Behr Retirement Savings Plan

Notes to Financial Statements

December 31, 2012

1. Description of the Plan

The following description of the Behr Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Behr America, Inc. and certain of its subsidiaries (the Company and the Plan Sponsor). The Plan is administered by the Plan Sponsor as directed by the Retirement Plans Committee appointed by the Board of Directors of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Beginning in 2012, participants may contribute up to 50% of pretax annual compensation (up to 20% in 2011), as defined by the Plan, up to the annual Internal Revenue Service (IRS) limit. Participants that are defined as highly compensated may contribute up to only 20% of pretax annual compensation, subject to the same IRS limit. Participants that are 50 or older during the plan year may also contribute catch-up contributions up to the annual IRS limit. Participants may also roll over distributions from other qualified defined benefit or defined contribution plans. Participants must be employed by the Company on the last day of the plan year and be enrolled in the Plan to be credited with any employer contributions. Participants who terminate during the year due to death, disability, and retirement are also eligible for employer contributions as well as participants whose jobs were eliminated due to a reduction in force and who accepted a General Release and Separation Agreement. The Plan has an automatic enrollment feature so that any new employee is deemed to have elected to contribute 3% of compensation, unless the employee elects to opt out within 45 days of the employee's eligibility date. If the employee does not opt out or elect to contribute sooner, the 3% contribution begins with the first pay period after the 45-day opt-out period.

1. Description of the Plan (continued)

The employer matching contribution is based on the following scale:

Cumulative Employee Contribution	Cumulative Employer Matching Contribution
1%	1.5%
2%	2.5%
3%	2.9%
4%	3.3%
5%	3.7%
6%-50%	No additional match

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and allocations of net plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant account. Participants direct the investment of their accounts among the investment funds offered by the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants have vested rights to the Company's contribution of 20% after two years of service, 40% after three years of service, 66% after four years of service, and are fully vested after five years of service.

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions. There were $306,546 and $40,377 of unallocated forfeitures included in plan assets at December 31, 2012 and 2011, respectively. The amount of forfeitures used to reduce employer contributions for 2012 was $307,275.

1. Description of the Plan (continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to 50% of their vested account balance with a maximum loan of $50,000. Loan terms range up to five years unless the loan proceeds are used for the purchase of a primary residence of the participant; in which case, they are determined at the time the loan is made up to ten years. The loans are secured by the balance in the participant's account and bear interest at the prime rate published in *The Wall Street Journal* plus 2%. Principal and interest are paid through payroll deductions.

Payment of Benefits

Participants or their beneficiaries may receive lump-sum distributions of their vested account balance upon retirement, death, disability, or termination of service.

Participants have the option to receive a hardship distribution from their deferral contributions account prior to separation from service, subject to certain IRS limitations.

Transfers

Participants in the Behr Dayton Retirement Savings Plan (a related plan) who become an employee of the Company may have their account balance transferred to the Plan. Participants in the Plan who become an employee of Behr Dayton Thermal Products, LLC may have their participant account balance transferred to the Behr Dayton Retirement Savings Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts, and all assets of the Plan will be distributed to the participants at the discretion of the employer or continue to be held in a trust fund to be distributed to each participant upon retirement, death, permanent disability, or termination of employment.

1. Description of the Plan (continued)

Administrative Expenses

All expenses of plan administration may be paid out of plan assets unless paid by the Company at its discretion. Certain administrative expenses, such as services performed by officers, employees, or subcontractors of the Company, have been paid by the Company on behalf of the Plan.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

2. Summary of Accounting Policies (continued)

The T. Rowe Price Stable Value Common Trust Fund (Stable Value Common Trust Fund) invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 4); however, since these contracts are fully benefit responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

3. Investments

Rowe Price Trust Company.

***** The fair value of the Plan's investment in the Stable Value Common Trust Fund was $8,978,805 and $8,895,940 at December 31, 2012 and 2011, respectively.

4. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end as quoted in the active markets.

Common/collective trust: The plan invests in the Stable Value Common Trust Fund, which is a common/collective trust fund designed to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a retirement plan without penalty or adjustment. This fund is primarily invested in guaranteed investment contracts issued by insurance companies; investment contracts issued by banks; structured or synthetic investment contracts (SIGs), as well as securities supporting such SICs (underlying assets); separate account contracts; and other similar instruments that are intended to maintain a constant net asset value while permitting participant-initiated, benefit-responsive withdrawals for certain events (collectively, investment contract). Participant-directed redemptions have no restrictions; however, the Plan is required to provide a 12-month redemption notice to the trustee prior to redemption of trust units; the notice period may be shortened or waived by the trustee in its sole discretion. The fund is valued at the NAV provided by the administrator of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, divided by the number of units outstanding. The fair value differs from the contract value. As previously discussed in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual funds:

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2012	2011
Net assets available for benefits as reported in the Plan's financial statements	**$ 63,086,474**	$ 54,438,477

Net assets available for benefits per the Form 5500	**$ 63,456,566**	$ 54,748,720

5. Reconciliation of Financial Statements and Form 5500 (continued)

The following is a reconciliation of the net increase prior to transfers per the financial statements to the Form 5500 for the year ended December 31, 2012:

Net increase in net assets available for benefits per the financial statements	$ 8,635,682
Add: Adjustment from fair value to contract value for the fully benefit-responsive investment contracts at December 31, 2012	370,092
Less: Adjustment from fair value to contract value for the fully benefit-responsive investment contracts at December 31, 2011	(310,243)
Net income per the Form 5500	$ 8,695,531

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participant account balances and the amounts reported in the statements of net assets available for benefits.

7. Related-Party Transactions

The Plan holds units of a common/collective trust fund managed by T. Rowe Price, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Income Tax Status

The Plan has received a determination letter from the IRS dated May 5, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

8. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Subsequent Events

Management evaluated subsequent events for the Plan through August 8, 2013, the date the financial statements were available to be issued.
