: retirement, termination of employment, the attainment of age 59 1/2, or death. A participant's benefit, consisting of his/her entire account balance, is paid in the form of a lump sum payment or a rollover to another qualified plan. Payment shall be made as soon as administratively feasible following the date on which the event occurs provided however that the participant's consent is obtained for distributions of amounts in excess of $5,000. A participant with an account balance in excess of $5,000 may elect to defer payment until attainment of normal retirement age (age 65) or if still employed beyond that age, until attainment of age 70 ½. The Plan also provides for hardship withdrawals to participants meeting certain requirements as described in the Plan agreement.

Notes Receivable from Participants – Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.5 percent per annum, which were commensurate with local prevailing rates at the time the loans commenced, as determined by the Plan administrator. Principal and interest is paid ratably through various semi-monthly payroll deductions over periods of 1 to 5 years, or for purposes of using loan proceeds to purchase a primary residence, up to 10 years.

Administrative Costs - A substantial portion of administrative expenses incurred in connection with the management of the Plan are paid by the Company. In accordance with Plan provisions, the Company may, at any time, elect to have some or all of such expenses paid by the Plan.

Termination - The Company intends to continue the Plan indefinitely, but reserves the right to modify or discontinue it at its discretion, subject to applicable provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The Plan's policy is to prepare financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further information regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation (depreciation) in fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties - The Plan provides for various investment options in any combination of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to interest rate, market and credit risk. As a result of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the accompanying financial statements and notes. Actual results could differ from those estimates.

Subsequent Events - The plan has evaluated subsequent events through July 22, 2013, the date the financial statements were available to be issued.

3. INCOME TAX STATUS

In March 2008, the Internal Revenue Service stated in an opinion letter that the prototype plan adopted by the Plan administrator was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter. However, the Plan administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and accordingly, they believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2006.

Notes receivable from participants	$ 301,435	$ 332,145

Investments in mutual funds - The participant-directed mutual funds offer various investment options ranging from conservative funds which principally seek to preserve capital and provide fixed income to aggressive funds invested principally in common stocks which seek growth of capital over the long term. The mutual funds include T. Rowe Price Retirement Funds with varied target retirement dates.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds - Investments in mutual funds are stated at quoted market prices which represent the net asset value of shares held by the Plan at year end. For the year ended December 31, net appreciation in fair value of investments of $712,729 resulted from investments in mutual funds.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

6. RELATED-PARTY TRANSACTIONS

The Plan's investments consist of mutual funds, including several managed by DWS Investments, an affiliated company to DWS Trust Company, the trustee of the Plan. Transactions with affiliates of the trustee qualify as party-in-interest transactions; however, they are exempt from prohibited transaction rules under ERISA. Fees paid by the Plan as indirect compensation to DWS Investments are included as a deduction of the investment return on mutual funds.
