AAA OKLAHOMA THRIFT & RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note 1 – Description of the Plan

Automobile Club of Oklahoma (the Company or Employer) sponsors the AAA Oklahoma Thrift & Retirement Plan (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the Company's employees, except for independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Company. PNC Bank, N.A. (the Trustee) serves as the trustee of the Plan. PNC Bank processes and maintains the records of the participant data and holds the Plan's assets.

Eligibility

Nonexcluded employees who have reached 21 years of age are eligible to participate in the Plan. Participants are automatically enrolled in the Plan on the first day of the quarter after satisfying eligibility requirements.

Contributions

Each year, participants may contribute 2% to 50% of pretax compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a common collective trust fund as investment options for participants.

Eligible employees are automatically enrolled in the Plan with a 3% employee deduction. Eligible employees who do not want to make a contribution may elect to opt out of automatic enrollment, or they may elect a different contribution percentage. Their contribution rate then increases by 1% after a full year of participation and annually thereafter until a contribution rate of 6% is reached.

The Plan also provides for Safe Harbor Employer matching contributions. During 2012, the Company matched contributions equal to 100% of the first 1% of eligible compensation and 50% of the participant's contributions greater than 1%, not to exceed 6% of the participant's eligible compensation. Employer matching contributions are based on deferrals made each payroll period.

The Plan also provides for discretionary Employer matching contributions. Discretionary contributions in the amount of $348,884 were made by the Plan for the year ended December 31, 2012.

Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Employer's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Transaction based fees associated with optional services offered under the Plan are charged directly to the respective participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and Employer contributions plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, reduced by the highest outstanding loan balance during the 12-month period, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which is based on prime rate plus 1% on the date of origination. Only two loans may be outstanding at any given time. Principal and interest is paid ratably through payroll deductions.

Payments of benefits

Upon retirement, age of 59½, termination, disability or death, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Upon termination, automatic distributions are required for balances of less than $5,000. Automatic distributions above $1,000 made without the participant's consent are rolled into an individual retirement account designated by the Trustee. For inactive employees who have reached age 70½, certain minimum distributions are required.

The Plan allows hardship withdrawals, subject to account balance limits and applicable laws.

Administrative expenses

The Plan allows administrative expenses to be paid from the Plan's assets.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

The Plan has a fully benefit responsive common collective trust fund. This type of investment contract is required to be reported at fair value. However, contract value is the relevant measurement for fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the common collective trust fund at fair value, which approximates contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of benefits

Benefit payments are recorded when paid. There were no benefits requested before year-end that were not paid.

New accounting pronouncement

In May 2011, the Financial Accounting Standards Board issued new guidance to achieve fair value measurement and disclosure requirements in accordance with accounting principles generally accepted in the United States of America and International Financial Reporting Standards. The guidance also clarifies the application of existing fair value measurements and disclosure requirements and those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The new guidance is effective for periods beginning after December 15, 2011. The adoption of this guidance did not materially affect the Plan's financial statements.

Subsequent events

The Plan Administrator has evaluated subsequent events through July 30, 2013, the date the financial statements were available to be issued.

Note 3 – Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and

Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2012 and 2011;
- Net investment activity and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2012;
- Investment information included in the footnotes and supplemental schedule of assets (held at end of year) as of December 31, 2012.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 – Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

Investment	2012	2011
American Funds Balanced Fund	$ 4,651,514	$ 4,170,990

Common collective trust fund	54,293
	$ 1,627,438

Note 5 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.

Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2012 and 2011. During the years ended December 31, 2012 and 2011, there were no transfers of financial instruments in or out of Level 3.

Following is a description of the valuation methodologies used for assets measured at fair value:

Common collective trust fund – Stated at fair value as determined by the issuer of the common collective trust fund based on fair market value of the underlying investments. The PNC Investment Contract Fund (the Fund) is a common collective trust fund that is considered to be a stable value fund with underlying investments in fully benefit responsive investment contracts. The fair value of the stable value fund is the net asset value of its underlying investments. There are no restrictions on redemptions from the common collective trust fund, and there are no unfunded commitments as of December 31, 2012.

Participants do not have beneficial ownership in the specific underlying securities or other assets in the Fund, but do have an interest therein represented by units valued daily. The Fund earns dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawal payments from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participant's accounts are charged or credited with the number of units properly attributable to each participant.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fund at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that affect its ability to transact at contract value. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable. The Plan may only withdrawal from the Fund upon 12 months advance written notice.

Mutual funds – Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

Note 6 – Party-in-Interest Transactions

Certain administrative expenses, totaling approximately $6,500, were paid by the Company on behalf of the Plan for the year ended December 31, 2012. The Company does not expect reimbursement from the Plan for the payment of these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

Certain common collective trust funds are managed by the Trustee. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in the fair value of investments.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 – Tax Status

The Company adopted a nonstandardized prototype plan (the Prototype Plan) sponsored by PNC Bank, N.A. The Internal Revenue Service (IRS) has determined and informed the Trustee by a favorable opinion letter dated March 31, 2008, that the Prototype Plan is designed in accordance with the applicable sections of the Internal Revenue Code (the Code). The Prototype Plan's opinion letter is being relied on by the Plan. Although the Plan has been amended since receiving the opinion letter, the Plan's management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the United States Department of Labor. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
