PRUDENTIAL LIGHTING CORPORATION PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1 DESCRIPTION OF PLAN

The following description of the Prudential Lighting Corporation (Company) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution retirement plan covering all eligible employees who have completed six months of service and have attained the age of eighteen. The Plan excludes all employees covered by a collective bargaining agreement. The plan entry dates are January 1st and July 1st of each year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

B. Contributions - The Company may, at its sole discretion, elect to make employer contributions for any plan year, and any such employer contribution shall be allocated to eligible participants pro rata as a uniform percentage of participant compensation for the Plan year. Participants may also contribute amounts representing distributions (roll-over contributions) from other qualified benefit plans. Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

C. Participant Accounts - Each participant's account is credited with the employer's contribution plus any plan earnings. Forfeited balances of terminated participants' non-vested accounts are allocated as additional non-elective contributions.

D. Vesting - The participants' accounts for any employer contributions is based on years of service and do not have to be continuous. A participant is one-hundred percent (100%) vested after six years of credited service, death, disability or upon attainment of normal retirement age. A participant is fully vested in employee contributions (roll-over contributions).

E. Payment of Benefits - Upon termination of service due to death, disability, retirement, termination of employment, or financial hardship, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, in annual installments, or an annuity.

F. Plan Administrative Costs - All significant costs of administering the Plan are paid by the Employer.

G. Investment Options - Upon enrollment in the Plan, a participant may direct employer contributions to any of the available investment options.

Note 2 SUMMARY OF ACCOUNTING POLICIES

A. Basis of Accounting - The accompanying financial statements of the Plan have been presented on the accrual basis of accounting.

B. Estimates - The preparation of financial statements requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

C. Investment Valuation and Income Recognition - Investments are stated at the quoted market price on the last business day of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Mutual funds are valued at the net asset value of shares held by the Plan at year end.

In accordance with FASB ASC 962-10 investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

D. Plan Termination - Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one-hundred percent (100%) vested in their accounts.

E. Tax Status - The Internal Revenue Service has determined and informed the Corporation by letter dated March 31, 2008, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the plan was qualified and the related trust was tax-exempt as of the financial statement date.

F. Forfeitures - A participant's forfeiture of their non-vested account balance from employer contributions occurs when a participant is terminated. For the year ended December 31, 2012 the balance of forfeitures was $58,788.

Note 3 INVESTMENTS HELD WITH TRUST COMPANY

The information listed below was certified by Prudential Insurance Company of America, as accurate and complete in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

	December 31, 2012	December 31, 2011
Mutual funds	$ 10,471,122	$ 10,106,535
Guaranteed Interest Account	$ 9,864,167 *	$ 8,437,987 *
Contributions	$ 1,553,983	$ 1,099,033
Dividend and interest income	$ 516,913	$ 483,697
Investment gain/(loss)	$ 934,357	$ (133,266)
Deductions from net assets	$ 1,214,486	$ 751,249

* This amount represents contract value for this investment.

As described in Note 2, because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential Insurance Company of America, represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract value is also often referred to as "Book value". The contract is effected directly between the plan sponsor (or their trustee) and the issuer. The repayment of principal and interest credited to participants is a financial obligation to the issuer. Given these provisions, Prudential considers this contract to be benefit responsive.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

When establishing interest crediting rates for this account, Prudential considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 3.00%.

Note 5 FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

	Fair Value	Recurring Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2012			
Mutual funds	$ 10,471,122	$ 10,471,122	$ -
Guaranteed Interest Account	9,864,167	-	9,864,167
Total	$ 20,335,289	$ 10,471,122	$ 9,864,167
December 31, 2011			
Mutual funds	$ 10,106,535	$ 10,106,535	$ -
Guaranteed Interest Account	8,439,869	-	8,439,869
Total	$ 18,546,404	$ 10,106,535	$ 8,439,869

FASB ASC Number 820-10 Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of the Level 3 fair value measurements.

Note 5 FAIR VALUE MEASUREMENTS (Cont.)

Sales	(491,984)	(491,984)
Settlements	-	-
Ending balance	$ 8,439,869	$ 8,439,869

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2012 and 2011 are reported in net appreciation in fair value of investments.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Note 5 FAIR VALUE MEASUREMENTS (Cont.)

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of levels 1,2 or 3.

Note 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed in various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds that were managed by Prudential Insurance Company of America. Prudential Insurance Company of America is the custodian as defined by the Plan and, therefore, these are party-in-interest transactions, but this transaction is exempt by ERISA.

Mutual funds are valued at the net asset value of shares held by the Plan at year end.

In accordance with FASB ASC 962-10 investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

D. Plan Termination - Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one-hundred percent (100%) vested in their accounts.

E. Tax Status - The Internal Revenue Service has determined and informed the Corporation by letter dated March 31, 2008, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the plan was qualified and the related trust was tax-exempt as of the financial statement date.

F. Forfeitures - A participant's forfeiture of their non-vested account balance from employer contributions occurs when a participant is terminated. For the year ended December 31, 2012 the balance of forfeitures was $58,788.

Note 3 INVESTMENTS HELD WITH TRUST COMPANY

The information listed below was certified by Prudential Insurance Company of America, as accurate and complete in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

	December 31, 2012	December 31, 2011
Mutual funds	$ 10,471,122	$ 10,106,535
Guaranteed Interest Account	$ 9,864,167 *	$ 8,437,987 *
Contributions	$ 1,553,983	$ 1,099,033
Dividend and interest income	$ 516,913	$ 483,697
Investment gain/(loss)	$ 934,357	$ (133,266)
Deductions from net assets	$ 1,214,486	$ 751,249

* This amount represents contract value for this investment.

As described in Note 2, because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential Insurance Company of America, represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract value is also often referred to as "Book value". The contract is effected directly between the plan sponsor (or their trustee) and the issuer. The repayment of principal and interest credited to participants is a financial obligation to the issuer. Given these provisions, Prudential considers this contract to be benefit responsive.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

When establishing interest crediting rates for this account, Prudential considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 3.00%.

Note 5 FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

	Fair Value	Recurring Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2012			
Mutual funds	$ 10,471,122	$ 10,471,122	$ -
Guaranteed Interest Account	9,864,167	-	9,864,167
Total	$ 20,335,289	$ 10,471,122	$ 9,864,167
December 31, 2011			
Mutual funds	$ 10,106,535	$ 10,106,535	$ -

Total	$ 18,546,404	$ 10,106,535	$ 8,439,869

FASB ASC Number 820-10 Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of the Level 3 fair value measurements.

Note 5 FAIR VALUE MEASUREMENTS (Cont.)

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

Sales	(491,984)	(491,984)
Settlements	-	-

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2012 and 2011 are reported in net appreciation in fair value of investments.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Note 5 FAIR VALUE MEASUREMENTS (Cont.)

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of levels 1,2 or 3.

Note 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed in various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds that were managed by Prudential Insurance Company of America. Prudential Insurance Company of America is the custodian as defined by the Plan and, therefore, these are party-in-interest transactions, but this transaction is exempt by ERISA.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1 DESCRIPTION OF PLAN

The following description of the Prudential Lighting Corporation (Company) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution retirement plan covering all eligible employees who have completed six months of service and have attained the age of eighteen. The Plan excludes all employees covered by a collective bargaining agreement. The plan entry dates are January 1st and July 1st of each year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

B. Contributions - The Company may, at its sole discretion, elect to make employer contributions for any plan year, and any such employer contribution shall be allocated to eligible participants pro rata as a uniform percentage of participant compensation for the Plan year. Participants may also contribute amounts representing distributions (roll-over contributions) from other qualified benefit plans. Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

C. Participant Accounts - Each participant's account is credited with the employer's contribution plus any plan earnings. Forfeited balances of terminated participants' non-vested accounts are allocated as additional non-elective contributions.

D. Vesting - The participants' accounts for any employer contributions is based on years of service and do not have to be continuous. A participant is one-hundred percent (100%) vested after six years of credited service, death, disability or upon attainment of normal retirement age. A participant is fully vested in employee contributions (roll-over contributions).

E. Payment of Benefits - Upon termination of service due to death, disability, retirement, termination of employment, or financial hardship, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, in annual installments, or an annuity.

F. Plan Administrative Costs - All significant costs of administering the Plan are paid by the Employer.

G. Investment Options - Upon enrollment in the Plan, a participant may direct employer contributions to any of the available investment options.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 2 SUMMARY OF ACCOUNTING POLICIES

A. Basis of Accounting - The accompanying financial statements of the Plan have been presented on the accrual basis of accounting.

B. Estimates - The preparation of financial statements requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

C. Investment Valuation and Income Recognition - Investments are stated at the quoted market price on the last business day of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Mutual funds are valued at the net asset value of shares held by the Plan at year end.

In accordance with FASB ASC 962-10 investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

D. Plan Termination - Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one-hundred percent (100%) vested in their accounts.

E. Tax Status - The Internal Revenue Service has determined and informed the Corporation by letter dated March 31, 2008, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the plan was qualified and the related trust was tax-exempt as of the financial statement date.

F. Forfeitures - A participant's forfeiture of their non-vested account balance from employer contributions occurs when a participant is terminated. For the year ended December 31, 2012 the balance of forfeitures was $58,788.

FASB ASC Number 820-10 Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of the Level 3 fair value measurements.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Note 5 FAIR VALUE MEASUREMENTS (Cont.)

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of levels 1,2 or 3.

Note 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed in various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds that were managed by Prudential Insurance Company of America. Prudential Insurance Company of America is the custodian as defined by the Plan and, therefore, these are party-in-interest transactions, but this transaction is exempt by ERISA.
