Audit Results

ICC Nexergy 401(k) Profit Sharing Plan

December 31, 2012

This presentation was prepared as part of our audit, has consequential limitations, is restricted to those charged with governance and, if appropriate, management, and is not intended and should not be used by anyone other than those specified parties.

Matters to be Communicated to Those in Governance

Generally accepted auditing standards (GAAS) require the auditor to ensure that those charged with governance receive information regarding the results of the audit that may assist those charged with governance in overseeing management's financial reporting and disclosure process. Below we summarize these required communications.

The Auditor's Responsibility Under Generally Accepted Auditing Standards

We were engaged to conduct an audit of the financial statements as of and for the year ending December 31, 2012 for the ICC Nexergy 401(k) Profit Sharing Plan. The financial statements are the responsibility of management. Our audit was designed in accordance with GAAS, which provides for reasonable, rather than absolute, assurance that the financial statements are free of material misstatement. We have the responsibility to opine on whether the financial statements are fairly stated in accordance with accounting principles generally accepted in the United States of America.

As part of our audit, we obtained a sufficient understanding of the internal controls to plan our audit, to determine the nature, timing and extent of testing performed and not to provide assurance on internal controls.

We have issued our independent auditor's report reflecting a DOL limited scope disclaimed opinion for the year ended December 31, 2012.

Significant Accounting Policies

The significant accounting policies used by the Plan are described in the notes to the financial statements. During 2011, the Plan adopted Accounting Standard Update (ASU) No. 2011-04, *Amendments to Achieve common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). The accounting policies used are appropriate and are in compliance with generally accepted accounting principles.

Management Judgments and Accounting Estimates

The preparation of financial statements requires the use of accounting estimates. Certain estimates are particularly sensitive due to their significance to the statements and the possibility that future events may differ significantly from management's expectations. The accounting estimates made by management for the preparation of the financial statements for the year ended December 31, 2012 were determined to be appropriate under generally accepted accounting principles.

Financial Statement Disclosures

The overall goal of the disclosures in the financial statements is to provide relevant information to the reader in as neutral, concise, consistent and clear a manner as possible while also complying with the disclosure requirements of generally accepted accounting principles. In addition, the disclosures made also require judgment due to the potential sensitive nature of certain items. The disclosures made in the financial statements for the year ended December 31, 2012 were determined to be appropriate and in compliance with generally accepted accounting principles.

Unrecorded Audit Adjustments

The unrecorded audit difference noted during the December 31, 2012 audit is as follows:

	Effect on Assets	Effect on Liabilities	Effect on Net Assets Available for Benefits	Effect on Net Increase in Net Assets Available for Benefits
Beginning balance	$ 8,532,082	$ -	$ 8,532,082	$(405,053)
To record current year impact of prior year contributions made to the plan	-	-	-	(38,122)
To record adjustment for excess contributions refunded to employees	-	25,886	-	(25,886)
To record current year impact of corrective distributions	-	-	-	22,221
Ending balance	$ 8,532,082	$ 25,886	$ 8,532,082	$(446,840)

Matters to be Communicated to Those in Governance (continued)

Significant Audit Adjustments

There were no audit adjustments during the 2012 audit.

Post-Closing Adjustments by Management

We identified no post-closing adjustments by management.

Difficulties Encountered in Performing the Audit

We encountered no major difficulties in working with any Company personnel while performing and completing our audit. Further, we encountered no difficulties of any other nature in completing our audit.

Disagreements with Management

We had no disagreements with management.

Representations the Auditor is Requesting from Management

See the attached copy of the management representation letter.

Consultation with Other Accountants

We are not aware of management consulting with other independent accountants subsequent to our appointment.

Irregularities and Illegal Acts

No such items were noted during the completion of our audit.

Significant Issues Discussed with Management

In planning and performing our audit of the financial statements of ICC Nexergy 401(k) Profit Sharing Plan (the Plan) as of and for the year ended December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal controls over financial reporting (internal controls) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal controls.

Our consideration of internal controls was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal controls that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified.

A deficiency in internal controls exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, in internal controls that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A material weakness is a deficiency, or combination of deficiencies, in internal controls, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

This communication is intended solely for the information and use of those charged with governance and, if appropriate, management, and is not intended to be and should not be used by anyone other than these specified parties.

Plan Description

The following description of the ICC Nexergy 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of ICC Nexergy, Inc. (the Company).

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective October 3, 2011, the Plan was merged with the Nexergy, Inc. 401(k) Plan. The Plan absorbed the assets of the Nexergy, Inc. 401(k) Plan and following the consolidation each former participant of the Plan had an ICC Nexergy 401(k) Profit Sharing Plan account balance equal to the sum of his or her Nexergy, Inc. 401(k) Plan account balance immediately prior to the consolidation date.

Eligibility

An employee becomes eligible as a participant in the Plan on the first day of each month following one month of service and is at least 21 years of age. Should the Company acquire a business, employees of the acquired business are credited with service from the previous employer to determine eligibility for the Plan.

Contributions

Each year, participants may contribute up to 60% of pretax annual compensation as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund as investment options for participants. The Plan provides that the Company may make discretionary matching contributions, as approved by the Company's Board of Directors. Additional non-elective employer contributions may be made as determined by the Company's Board of Directors. The Company made discretionary matching contributions equal to $0.60 of the participant's salary deferral contributions up to 5% of a participant's eligible compensation per payroll date during 2012. Contributions are subject to certain limitations.

Plan Description (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, (b) plan earnings and (c) charged with an allocation of administrative expenses. Allocations are based upon the participant's earnings or account balances as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and non-elective contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service and is subject to the following vesting schedule:

Discretionary Matching and Employer Nonelective Contributions

Years of Service	Vesting
Less than 1	0%
1	20%
2	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested balance. The loans are secured by the balance in the participant's account and bore interest at rates that range from 3.25% to 8.75%, which are commensurate with local prevailing rates as determined by the plan administrator. Loan repayment terms are not to exceed five years, unless the loan will be used by the participant to acquire the participant's residence. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. In addition, participants may elect to receive hardship withdrawals, as defined in the Plan agreement.

Forfeited Accounts

At December 31, 2012 and 2011 forfeited non-vested accounts totaled $8,916 and $6,620, respectively. Forfeitures from employer matching contributions will first be used to pay administrative expenses of the Plan and then to reduce future employer contributions. In 2012, forfeitures of $3,484 and $3,796 were used to pay administrative expenses and reduce employer contributions, respectively.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

New Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 provides clarity to the fair value definition in order to achieve greater consistency in fair value measurements and disclosures between GAAP and International Financial Reporting Standards (IFRSs). ASU 2011-04 requires additional disclosures regarding transfers of assets between Level 1 and 2 of the fair value hierarchy and expands the fair value disclosure requirements particularly for Level 3 measurements. Plan management adopted this standard on January 1, 2012 and the adoption did not have a material impact on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded in the accrual basis. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all administrative expenses of the Plan are paid by the Company.

Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money Market: Valued at cost, which approximates fair value.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

Party-in-Interest Transactions

Certain plan investments were shares of mutual funds managed by Fidelity, the trustee of the Plan as defined in the Plan agreement and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee for administrative expenses were $10,969 as of December 31, 2012.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Tax Status

The underlying non-standardized prototype plan which has received an opinion letter from the Internal Revenue Service (IRS) dated January 30, 2006 stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code (IRC), and therefore the related trust is tax exempt. In accordance with Revenue Procedure 2003-6 and Announcement 2001-77, the plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2009.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the accompanying 2012 statement of net assets available for benefits.

Subsequent Events – Date of Management's Evaluation

Management has evaluated subsequent events through the date of the Independent Auditor's Report, the date on which the financial statements were available to be issued.
