INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Desco Industries, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statement of Desco Industries, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of October 31, 2012 and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether die to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. And audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Desco Industries, Inc. Employee Stock Ownership Plan as of October 31, 2012, and the changes in its net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

The financial statements of Desco Industries, Inc. Employee Stock Ownership Plan as of and for the year ended October 31, 2011, were audited by other auditors whose report dated May 4, 2012, expressed an unmodified opinion on those statements.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year, hereafter referred to as "supplemental information" is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepared the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respect in relation to the financial statements taken as a whole.

DESCO INDUSTRIES, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
October 31, 2012 and 2011

Note A – Description of the Plan

The following brief description of the Desco Industries, Inc. (the Company) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Company established the Plan effective November 1, 1994. The Plan is designed to comply with Sections 401(a) and 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by person(s) appointed by the Company's Board of Directors. Wayne D. Hunter and John J. Brake, Jr. are the Plan's co-trustees pursuant to a successor trust agreement.

Contributions

Each year, the Company determines the amount to be contributed to the Plan. Contributions are discretionary and can be made out of current or accumulated net income of the Company, subject to certain limitations of Section 404 of the Internal Revenue Service Code of 1986, as amended. It is the intention of the Board of Directors that the Company's annual contribution be sufficient to fund the payment of distributions due to the terminated Plan participants. Participant contributions are not permitted under the Plan. Contributions to the Plan for the year ended October 31, 2012 were $1,083,576.

Eligibility and Participation

All employees of the Company, other than those covered by a collective bargaining agreement, are generally eligible to participate in the Plan, upon attaining age 20 ½ and completing at least 6 months of service.

Participants Accounts

Each participant's account is credited with an allocation of (a) the Company's contributions, (b) Plan earnings (including Company common stock appreciation), and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments are non-participant directed.

Note A – Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant shall receive the value of the vested interest in his or her account as a single lump-sum distribution or in substantially equal annual installments over a period generally not to exceed five years. The distribution will commence no later than the allocation date (October 31) of the Plan year following the Plan year in which the participant's death, disability or retirement occurs. If the participant terminates employment with the Company for any other reason, the distribution will commence no later than the allocation date of the sixth Plan year following the Plan year in which the termination of employment occurs.

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Vesting

Vesting in the Company's discretionary profit sharing contributions plus earnings thereon is based on years of service according to the following schedule:

Years of Service	Vesting %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants also become 100% vested if they obtain the age of 65 while in the employ of the Company, are disabled or die.

Note A – Description of the Plan (concluded)

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and reallocated among participants eligible to share in the reallocation during the plan year. The reallocation of forfeitures occurs upon the earlier of the distribution of a participant's vested benefits or a two year break in service. Total forfeitures of $4,248 were reallocated during the year ended October 31, 2012. Vested but undistributed account balances of terminated participants totaled $397,207 and $226,923 as of October 31, 2012 and 2011 respectively.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and shares of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Payment of Benefits

Benefits are generally recorded when paid. At October 31, 2012, the Plan had accrued for the withholding of income taxes on certain distributions that occurred during the year.

Note B – Summary of Significant Accounting Policies (concluded)

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through the date of the independent auditors' report, the date the financial statements were available to be issued.

Note C – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 29, 2002, that the Plan and related Trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan was amended and restated effective November 1, 2008 to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 and Pension Protection Act of 2006. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS) or the California State Franchise Tax Board.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities. During 2011, the Plan was audited by the IRS and there were no findings or changes as a result of the audit.

Note D – Investment in Common Stock

The Plan's investment in Company common stock at October 31 is as follows:

	2012	2011
Number of shares	25,200	25,200
Cost	$4,725,000	$4,725,000
Fair Market Value	$7,070,868	$6,787,872

All 25,200 shares of common stock are considered allocated at a total fair market value of $7,070,868.

During the Plan year ended October 31, 2012, the Plan's investments in Company common stock appreciated in value by $282,996.

Note E – Fair Value Measurements

The Financial Accounting Standards Board (FASB) ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in the active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note E – Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2012 and 2011.

Investment in company common stock: The Plan's investment in company common stock is valued at fair value based upon an independent appraisal. The appraisal was based upon a combination of valuation techniques consistent with the prior year. The appraiser took into account historical and projected revenue, cash flow, net income and earnings before income taxes, depreciation and amortization (EBITDA).

Mutual funds: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common stocks: These investments are valued daily at the closing price reported on an active market using observable inputs and classified within level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Fair Value Measurements (continued)

The following fair value hierarchy table presents information about the Plan's Investments measured at fair value on a recurring basis as of October 31, 2012 and 2011:

Description	Total	Level 1	Level 2	Level 3
October 31, 2012

There were no transfers between Levels 1, 2 and 3 during the year ended October 31, 2012.

Note E – Fair Value Measurements (concluded)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 asset for the year ended October 31, 2012.

DESCO INDUSTRIES, INC. COMMON STOCK

Balance, beginning of year	$ 6,787,872
Unrealized appreciation	282,996
Balance, end of year	$ 7,070,868

Note F – Investments

The following table presents individual investments that represent 5% or more of the Plan's net assets as of October 31, 2012 and 2011:

Description of Investment	2012
Desco Industries, Inc. common stock	$ 7,070,868
	2011
Desco Industries, Inc. common stock	$ 6,787,872

During the year ended October 31, 2012, the Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value by $411,172 as follows:

Description of Asset	
Desco Industries, Inc. common stock	$ 282,996
Common stocks	116,839
Mutual funds	11,337

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note H – Party-In-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. The Plan invests in the common stock of the Plan Sponsor. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. Certain Plan investments are managed by City National Bank, a custodian of Plan assets. These transactions qualify as party in interest transactions for which a statutory exemption exists.

Note I – Risks and Uncertainties

The Plan invests in equity securities including the common stock of the Plan Sponsor. Equity securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with investments in equity securities, it is at least reasonably possible that changes in the value of the equity securities will occur in the near term and that such changes could materially affect participants' balances and the amounts reported in the statements of net assets available for benefits.
