Independent Auditor's Report

Plan Administrator
Bell Memorial Hospital Non-Union Pension Plan
Ishpeming, Michigan

We were engaged to audit the accompanying statements of net assets available for benefits of Bell Memorial Hospital Non-Union Pension Plan (the "Plan") as of October 31, 2012 and 2011, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of October 31, 2011, the statement of changes in accumulated plan benefits for the year ended October 31, 2011, and the supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of October 31, 2012, and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended October 31, 2012. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended October 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Bell Memorial Hospital Non-Union Pension Plan

Notes to Financial Statements

Note 1 Description of Plan

The following description of Bell Memorial Hospital Non-Union Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. The Plan is a defined benefit, noncontributory pension plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Plan is administered by an administrative committee within Bell Memorial Hospital, Inc. (the "Organization"). Effective October 31, 2005, employees' participation in and future accrual of benefits were frozen. No new employees will be covered by the Plan on or after October 31, 2005.

Participation

Prior to October 31, 2005, all employees, excluding those covered by a collective bargaining agreement with any union, became active participants on May 1 or November 1 following the completion of 1,000 hours of service and attainment of age 21.

Retirement Benefits

Normal Retirement:

At age 65 and with five years of service, an active participant's monthly benefit is equal to 1.25% of final average monthly compensation plus 0.5% of final average monthly compensation in excess of covered compensation, multiplied by credited service to a maximum of 40 years.

Early Retirement:

At age 55 and with ten years of service, accrued normal retirement benefit is reduced five-ninths of 1% for each of the first 60 months and five-eighteenths of 1% for each of the next 60 months by which benefit payments commence prior to the normal retirement date.

Bell Memorial Hospital Non-Union Pension Plan

Notes to Financial Statements

Note 1 Description of Plan (Continued)

Retirement Benefits (Continued)

Employees may elect to receive their benefits as a life annuity or various joint and survivor annuities payable monthly from retirement. If less than \$5,000 in accumulated benefits, benefits are payable in a single lump-sum distribution.

Death and Disability Benefits

If an active participant dies before receiving benefits from the Plan, the beneficiary is entitled to a monthly benefit equal to 50% of the actuarial equivalent value of the benefit earned up to the date of death. Active participants who have completed ten years of service and who become totally and permanently disabled while employed, but prior to normal retirement, will be eligible for a disability benefit equal to the monthly benefit accrued as of the time they become disabled.

Plan Funding

The Plan is funded based on actuarially determined minimum and maximum contribution levels. The Plan provides for only employer contributions. The Organization's contributions are based on a determination by an enrolled actuary and are in accordance with the Plan's requirements and funding provisions of ERISA. The contributions include the current year's normal cost and amount sufficient to fund the prior service cost. For the years ended October 31, 2012 and 2011, the minimum funding requirements of ERISA were \$407,409 and \$291,145, respectively. The Organization made contributions of \$408,437 and \$299,904 for the years ended October 31, 2012 and 2011, respectively.

Although it has not expressed any intention to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

Vesting

All accrued benefits under the provisions of the Plan became fully vested for all participants effective October 31, 2005.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants or their beneficiaries are recorded upon distribution.

Administrative Expenses

All expenses incurred in conjunction with the Plan are paid by the Organization, except for mutual fund 12B-1 fees.

Bell Memorial Hospital Non-Union Pension Plan

Notes to Financial Statements

Note 2 Summary of Significant Accounting Policies (Continued)

Subsequent Events

Subsequent events have been evaluated through August 13, 2013, which is the date the financial statements were available to be issued.

Note 3 Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' length of service and compensation as of October 31, 2005. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from BPS&M, LLC and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Bell Memorial Hospital Non-Union Pension Plan

Notes to Financial Statements

Note 3 Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions used in the valuation as of November 1 were as follows:

	2011	2010
Assumed rate of return	7.00%	7.00%
Discount rate used to discount plan benefits	7.00%	6.46%
Life expectancy	IRS Generational Mortality Table	IRS Generational Mortality Table
Benefit commencement age	Based on experience	Based on experience
Actuarial method	Unit Credit	Unit Credit

The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the present value of accumulated plan benefits.

In 2012, the actuarial assumption changes are the result of the mortality rates for disabled lives change from the IRS Generational Mortality Tables with Pre- and Post-Commencement Rates to the IRS Revenue Ruling 1996-7 Mortality for Disabled Lives after 1994 and funding target interest rates change from the July 2010 three-segment yield curve to the July 2011 three-segment yield curve.

There were no changes in the significant assumptions used to determine the actuarial present value of accumulated plan benefits in 2011.

Note 4 Investments (Continued)

During the years ended October 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) as follows:

	2012	2011
Common/collective trust fund	\$ (99,547)	\$ -
Mutual funds	710,369	299,982
Net appreciation in fair value of investments	\$ 610,822	\$ 299,982

Note 5 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets.
 - Quoted prices for identical or similar assets or liabilities in inactive markets.
 - Inputs other than quoted prices that are observable for the asset or liability.
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Bell Memorial Hospital Non-Union Pension Plan

Notes to Financial Statements

Note 5 Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2012 and 2011.

Common/collective trust funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end. The NAV's share price is quoted on a private market that is not active; however, the share price is based on underlying investments, which are traded on an active market.

Money market fund and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. There have been no changes in the valuation methodologies used at October 31, 2012 and 2011.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (a) The Fund seeks to approximate as closely as practicable the total return, before deduction of fees and expenses, of the Standard & Poor's 400 Mid Cap Index (the "Index") by investing in the equity securities of companies that compose the Index. The Index is designed to measure the aggregate performance of the stocks of mid-sized U.S. companies.
- (b) The Fund seeks to approximate as closely as practicable the total return, before deduction of fees and expenses, of the Standard & Poor's 500 Index by investing in the equity securities of companies that compose the Index.
- (c) The Fund seeks to approximate as closely as practicable the total return, before deduction of fees and expenses, of the Barclays Government/Credit Bond Index by investing in the debt securities to approximate the return of the Index. The Index is a broad index that is designed to capture the aggregate performance of the U.S. market for high-quality government and corporate bonds.

Note 6 **Net Asset Value Per Share (Continued)**

- (d) The Fund seeks long-term capital appreciation by investing primarily in the common stocks of large cap companies, taking a growth approach to investment selection. The Fund defines a large cap company as one whose market capitalization is larger than the median market capitalization of companies in the Russell 1000[®] Growth Index.

Note 7 **Information Certified by Plan Trustee**

The plan administrator has elected the method of annual reporting compliance by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's trustee, Wells Fargo Bank, N.A., has certified the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- (a) Investments as shown in the statements of net assets available for benefits.
- (b) Net appreciation in fair value of investments and interest and dividends as shown in the statements of changes in net assets available for benefits.
- (c) Investment information as disclosed in Note 3 and on Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Bell Memorial Hospital Non-Union Pension Plan

Notes to Financial Statements

Note 8 Plan Termination

In the event of termination, the Plan's assets are to be allocated, after appropriate allowance for all expenses of administration and liquidation, for the purpose of providing benefits for affected participants, including their beneficiaries, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits under the Plan is guaranteed at the level in effect on the date of the Plan's termination.

Receipt by participants of their benefits upon a plan termination will depend on the sufficiency of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Organization and the level of benefits guaranteed by the PBGC.

The freezing of the Plan described in Note 1 is not considered a plan termination.

Bell Memorial Hospital Non-Union Pension Plan

Notes to Financial Statements

Note 9 Party-in-Interest Transactions

Certain plan investments are shares of common/collective trust funds, a money market fund, and mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan through revenue sharing to Wells Fargo Bank, N.A. for administrative services amounted to \$17,998 and \$15,145 for the years ended October 31, 2012 and 2011, respectively.

Note 10 Tax Status

The Internal Revenue Service (IRS) has determined and informed the Organization by a letter dated March 31, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended October 31, 2009.

Note 11 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Actuarial Valuation Method

Unit Credit

Asset Valuation Method

Market value adjusted for any accruals and further adjusted for weighted gains and losses during the prior 2 years. Weighted gains and losses for each plan year reflect interest at the applicable third segment rate. The resulting value shall not be more than 110% or less than 90% of market value.

Form of Payment

100% of vested decrementing active participants are assumed to elect a straight life monthly annuity.

Provision for Expenses

None – assume expenses paid by employer.

Other Assumptions

Marital status at benefit commencement -- 75% married with female spouses 3 years younger than male spouses.

Top-Heavy status -- not top-heavy.

Current Code section 401(a)(17) compensation limitation -- \$245,000

Current Code section 415(b) annual benefit limitation -- \$195,000

This summary is not a Summary Plan Description or a plan document. You should not rely solely on this summary in making a determination of eligibility for the plan or its benefits.

Summary of Provisions of the Plan

Effective Date and Plan Year

The plan was established effective November 1, 1959, with the latest plan restatement effective November 1, 1989. The plan year ends on each October 31, while the employer's fiscal year ends on each June 30.

Eligibility

Each employee is eligible to become a participant in the plan on the earlier of the November 1 or May 1 immediately following completion of at least 1,000 hours commencing with his date of employment and attainment of age 21. No employee shall become a participant in the plan on or after October 31, 2005.

Service

Service benefit purposes is credited according to the following schedule of calendar year hours, subject to certain break in service rules:

<u>Hours of Service</u>	<u>Credited Service</u>
1,000-1,199	0.6
1,200-1,399	0.7
1,400-1,599	0.8
1,600-1,799	0.9
1,800 or more	1.0

Effective October 31, 2005, no further benefit service will be credited. Service credited for vesting purposes means the number of calendar years in which the employee completes at least 1,000 hours of service, subject to certain break in service rules.

Compensation

Compensation for plan purposes means W-2 compensation for a calendar year, including certain employee pre-tax contributions. If the employee has less than 1,800 hours of service, compensation shall be increased by a ratio of 1,800 and actual number of hours worked for such calendar year. A participant's annual compensation for plan purposes is limited as required under Code §401(a)(17).

Normal Retirement

Condition

For participants whose date of hire is on or after June 1, 1985, the normal retirement date is the first day of the calendar month next following the later of the participant's 65th birthday and the completion of five years of plan participation. For participants whose date of hire is prior to June 1, 1985, the normal retirement date is the first day of the calendar month next following the participant's 65th birthday.

Benefit

The normal retirement benefit, 1/12th of which is payable monthly for the life of the participant, is equal to the sum of the following:

- 1.25% of average earnings multiplied by the participant's years of benefit service not in excess of 40 years, plus
- 0.50% of average earnings in excess of the current Covered Compensation for the participant, multiplied by the participant's years of benefit service not in excess of 40 years.

“Average earnings” is the average annual compensation of a participant for the five consecutive calendar years that produce the highest average.

“Covered Compensation” is the average of the taxable wage bases for the 35 years ending with the year the participant attains Social Security retirement age.

No further benefits will accrue under the plan after October 31, 2005.

Accrued Benefit

The accrued benefit is the monthly benefit with payments beginning at normal retirement that has been earned due to compensation and benefit service as of any determination date. The accrued benefit is payable for the life of the participant and is computed in the same manner as for normal retirement, using the participant’s average earnings and benefit service as of the date of determination, and Covered Compensation determined by assuming the current taxable wage base will remain constant for all future years. No further benefits will accrue under the plan after October 31, 2005.

Early Retirement

Condition

A participant may retire early after he has attained age 55 and completed 10 years of service.

Benefit

The deferred benefit, to commence at the participant’s normal retirement date, is equal to the participant’s vested accrued benefit determined as of his early retirement date.

Upon written request to the retirement committee, the participant’s benefit may commence at any time after his early retirement date. The accrued benefit is reduced 5/9 of 1% for each of the first 60 months and 5/18 of 1% for each of the next 60 months by which the participant’s date of benefit commencement precedes the normal retirement date.

Late Retirement

Condition

A participant may choose to postpone his retirement beyond his normal retirement date, in which event no benefit shall be payable until actual retirement.

Benefit

The participant’s benefit, commencing on the first day of the month following his actual date of retirement, shall be the greater of the actuarial equivalent of the benefit the participant would have received at his normal retirement date, and the benefit computed using the participant’s compensation and benefit service earned as of his actual retirement date.

Disability Retirement

Condition

A participant must be eligible for permanent disability payments under the Federal Social Security Act and have completed 10 years of service.

Benefit

The disability retirement benefit, commencing the first day of the first month for which he is entitled to a disability benefit under the Federal Social Security Act, is computed as the participant’s accrued benefit determined as of the participant’s date of termination of employment due to disability without actuarial adjustment for early commencement.

Death Before Retirement

Condition

In the event of the death of a participant after becoming eligible for a vested benefit under the plan, and while either (i) actively employed by the employer, or (ii) on deferred vested status but prior to receiving any retirement benefits, a monthly survivorship benefit shall be payable to the participant's surviving spouse.

Benefit

The monthly benefit is payable on the first day of the calendar month following the participant's date of death or the earliest date the participant could have elected benefit payments to commence, whichever is later, and continuing for the lifetime of the surviving spouse. The benefit is determined as 50% of the benefit the spouse would have received if the participant had terminated employment the day before death (or on his actual date of termination if earlier), had lived to the benefit commencement date, and elected an immediate joint and 50% to survivor benefit.

Termination of Employment

Condition

If a participant terminates his employment after completing 5 or more years of vesting service, he is entitled to a deferred vested benefit with payment commencing on his normal retirement date.

Benefit

The amount of the benefit is calculated as the product of a vesting percentage and the accrued benefit determined as of the participant's date of termination. The vesting percentage is determined from the following table.

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 5	0%
5 or more	100

Each participant is considered 100% vested in their accrued benefit effective October 31, 2005.

Top-Heavy Status

If in any year the plan is determined to be top-heavy, the following provisions will take effect:

- A minimum accrued benefit will be determined for each participant equal to 2% of the average earnings, multiplied by the participant's years of service during which the plan is top-heavy, limited to 10 such years.
- Participants will become vested in their accrued benefits according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Optional Modes of Benefit Payments

Subject to the applicable plan conditions, a participant may select an optional method of benefit payment, in lieu of the prescribed life income, which is actuarially equivalent thereto. The purpose of the optional method is to permit the guarantee of retirement income payments for a different period of time (i.e., 10 or 15 years or life income only) or to provide a continued life income to a surviving beneficiary after the death of the participant (for example, 50%, 75% or 100% of the participant's actuarially reduced retirement income from the plan). However, if no option is elected and the participant is married at the date the benefit commences, the monthly benefit will automatically be paid in the form of a 50% joint and survivor annuity.

If the actuarial equivalent single sum amount due a terminated participant is less than \$1,000, such amount shall be distributed to the participant in lieu of any other benefits under the plan. If the actuarial equivalent single sum amount due to a terminated participant is more than \$1,000, but less than \$5,000, the participant shall have the option to elect such amount to be distributed in lieu of any other benefits under the plan.

Actuarial Equivalence

Actuarial equivalence is based on the UP-84 Mortality and 6% interest. For purposes of determining single sum benefits, such benefit shall not be less than the amount based on the mortality and interest rates, as defined under Code Section 417(e)(3), in effect for the month of September preceding the first day of the plan year in which the benefit is to be paid.

Contributions to the Plan

The employer contributes actuarially determined amounts to finance the plan benefits. No contributions by participating employees are required.

Investment of Plan Funds

The assets of the pension plan will be invested by the trustee in accordance with the terms of the trust agreement.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
