Report on the Financial Statements

We were engaged to audit the accompanying financial statements of ColorMatrix Corporation Incentive Savings Plan and Trust (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2012 and 2011 and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Reliance Trust Company (the "Custodian"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes related transactions. The plan administrator has obtained a certification from the Custodian as of December 31, 2012 and 2011 and for the year ended December 31, 2012 that the information provided to the plan administrator by the Custodian is complete and accurate.

ColorMatrix Corporation Incentive Savings Plan and Trust

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of ColorMatrix Corporation Incentive Savings Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan, established October 1, 1988, is a defined contribution plan covering substantially all employees of ColorMatrix Corporation (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In 2011, the Company was acquired by PolyOne Corporation.

Eligibility - Employees who have reached the age of 21 and have completed three months of service are eligible to participate in the Plan.

Contributions - Contributions to the Plan are invested as directed by the participant in any one or more investment alternatives. The amount of each participant's deferred compensation is treated as an employee elective contribution and allocated to that participant's elective account. Total deferrals may not exceed the dollar limit set by law. The Company makes matching contributions equal to 100 percent of the first 3 percent of participant contributions, plus 50 percent of the next 2 percent (up to 4 percent of a participant's compensation). A discretionary contribution may be made as determined by the Company's board of directors. There were no discretionary contributions made during the year ended December 31, 2012.

Participant Accounts - Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their contributions, employer matching contributions, and actual earnings thereon.

Payment of Benefits - Upon retirement, death, disability, or other termination of employment, a participant may elect to receive payment for the value of his or her account through a lump-sum payout or in equal installments over a period not to exceed the participant's assumed life expectancy.

Forfeited Accounts - As of December 31, 2012 and 2011, forfeited nonvested accounts totaled \$0 and \$1,850, respectively. Forfeited amounts may be used to reduce future employer contributions or pay plan expenses.

ColorMatrix Corporation Incentive Savings Plan and Trust

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description (Continued)

Participant Notes Receivable - The Plan allows participants to borrow money from the Plan up to the lesser of (1) \$50,000 reduced by the excess, if any, of the highest outstanding balance of notes receivable during the one-year period ending on the day before the note receivable is made, over the outstanding balance of notes receivable from the Plan on the date the note receivable is made or (2) one-half of the participant's account balance. Notes receivable are collateralized by the balance in the participant's account and bear interest at market rates. Principal and interest are paid ratably through monthly payroll deductions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Reliance Trust Company or its affiliates. Reliance Trust Company is the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its common collective trust fund investment (commonly referred to as a stable value fund), which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The common collective trust fund primarily holds guaranteed investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the remaining common collective trust funds is based on the quoted market values of the funds' underlying investments.

All other investments are valued based on quoted market prices (including mutual funds). See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Administrative Expenses - The Company paid certain administrative expenses during 2012 totaling approximately \$11,000 on behalf of the Plan.

ColorMatrix Corporation Incentive Savings Plan and Trust

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 19, 2013, which is the date the financial statements were available to be issued.

Effective January 1, 2013, the assets of the Gayson SDI 401(k) Plan were transferred and received by ColorMatrix Corporation Incentive Savings Plan and Trust. Immediately following the merger, each participant who was a participant in the Gayson SDI 401(k) Plan on the effective date will have an account balance in the ColorMatrix Corporation Incentive Savings Plan and Trust equal to their previous account balance in the Gayson SDI 401(k) Plan.

Note 3 - Unaudited Information

Reliance Trust Company (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the Plan, as designed, is qualified for federal income tax exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

Note 5 - Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their account balances and the Plan's net assets will be distributed according to each participant's account balance.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Note 6 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
