Report of Independent Auditors

To Plan Administrator
SCI 401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of SCI 401(k) Plan (the "Plan") as of December 31, 2011 and for the year then ended, as listed in the table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4 which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

We have compiled the accompanying statement of assets available for benefits of the Plan as of December 31, 2010, in accordance with *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants. A compilation is limited to presenting in the form of financial statements, information that is the representation of the plan administrator. We have not audited or reviewed the accompanying 2010 statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on the statement.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion of the accompanying financial statements and schedule as of and for the year ended December 31, 2011, taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the financial statements and schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

SCI 401(k) Plan

Notes to Financial Statements

December 31, 2011

1. Description of the Plan

SCI 401(k) Plan (the "Plan") is a defined contribution plan covering substantially all eligible employees of Sable Construction, Inc. (the "Company"). The Plan became effective January 1, 1998. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All Plan assets are held by State Street Bank and Trust Company ("State Street"), trustee of the Plan. Complete information regarding the Plan is included in the Plan Agreement. Significant Plan provisions are summarized below.

Eligibility

Qualified employees of the Company are eligible to participate in the Plan on the first day of the month following the date of hire. All newly eligible employees are automatically enrolled in the Plan with a deferral percentage of 2% as soon as administratively feasible following the employee's eligibility date, unless the employee elects to opt out of the Plan. The automatic deferral amount will increase by 1% each year up to a maximum of 10%.

Contributions

Each year, participants may contribute up to 80% of their eligible compensation, as defined in the Plan, on both a pre-tax bases and after-tax (Roth) basis, not to exceed the annual limit established by the Internal Revenue Code (the Code). Participants may also contribute amounts representing distributions from other qualified plans. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions.

The Company makes contributions to the Plan equal to 25% of the participant contributions not to exceed 4% of eligible earnings, up to the maximum amounts permitted by the Internal Revenue Service ("IRS").

The Company may also make discretionary nonelective contributions. None were made in 2011.

Participants direct the investment of the contributions into various investment options offered by the Plan.

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions is according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Forfeitures

Nonvested balances of participants' accounts may be subject to forfeiture upon termination of their employment with the Company. A forfeiture occurs in the Plan year in which the participant receives a distribution of their vested account, as defined by the Plan. Amounts are retained in the Plan and first used to pay Plan administrative expenses with any remaining amounts used to reduce future employer's matching contributions in the subsequent year. During 2011, the Plan utilized $814 of forfeitures to fund employer contributions. As of December 31, 2011 and 2010, there was $10 of unallocated forfeitures.

Payment of Benefits

Vested benefits are paid to participants upon death, disability, retirement or termination of employment by either arranging for a rollover to another plan or lump sum payment. Hardship withdrawals are available and will result in a six month suspension during which no contributions may be made to the participant's account. For terminated participants' account balances that are less than $1,000, the plan administrator may distribute the entire amount in a

1. Description of the Plan (continued)

lump sum without the participant's consent. For terminated participants' account balances that are at least $1,000 but less than $5,000, the plan administrator may transfer the entire amount into an individual retirement account without the participant's consent. If the participant's vested portion is greater than $5,000, the participant may elect to maintain the vested portion in the Plan.

Notes Receivable From Participants

Participants are permitted to borrow a maximum amount of the lesser of $50,000 or 50% of their vested account balance. Notes receivable from participants are secured by the balance in the participant's account and bear interest at a reasonable interest rate as determined by the Company. Notes receivable from participants terms range from one to five years or a reasonable amount of time for the purchase of a principal residence. Principal and interest is paid through payroll deductions with equal installments made each pay period.

Administrative Expenses

The Company pays most expenses incurred in the administration and operation of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are reported on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. Benefits are recorded when paid to participants.

Risks and Uncertainties

Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of securities in which the Plan invests. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near-term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

2. Summary of Significant Accounting Policies (continued)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and the accompanying notes and schedule. Accordingly, actual results could differ from these estimates.

Valuation of Investments and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements. The Invesco Stable Asset Trust and the SSGA Stable Value Fund are common/collected trust funds (CCT) which invest in fully benefit-responsive investment contracts. The CCTs are valued at the net asset value of units held at year-end. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures [although certain of these new disclosures will not be required for nonpublic entities].

The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Investment Contract in Common/Collective Trusts

The Plan invests in benefit-responsive investment contracts with Invesco and State Street through common/collective trusts. The contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The trust issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefit attributable to the investment contract. Contract value, as reported to the Plan represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participant may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Certain events limit the ability of the plan to transact contract value with the issuer. Such events include the following: (i) complete or partial plan termination; (ii) changes to plan's investment options; or (iii) sale of a division of the plan sponsor, corporate layoff of early retirement program. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

3. Investment Contract in Common/Collective Trusts (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based upon daily valuation of the contract investments. The crediting interest rate to the Plan was 1.99% and 1.85% for the year ended December 31, 2011 and 2010, respectively, net of asset charges. The market value average yield was 1.23% and 1.10% for the year ended December 31, 2011 and 2010, respectively.

4. Investments

All investment information disclosed in the accompanying financial statements, notes and schedule, including investments and notes receivable from participants held at December 31, 2011 and 2010, and net depreciation in fair value of investments, interest and dividend income and interest income from notes receivable from participants for the year ended December 31, 2011, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by State Street.

The contract value of the Invesco Stable Asset and the SSGA Stable Value Fund were certified as complete and accurate by State Street:

	December 31, 2011
Invesco Stable Asset Trust, at fair value	$ 229,004
Invesco Stable Asset Trust, at contract value	$ 222,051

	December 31, 2010
SSGA Stable Value Fund, at fair value	$ 83,980
SSGA Stable Value Fund, at contract value	$ 83,062

Individual investments that represent 5% or more of the Plan's net assets at December 31, 2011 and 2010 are separately identified.

* This investment represented less than 5% of the Plan's net assets at December 31, 2011 or 2010.

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated/(depreciated) in value as follows:

Mutual funds	$ (31,665)
Common/collective trust	(4,557)
Net depreciation in fair value of investments	$ (36,222)

5. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2—Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds are valued at the net asset value (NAV) of shares held at year-end. The NAV is a quoted price in an active market. Common/collective trusts are valued based on the NAV as determined by the issuer based on the fair value of the underlying securities of the valuation, which is the practical expedient. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying securities that make up the fund, which are predominately traded on an active market. These securities are redeemable at fair value on a daily basis.

5. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table represents the Plan's fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

Total assets at fair value	$ 708,713	$ 257,085	$ –	$ 965,798

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be come 100% vested in their accounts and distributions will be made as soon as administratively practicable after the Plan terminates.

7. Party-in-Interest Transactions

Plan assets include investment in funds managed by State Street. Transactions such as these qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the accompanying financial statements to the Plan's Form 5500 as of December 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements	**$ 1,030,147**	$ 958,793
Excess contributions payable	**4,820**	12,429
Net assets available for benefits per Form 5500	**$ 1,034,967**	$ 971,222

The following is a reconciliation of the change in net assets available for benefits as reported in the financial statements to the Form 5500 for the year ended December 31, 2011:

Net increase in net assets available for benefits as reported in the financial statements	$ 71,354
Current year excess contributions payable	4,820
Prior year excess contributions payable	(12,429)
Net increase in net assets available for benefits as reported in the Form 5500	$ 63,745

9. Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated March 31, 2008 stating that the form of the plan is qualified under Section 401(a) of the IRC, and therefore, the related trust is tax exempt. The Company has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Subsequent to receiving the IRS opinion letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

9. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Subsequent Events

The Plan has evaluated subsequent events through September 20, 2012 the date the financial statements were available to be issued.

RE: Reasonable Cause Letter – Form 5500 for 2011

To whom it may concern –

This is to notify is to advise that I attempted to submit our 2011 on October 15, 2012 but received an error notification. When I contacted ADP Retirement, a representative assisted me in re-submitting the form on October 16, 2012 (Reference # C7028318). The representative and I believed the form was correctly submitted to the Department of Labor.

However, we did not see/receive the email stating that modifications were needed to Schedule H for the missing auditor information which was completed in the Required Data Update. ADP Retirement has a modified Schedule H for the 2011 Form 5500 that can be submitted.

Sincerely,

Nina P. Thomason
