1. Description of the Plan

The following description of Liquid Environmental Solutions & Affiliates 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Document and Summary Plan Description, which are available from the plan administrator, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Liquid Environmental Solutions Corporation (the "Company" or the "Employer" or the "Sponsor") for the benefit of its employees who have at least one month of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). John Hancock Life Insurance Company is the Trustee and Premier Pension Solutions is the third party administrator of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions up to the maximum amount allowed under the Internal Revenue Code ("IRC"), which is $17,000 for 2012. Employee rollover contributions and catch-up contributions are also permitted.

Effective January 1, 2011, the Company changed the discretionary match to 25% per dollar contributed by employee, up to 6% of eligible wages. The Company may also make additional discretionary contributions. In 2012 and 2011, the Company did not make any additional discretionary contributions. Contributions are subject to certain limitations as defined in the Plan and required by ERISA.

The Plan document includes an automatic deferral feature whereby a participant is enrolled as electing to defer 3% of eligible compensation unless the participant makes an affirmative election otherwise. If an investment election is not made by the participant, the automatic withholding will be invested in the Retirement Living (Target Date) Fund based upon their year of birth.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions and matching contributions in any of the available investment options and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon.

If a participant terminates employment prior to normal retirement age for any reason other than death or permanent disability, their interest in the Employer discretionary matching contributions to the Plan for their benefit vests as follows:

Years of Service	Vesting Percentage pre participating date 12/31/2007	Vesting Percentage post participating date 12/31/2007
0-1	0%	0%
2	50%	20%
3	100%	40%
4	100%	60%
5	100%	80%
6	100%	100%

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, hardship or termination of employment, as defined in the Plan agreement. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan. Participants who attain the age of 59 ½ are eligible to receive benefit payments even though normal retirement age is 65.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $11,455 and $4,539, respectively. These accounts will be used to reduce future employer contributions.

Notes Receivable from Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan is $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence which may be for a period up to fifteen years) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. Interest rates on loans outstanding at December 31, 2012 ranged from 4.25% to 8.75%.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The investments of the Plan are reported at fair value in accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

As described in ASC 962 "*Plan Accounting - Defined Contribution Pension Plans*" (formerly known as Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans), investment contracts held by the defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the 3-year and 5-year Guarantee Income Fund, a stable value fund. All fund assets are rated investment grade at the time of purchase with an average portfolio quality of A or better. The stable value fund is not considered fully benefit-responsive.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan Document. There was no allowance at December 31, 2012 or 2011 as the loans are fully collateralized by the participants' accounts.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Expenses incurred in connection with the administration of the Plan are paid by both the Company and Plan participants. Total administrative fees paid by the Company on behalf of the Plan were $9,473 for 2012. Administrative expenses include fees such as John Hancock loan record keeping fees and administrative service fees paid to Third Party Administrator.

Effects of Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, Fair Value Measurements and Disclosures, to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In July 2013, the FASB issued ASU 2013-09, *Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04.* ASU 2013-09 amended ASC 820, Fair Value Measurements and Disclosures, to defer indefinitely the effective date of certain required disclosures in Update 2011-04 of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The deferral in this amendment is effective upon issuance. The adoption of ASU 2013-09 did not have an effect on the Plan.

3. Information Certified by the Trustee (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and notes receivable from participants as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011.

- Net investment gain and interest on notes receivable from participants, as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 as follows:

Year ended December 31,		2012
Interest income from guaranteed interest accounts	$	40
Net appreciation in fair value of investments	$	579,318
Interest on notes receivable from participants	$	8,549

- Investment values disclosed in Note 5;
- Investment information disclosed in Note 4; and
- Investments, as reflected in Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2012.

4. Investments

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

	Net Appreciation in Fair Value During 2012
Mutual Funds	$ 579,446
Money Market	(128)
	$ 579,318

Interest and dividends realized on the Plan's investments for the year ended December 31, 2012 was $40.

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows at December 31, 2012 and 2011:

December 31,	2012	2011
Lifestyle Growth	$ 350,847	$ 332,169
Retirement Living at 2030	$ 300,131	$ 328,004
Lifestyle Aggressive	$ 390,195	$ 324,813
Retirement Living at 2020	$ 405,339	$ 311,635
Retirement Living at 2025	$ 396,237	$ 264,768
Retirement Living at 2035	$ 405,254	$ 263,123
Retirement Living at 2040	$ 323,959	$ 254,371
Lifestyle Balanced	$ 360,445	$ 213,816
Retirement Living at 2045	$ 245,977	$ (a)

(a) Investment did not exceed 5% of net assets available for benefits at year-end indicated.

5. Fair Value Measurements

ASC 820, Fair Value Measurements establishes a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value.

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level l prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits as well as the general classification of such assets pursuant to the valuation hierarchy.

Money Market Funds

Money market funds are mutual funds that invest in short-term debt securities such as US Treasury Bills and commercial paper. The net asset value of the funds is based on calculations performed by John Hancock using the underlying investments. As such, the hierarchical level for the fair value inputs of these funds is based on the appropriate level of the investments contained in the fund. The underlying investments consist primarily of mutual funds with characteristics described in the mutual fund below. As a result, these funds are classified as Level 1.

Mutual Funds

Mutual funds represent investments with various investment managers. The fair value of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity securities and fixed income securities. Share held in mutual funds traded on national securities exchanges are valued at the net asset value as of December 31, 2012 and 2011 and are classified as Level 1.

Guaranteed Interest Funds

The guaranteed income funds are a stable value fund which invests in investment contracts backed by the general account of the issuer. The Plan deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. As these funds are non-benefit responsive, they are valued at fair value with no adjustments necessary. These investment are classified as Level 2. As of December 31, 2012, the guaranteed interest accounts have interest rates which range from 0.14% to 0.38%.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011:

6. Party-In-Interest Transactions

Certain Plan investments are made in pooled separate accounts which are managed by John Hancock USA. John Hancock USA is the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Additionally, notes receivable from participants are considered exempt party-in-interest transactions.

7. Tax Status

The Plan operates under a non-standardized adoption agreement in connection with a prototype plan. This prototype plan has obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC and therefore not subject to tax. The Plan has been amended since the prototype plan received the opinion letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of changes in net assets available for benefits.

9. Subsequent Events

Effective July 1, 2013, the Company changed the discretionary match to 10% per dollar contributed by employee, up to 6% of eligible wages. Additionally, officers of the Company will no longer receive any allocation of the discretionary match.

In preparation of its financial statements, the Plan considered subsequent events through August 14, 2013, which was the date the Plan's financial statements were available to be issued.
