A. Description of Plan:

The following description of the 401(k) Plan of Proctor & Proctor, Inc. (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan was established to provide retirement benefits for employees of Proctor & Proctor, Inc. (the "Company" or "Employer"). Eligible employees become participants in the Plan following a twelve consecutive month period beginning on the date of hire during which employee is credited with at least 1,000 hours of service and attainment of age 21, as defined in the Plan agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may make pre-tax contributions to the Plan based on annual compensation. Participants may not make voluntary after tax contributions to the Plan. Participants may contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions up to a discretionary percentage of employee compensation as determined by the employer. The Company may also make discretionary profit sharing contributions. Participants direct the investment of their contributions into the various investment options offered by the Plan. Total contributions, both participant and employer, including discretionary, are subject to the limits of the Internal Revenue Code (the "IRC") Section 415(c). Participant contributions and employer matching contributions of certain highly compensated participants may also be limited based on contribution nondiscrimination tests described in IRC Section 401(k) and 401(m).

Participant Accounts:

Each participant's account is credited with the participant's contribution, the Employer's contribution, and an allocation of the Plan's earnings and administrative expenses. The Plan's earnings are allocated according to participants' relative account balances.

Participant Loans:

Participants may borrow from their fund accounts a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

(continued)

A. **Description of Plan (continued):**

Vesting:

Participants are immediately vested in their pre-tax and rollover contributions plus actual earnings thereon. That portion of the participants' account is attributable to employer contributions vests ratably over six years of service. Participants' accounts become fully vested upon attainment of the normal retirement age, early retirement age upon retirement due to disability, upon death and upon termination of the Plan. Amounts forfeited by terminating participants may be used to reduce Employer contributions. Forfeited non-vested accounts for the years ended December 31, 2012 and 2011 were $12,956 and $29,045. During 2012, $16,090 of forfeitures were used to reduce the employer contribution.

Net assets available for Plan benefits include the accounts of active participants, as well as certain separated, vested, and retired participants who have elected to receive their benefits in installment payments. These participants share in the earnings of the investments funding such accounts.

Distributions to Participants:

Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments or as an annuity. The full value of an employee's account balance is payable at their normal retirement age, even if the employee continues to work, or the employee may defer payment until April 1 of the calendar year following the later of attainment of age 70 1/2 or retirement.

In certain hardship situations, as described in the Plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to required and/or optional deferred account balances and may not include any interest earned thereon.

B. **Summary of Accounting Policies:**

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition:

Investments in mutual funds are valued at market rates. Investments in pooled separate accounts and common collective trusts are reported at fair value as determined by accumulated unit values based on the market values of the underlying mutual fund investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade–date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

B. **Summary of Accounting Policies: (continued)**

Payment of Benefits:

Benefits are recorded when paid.

Notes Receivables from Participants:

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Uses of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan Administration Expense:

Certain administrative expenses of the Plan have been paid by the plan sponsor during the year ended December 31, 2012.

Date of Management's Review:

Subsequent events were evaluated through August 14, 2013, the date the financial statements were available to be issued.

C. **Plan Termination:**

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time. In the event of Plan termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant within 90 days of the termination.

D. **Investments:**

The following investments at December 31, 2012 and 2011 represent 5% or more of the Plan's net assets:

	2012	2011
SSGA Government Money MRKT FD	$ *	$ 132,585
SSGA S&P 500	364,762	278,405
Pimco Total Return	533,941	360,264
Oppenheimer Global Fund	201,878	164,889
Americent Livestrong 2025	161,823	137,897
Putnam High Yield Trust	172,009	167,412
Invesco Real Estate	139,939	*

* Less than 5%

D. Investments (continued):

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $206,683 as follows:

Mutual Funds	$ 138,763
Common collective trusts	67,920
	$ 206,683

E. Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FASB ASC topic 820 on *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The hierarchy is measured in three levels based on the reliability of the inputs:

Level 1 Valuations based on unadjusted quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.

Level 2 Valuations based on inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted prices for similar assets in active or non-active markets.

Level 3 Valuations derived through the use of valuation models or methodologies using significant unobservable inputs. Level 3 valuations incorporate certain assumptions and projections that are not observable in the market and as a result significant professional judgment may be used in determining the fair values.

E. Fair Value Measurements (continued):

The following are the major categories of assets measured at fair value on a recurring basis during the years ended December 31, 2012 and 2011:

F. Tax Status:

The Internal Revenue Service has determined and informed ADP, the prototype plan provider, by letter dated April 1, 2008, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has been amended since receiving the determination letter, ADP and the plan administrator believe that the prototype plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained by the relevant taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

G. Information Prepared and Certified By Custodian:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street, the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

H. Risk and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

I. Plan Amendments:

Effective April 1, 2012, the Plan was amended to state the minimum percentage of compensation a participant may elect to defer as 1% and a maximum of 89%. The Plan was also amended to reinstate the employer match at 25% of the first 4% of a participant's compensation, which is contributed by the participant as an elective deferral.

J. Related Party Transactions:

Certain plan investments are common collection trusts managed by State Street Global Advisors, the Plan custodian. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan are included in net apreciation in fair value of investments.

ADP is the Plan's recordkeeper, and as such these transactions qualify as party-in-interest transactions. Amounts paid to ADP by the Plan for processing fees were $575 for the year ended December 31, 2012.
