1. PLAN DESCRIPTION

The following description of the Endologix, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, which became effective on June 25, 1996 to provide retirement benefits for eligible employees of Endologix, Inc. (the "Company"). The Company is the Plan Administrator and Plan Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Ascensus (the "Agent") is authorized to act as an agent for Frontier Trust Company FSB (the "Trustee").

Eligibility

The Plan requires each employee to attain the age of twenty-one. Upon satisfying this requirement, employees will become eligible to participate in the Plan at any point of employment. Eligible employees may enroll in the Plan at any time after their eligibility date.

Contributions

Each year, participants may contribute up to 100% of their pre-tax annual compensation, subject to the maximum dollar amount allowed under Section 404(a) of the Internal Revenue Code, as amended (the "Code"). The maximum contribution allowed was $17,000 for 2012 and $16,500 for 2011. Participants over age 50 can defer an additional amount in excess of the dollar limit in the Code. For the 2012 plan year, the maximum catch-up contribution was $5,500. Participants may also contribute amounts representing distributions from other qualified plans. The Company does not make any matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and the participant's share of the Plan earnings, net of certain investment management fees. Allocations are based on participant account balances, as defined in the Plan. Participants may direct their elective deferral contributions into various investment options offered by the Plan and may change their investment options at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. PLAN DESCRIPTION (continued)

Vesting

Participants are immediately fully vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contributions plus actual earnings thereon is based on years of continuous service.

Notes Receivable from Participant

Participants may borrow from their fund accounts, a minimum of $1,000 up to the lesser of 50% of their vested account balance subject to certain Department of Labor and Internal Revenue Service ("IRS") requirements or $50,000. Notes receivable from participants transactions are treated as a transfer between the respective investment fund and the loan fund. The notes are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The interest rate on borrowings ranged from 3.25% to 5% per annum as of December 31, 2012 and 2011.

Payment of Benefits

Benefit payments are made upon early or normal retirement, disability, or death. Upon termination of employment, a participant may have the vested benefits disbursed through a lump sum cash distribution or transferred to another qualified plan. If the vested value of the participant's account exceeds $5,000, the participant may elect to keep the account in the Plan and maintain his or her account in any of the Plan's investment options. Benefits are recorded when paid.

Corrective Distributions

During 2012, the Plan refunded approximately $86,000 to certain active participants to return to them excess 2011 deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. At December 31, 2012 and 2011, there were corrective distributions payable of approximately $81,000 and $86,000, respectively. The corrective distribution payable at December 31, 2012 will be refunded in 2013.

Forfeitures

Forfeited nonvested amounts are used to reduce future employer contributions, with any remaining amounts used to reduce the Plan's ordinary and necessary administrative expenses. As of December 31, 2012 and 2011, the Plan had no forfeited nonvested accounts.

1. PLAN DESCRIPTION (continued)

Administrative Expenses

The costs of administering the Plan are paid for by the Company with the exception of payment of brokerage commissions and fees associated with the management of the investment funds and certain administrative expenses paid to the Agent, a party-in-interest. Costs paid by the Company, a party-in-interest to the Plan, were approximately $8,000 for the year ended December 31, 2012. Costs paid by the Plan were approximately $3,000 for the year ended December 31, 2012 and are considered a party-in-interest transaction (see Note 6).

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts with respect to any Company contributions.

Plan Amendments

There were no amendments to the Plan during the year ended December 31, 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on an accrual basis and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments and Revenue Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Standards

There were no recent accounting pronouncements issued that had material significance to the Plan.

Notes Receivable from Participant

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

The Plan evaluated subsequent events for their potential impact on the financial statements and disclosures through July 24, 2013, which is the date the financial statements were available to be issued.

3. TAX STATUS

The IRS has determined by letter, dated March 31, 2008, that the Plan is qualified in accordance with applicable sections of the Code, and the trust under the Plan constitutes a qualified trust and is therefore exempt from federal income taxes. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Plan could be subject to income tax if certain issues were found by the IRS that could result in the disqualification of the Plan's tax-exempt status; however, there are currently no audits for any tax periods in progress.

4. INFORMATION CERTIFIED BY THE AGENT (UNAUDITED)

Information regarding the investments at fair value and investment income, notes receivable from participants and interest earned on notes receivable from participants, as reflected in the accompanying financial statements and supplemental schedule, has been certified to the Plan Sponsor and Administrator by the Agent on behalf of the Trustee as being complete and accurate.

Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA states, in part, that any statement of information prepared and certified by the Agent on behalf of the Trustee need not be audited or reported on by an independent public accountant. Pursuant to that regulation, the Plan Sponsor has instructed its independent public accountants, Squar, Milner, Peterson, Miranda & Williamson, LLP, not to perform any auditing procedures with respect to information certified by the Agent on behalf of the Trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012.

5. INVESTMENTS

The following investments represent five percent or more of the Plan's net assets at December 31:

	2012	2011
PIMCO Total Return Fund	$ 1,086,965	$ 777,311
GM Davis NY Venture Fund	$ 949,082	$ 654,254
GM BlackRock Global Allocation Fund	$ 864,158	$ 693,658
GM American Funds Growth Fund of America	$ 807,981	$ 571,803
GM Delaware Diversified Income Fund	$ 553,112	$ 397,646
AIM Money Market Fund	$ 556,418	$ 385,858
GM BlackRock Global Small Cap Fund Inc.	$ 530,459	$ 350,925
GM BlackRock Mid Cap Value Opportunities Fund	$ 841,805	$ 587,911
Black Rock Equity Dividend Fund	$ 445,844	$ 92,356

6. PARTY-IN-INTEREST TRANSACTIONS

The Trustee is a party-in-interest as defined by ERISA and was paid administrative fees of approximately $3,000 in 2012. The Company is the Plan Sponsor, as defined by the Plan. All Plan transactions with the Trustee and the Company qualify as party-in-interest transactions permitted by Department of Labor regulations.

7. FAIR VALUE MEASUREMENTS

The Plan adopted the provisions of FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, or ASC 820, with respect to its investments. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

ASC 820 establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The level in the fair value hierarchy is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The three levels of inputs used to measure fair value are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

7. FAIR VALUE MEASUREMENTS (continued)

Level 2: Inputs to the valuation methodology include

- quoted price for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Unobservable inputs used to measure fair value to the extent that observable inputs are not available.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds

Mutual funds are valued at quoted market prices in an exchange and active markets, which represent the net asset values of shares held by the Plan at year-end, and are classified as Level 1 investments.

Money Market Funds

The money market funds are valued at quoted market prices in an exchange and active markets, which represent the net asset values of shares held by the Plan at year-end, and are classified as Level 1 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

December 31, 2012

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
