NOTE A - DESCRIPTION OF THE PLAN

The following description of the Forrest Machining, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

Effective January 1, 1999, Forrest Machining, Inc. (the "Employer") established the Plan as a contributory profit sharing plan under Sections 401(a) and 401(k) of the Internal Revenue Code (IRC), subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective December 22, 2011, the Plan terminated their contract with Capital Bank and Trust Company as trustee and contracted with John Hancock Life Insurance Company USA ("John Hancock") as the new custodian and recordkeeper. As a result, Plan assets were transferred from Capital Bank and Trust Company to John Hancock on December 30, 2011 and January 17, 2012.

2. Eligibility

An employee is eligible to make deferral contributions to the Plan on the first day of each quarter upon completion of one year of service and attainment of age 21. Employees are eligible for Employer contributions upon completion of one year of service during which at least 1,000 hours are worked, be employed on the last day of the plan year and attainment of age 21. Employees who are non-resident aliens, leased employees, or independent contractors are not eligible to participate in the Plan.

3. Contributions

Participants may elect to contribute, on a tax-deferred basis, up to 100% of their eligible compensation up to the maximum deferral limit per Section 402(g)(1) of the IRC of $17,000 for the plan year ended December 31, 2012. Additional "catch-up" contributions may be made beginning in the Plan year in which a participant will be at least age 50 by the end of the Plan year. The maximum "catch-up" contribution is $5,500 for the year ended December 31, 2012.

For the year ended December 31, 2012, the Employer made safe harbor matching contributions equal to 100% of deferrals up to 3% of compensation plus 50% of deferrals in excess of 3% of compensation, not to exceed 5% of compensation.

In addition, the Employer may make discretionary matching, qualified non-elective and profit sharing contributions to the Plan. There were no Employer discretionary matching, qualified non-elective or profit sharing contributions during the year ended December 31, 2012.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Employer safe harbor matching contributions, Employer discretionary matching contributions, Employer profit sharing contributions, qualified non-elective contributions, and forfeitures, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Investment Options

Participants may direct employee and Employer contributions, as desired, in any of a variety of investment options offered by John Hancock. Participants may change their investment options daily.

6. Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum of 50% of their vested account balance (not to exceed $50,000, less the highest outstanding loan balance during the prior twelve month period). All loans shall bear interest at a rate equivalent to the prime rate plus 2%. Loans must be paid back within five years of the date of issuance in accordance with terms established by the plan administrator. Loans for the purchase of a principal residence may be paid back over a longer period of time, as determined by the Plan administrator, but not to exceed 30 years. Loans are due and payable upon the participant's termination of employment with the Employer. Participants may only have one loan outstanding at any given time.

7. Forfeitures

Forfeitures of terminated participants' non-vested accounts are used to pay administrative expenses of the Plan and then to reduce the Employer contributions for the Plan year following the Plan year in which the forfeitures occur. There were no outstanding forfeitures available as of December 31, 2012 and 2011.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

8. Vesting

Employee deferral contributions, employee rollovers, Employer safe harbor matching contributions, Employer qualified non-elective contributions, and actual earnings thereon are fully vested at all times. Vesting of discretionary Employer matching contributions, Employer profit sharing contributions, and actual earnings thereon occurs based upon the participant's years of service with the Employer as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

9. Benefit Payments

Upon termination of employment with the Employer, a participant will automatically receive a lump sum disbursement if his or her vested account balance is $5,000 or less. If the vested account balance is greater than $5,000, the participant may elect to receive a lump sum disbursement at any date subsequent to termination. In the event of death, attainment of normal retirement age, or total and permanent disability, a participant's beneficiary or the participant is entitled to the total value of the participant's account. In-service and hardship distributions are permitted if certain criteria are met.

10. Plan Termination

Although it has not expressed such intent, the Employer, by action of its Board of Directors, reserves the right, at any time, to amend or terminate the Plan. Upon termination of the Plan, further contributions to the Plan shall cease and all participants who are affected by such termination shall become 100% vested. Net assets available for benefits would be distributed to the participants based on each participant's interest in the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Basis of Presentation (Continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment, if any, of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is presented on a contract value basis. At December 31, 2012 and 2011, contract value of the fully benefit-responsive investment contract approximated fair value.

2. Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards* (IFRS). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, to converge the fair value measurement guidance in GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management adopted the provisions of ASU 2011-04 effective January 1, 2012, see Note D.

3. Plan Administration

The Employer is the plan sponsor and the plan administrator. The administrator of the Plan is responsible for carrying out the duties imposed under ERISA.

4. Administrative Expenses

Certain administrative expenses incurred by the custodian in performance of its duties are paid from the assets of the Plan. Investment related expenses are included in the net appreciation in fair value of assets. Substantially all other out-of-pocket administrative expenses of the Plan are paid by the Employer.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

6. Payment of Benefits

Benefits are recorded when paid.

7. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note D for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes gains and losses on investments bought and sold as well as held during the year.

8. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

9. Subsequent Events

Plan management has evaluated subsequent events through July 29, 2013, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to certain information certified by Capital Bank and Trust Company, the former trustee, and John Hancock, the custodian, as of December 31, 2012 and 2011 and for the year ended December 31, 2012, as complete and accurate to the best of their knowledge, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

Total investments and notes receivable from participants held and certified by John Hancock in the accompanying Statements of Net Assets Available for Benefits were $2,526,238 as of December 31, 2012. Total investments held and certified by John Hancock in the accompanying Statements of Net Assets Available for Benefits were $1,658,011 as of December 31, 2011. Total notes receivable from participants held and certified by Capital Bank and Trust Company in the accompanying Statements of Net Assets Available for Benefits were $159,054 as of December 31, 2011. Net investment income and interest income on notes receivable from participants certified by John Hancock in the accompanying Statement of Changes in Net Assets Available for Benefits were $187,002 for the year ended December 31, 2012.

Investments that represent 5% or more of total net assets available for benefits as of December 31, 2012 and 2011 were as follows:

	2012	2011
Investments at fair value:		
Lifestyle Conservative	$ 1,445,813	$ 1,521,466
John Hancock Stable Value Fund	$ 161,305	$ 124,968

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $180,666. These investments consist of pooled separate accounts offered by the custodian.

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: The net asset value (NAV) of these accounts (except for the John Hancock Stable Value Fund) is based on the market value of its underlying investments. The NAV is not a publicly quoted price in an active market.

The John Hancock Stable Value Fund is an investment option which invests in fully benefit-responsive investment contracts, and is valued at contract value (see Note B.1). Contract value represents investments at cost plus accrued income less amounts withdrawn to pay benefits. The fair value of the Stable Value Fund is based on discounting the related cash flows of the underlying investments based on current yields of similar investments with comparable durations. The Stable Value Fund seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term.

The pooled separate accounts do not have unfunded commitments relating to its investments, or any significant restrictions on participant-directed withdrawals. Participant-directed withdrawals can be made on any business day and do not have a redemption notice period. Participant-directed transfers to other investments options are generally limited to two per calendar month.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

The custodian is a party-in-interest with respect to the Plan. Plan investments are held with the custodian and therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants and the related interest income are also considered party-in-interest transactions.

NOTE F - TAX STATUS

The Internal Revenue Service (IRS) issued its latest determination letter dated December 20, 2010, which stated that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving its most recent determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Administration errors, if any, that are insignificant or operational in nature are handled by the plan administrator in accordance with applicable IRS correction policies. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

The Plan failed the actual deferral percentage (ADP) non-discrimination test for the 2010 plan year. As a result, a one-to-one correction was made in which a QNEC was deposited to the Plan and excess contributions were refunded to certain highly compensated employees during the year ended December 31, 2012, in order to maintain the Plan's qualified tax status. The plan administrator and tax advisors believe that the correction for this operational error has been properly handled under the IRS's Employee Plans Compliance Resolution System. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2009.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE H - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
