Note 1—Plan description

Plan Description – The Central Maintenance and Welding, Inc. 401(k) Profit Sharing Plan (the "Plan") was established by Central Maintenance and Welding, Inc. (the "Company" or "Plan Sponsor") as a defined contribution plan effective August 31, 1974, amended April 21, 2009, and restated August 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following is a summary of major plan provisions. Participants should refer to the amended and restated Plan agreement for a more complete description of the Plan's provisions.

Participation – All employees of the Company who have completed at least one year of service and have attained the age of eighteen are eligible to participate. Participants must have completed 1,000 hours of service within the Plan year and be actively employed on the last day of the Plan year to share in the employer contribution.

Contributions – Participants may contribute up to 100% of their total annual compensation, not to exceed certain limitations, on an annual basis. Participants who have attained the age of 50 are eligible to make pre-tax catch-up contributions, subject to certain limitations. Additionally, the Plan permits rollovers from other qualified retirement plans; during the 2012 Plan Year, rollovers were approximately $172,000. The Plan Sponsor may make discretionary nonelective contributions, based on a percentage determined by management and is computed based on the participants' eligible salary; during the 2012 Plan Year, the Plan Sponsor did not make any discretionary nonelective contributions.

Participant Accounts – Each participant's account is credited with the participant's contribution, employer contributions, if any, and Plan earnings; and are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant investment account earnings, elective deferrals, or account balances, as defined. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as defined by the Plan. An active participant who is less than 100% vested is deemed to be 100% vested upon death or total disability. Vesting is determined according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount not to exceed the value of the participant's vested interest in his or her account in either a lump-sum amount, annual installments over the life of the participant and beneficiary, or installments over a period of time not to exceed the assumed life expectancy of the participant or beneficiary. The beneficiary of a deceased participant may also elect to receive benefits over a period of time not exceeding the life expectancy of the beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 1—Plan description (continued)

Forfeitures – Pursuant to the Plan document, the non-vested portion of discretionary nonelective contributions credited to the accounts of participants who withdraw from the Plan are forfeited and held as nonparticipant-directed investments (Note 3). These amounts may be allocated to qualifying participants as an additional discretionary nonelective contribution. The Plan had $37,998 and $23,716 of forfeitures available to be reallocated to eligible participants as of December 31, 2012 and 2011, respectively. During July 2013, the Plan Sponsor allocated $37,998 of forfeitures as discretionary nonelective contributions effective for the 2012 Plan Year.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments, Investment Valuation, and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Three levels of inputs may be used to measure fair value:

> Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;
>
> Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and,
>
> Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability, and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

> *Common/Collective Investment Trusts* – These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.
>
> *Mutual Funds* – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Note 2—Summary of significant accounting policies (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with that of other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought, sold, and held during the year.

Recent Accounting Pronouncements – In May 2011, the Financial Accounts Standards Board ("FASB") issued guidance to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between accounting principles generally accepted in the United States of America ("GAAP") and International Financial Reporting Standards. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements and certain investments that are valued based on NAV. This guidance is effective for annual periods beginning after December 15, 2011 (the 2012 Plan year), and is applied prospectively. The Plan does not hold Level 3 investments, and primarily holds investments that are valued using NAV which have readily determinable fair values (mutual funds). As such, this new accounting pronouncement did not have any significant effect on 2012 financial statements.

Benefits Paid to Participants – Benefits are recorded when processed and paid by the Plan.

*Administrative Expenses – A*dministrative expenses are comprised primarily of investment fees and are paid by the Plan. Professional fees are paid by the Company on behalf of the Plan. During the year ended December 31, 2012, approximately $10,000 of professional fees were paid by the Company.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management has evaluated subsequent events through July 17, 2013, in connection with the preparation of these financial statements, which is the date the financial statement were available to be issued.

Note 3—Investments/financial data certified by the Plan's trustee (unaudited)

As of December 31, 2011				
SunTrust Retirement 500 Index Fund, Class B	$ 14,019	n/a	Daily	Daily

The primary investment objective of the SunTrust Retirement 500 Index Fund (the "Fund") is to emulate the performance of Standard and Poor's 500 Index, which is a benchmark index designed to measure the investment returns of stocks of large capitalization U.S. companies. The Fund's portfolio is comprised of common stock held in a variety of sectors, including consumer discretionary and staples, energy, financials, health care, industrials, information technology, materials, telecommunications and utilities.

Note 5—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the employer contributions in their accounts.

Note 6—Tax status

The Plan is identical to the SunTrust Prototype Defined Contribution Plan ("SunTrust Prototype Plan") approved as to form by the Internal Revenue Service ("IRS"). The SunTrust Prototype Plan is a qualified plan under Section 401(k) of the Internal Revenue Code ("IRC") and, as such, is exempt from federal income taxes under Section 501(a) of the IRC. The SunTrust Prototype Plan obtained its latest determination letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7—Party-in-interest transactions

Certain Plan investments have shares in mutual funds and a common/collective investment trust managed by SunTrust Bank, N.A., the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Financial Administrative Services Corporation is the financial advisor and Plan record keeper. The services performed by Financial Administrative Services Corporation qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 9—Risks and uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
