INDEPENDENT AUDITOR'S REPORT

Trustees
MicroTech, LLC 401(K) Profit Sharing Plan
Vienna, Virginia

We were engaged to audit the accompanying financial statements of the MicroTech, LLC 401(K) Profit Sharing Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2012, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company, the custodian/trustee of the Plan, except for comparing such information with the related information included in the 2012 financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2012, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2012 financial statements. Accordingly, we do not express an opinion on the 2012 financial statements.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Other Matter - Supplemental Schedules

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Other Matter - 2011 Financial Statements

The financial statements of the Plan as of December 31, 2011 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the custodian/trustee. Their report, dated July 20, 2012 indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodian were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations 2012

The form and content of the information included in the 2012 financial statements and supplemental schedules, other than that derived from the information certified by the custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - PLAN DESCRIPTION

The following description of the MicroTech, LLC (the Company) 401(K) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with 401(K) salary deferral provisions covering all employees of the Company who have attained the age of twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Eligible participants may contribute up to the maximum allowed by the Internal Revenue Code. In addition, the Plan allows for catch up contributions by employees age 50 years and older. Participants may also contribute amounts representing distributions from other qualified plans, as defined in the Plan's provisions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make discretionary profit sharing contributions to the Plan as determined by the Company's Board of Directors. For the year ended December 31, 2012, no discretionary profit sharing contributions were made.

The Company may also make matching contributions equal to a discretionary percentage, to be determined by the Company's Board of Directors. For the year ended December 31, 2012, the Company elected to match 50% of each employee's elective deferrals up to 6% of his or her eligible gross wages in the Plan year. For the year ended December 31, 2012, the Company made matching contributions of $368,705, net of forfeitures.

Participants direct the investment of their contributions, employer matching contributions, and discretionary profit sharing contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, pooled separate accounts and an insurance investment contract as investment options for participants.

Participant accounts

Each participant's account is credited with the participant's contribution, including amounts rolled over from other qualified plans, and allocations of the Company's matching and profit sharing contribution, if any, and Plan earnings and losses, less any charges, if applicable. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions, as well as actual earnings and losses thereon. Employer qualified non-elective contributions vest immediately while vesting of other employer contributions is based on years of continuous service. A participant is 100% vested after three years of credited service or in the event of death or total and permanent disability.

Payment of benefits

On termination of service due to death, disability, retirement or any other reason, a participant or beneficiary may elect, from one of several optional forms of distribution, to receive an amount equal to the value of participant's vested interest. Unless directed by the participant, payments cannot be deferred beyond the latest of the following:

1) Normal retirement date under the Plan or age 65, if earlier;
2) Termination of employment; or
3) Ten years of Plan participation

Participants may elect to withdraw from their accounts in the event of proven financial hardships.

Upon termination of service, if the vested value of a participant's account is less than $5,000, his or her account will be distributed in a single lump-sum payment. If the vested value of a participant's account exceeds $5,000, he or she may elect to receive either a lump-sum amount, substantially equal payments for a specified term, or elect to have all the distribution paid in a direct rollover to another qualified plan, or a combination of the above.

Notes receivable from participants

A participant may borrow from their vested account balance a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The notes are secured by the vested account balance in the participant's account, have a one to five-year permissible term and bear interest at rates ranging from 5.25% to 5.75%. These rates are consistent with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Forfeitures

At December 31, 2012 and 2011, forfeited accounts totaled $702 and $14, respectively. Forfeited accounts are first used to reduce Plan expenses, and then to reduce employer contributions. Remaining forfeitures are allocated to participants in proportion to each participant's compensation for the year. Forfeitures of $0 and $167,904 were used to reduce Plan expenses and employer contributions, respectively, during the year ended December 31, 2012.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The accompanying statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from estimated amounts.

Investment valuation and income recognition

Investments held by the Plan are reported at fair value except for its benefit responsive investment contract, which is valued at contract value (see Note 5). Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recognized principally on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions in accordance with the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

All administrative expenses incurred by the Plan are paid by the Plan, except to the extent paid by the Company. To the extent forfeitures are not used to pay administrative expenses of the Plan, such expenses are covered using participant account balances.

Subsequent events

The Plan Administrator has evaluated subsequent events through August 15, 2013, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

Recently adopted authoritative guidance

In May 2011, the Financial Accounting Standards Board (the FASB) issued guidance to amend the accounting and disclosure requirements on fair value measurements. The new guidance limits the highest-and-best-use measure to nonfinancial assets, permits certain financial assets and liabilities with offsetting positions in market or counterparty credit risks to be measured at a net basis, and provides guidance on the applicability of premiums and discounts. Additionally, the new guidance expands the disclosures on Level 3 inputs by requiring quantitative disclosure of the unobservable inputs and assumptions, as well as description of the valuation processes and the sensitivity of the fair value to changes in unobservable inputs. Other than expanding disclosures, adoption of this new guidance did not have a material impact on the accompanying financial statements.

Information Certified by Principal Life Insurance Company

The following is a summary of the Plan's investment information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included in the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Principal Life Insurance Company (Principal) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Principal that the information provided to the Plan Administrator by Principal related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following investments:

	2012	2011
Investments at fair value:		
Pooled separate accounts	$ 6,524,842	$ 4,926,317
Mutual funds	1,182,454	996,451
Guaranteed investment contract *	653,420	589,101

* Contract value at December 31, 2012 and 2011 is $687,810 and $620,107, respectively, as certified by Principal.

Principal also certified to the completeness and accuracy of $891,730 of net appreciation in fair value of investments and $41,219 of interest and dividends related to the aforementioned investments for the year ended December 31, 2012.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset between market participants in an orderly transaction on the measurement date. The market in which the reporting entity would sell the asset with the greatest volume and level of activity for the asset is known as the principal market. When no principal market exists, the most advantageous market is used. This is the market in which the reporting entity would sell the asset with the price that maximizes the amount that would be received or minimizes the amount that would be paid. Fair value is based on assumptions market participants would make in pricing the asset. Generally, fair value is based on observable quoted market prices or derived from observable market data when such market prices or data are available. When such prices or inputs are not available, the reporting entity should use valuation models.

The Plan's assets recorded at fair value are categorized based on the priority of the inputs used to measure fair value. The inputs used in measuring fair value are categorized into three levels, as follows:

- **Level 1** - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** - Inputs to the valuation methodology include

    - Quoted prices for similar assets in active markets;
    - Quoted prices for identical or similar assets in inactive markets;
    - Inputs other than quoted prices that are observable for the asset;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
    - If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.

- **Level 3** - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following section describes the valuation methodologies the Plan uses to measure its assets at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are held with the Securities Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Primarily valued at net asset value per share based on quoted market prices of underlying investments. There are no unfunded commitments on the pooled separate accounts and participants can redeem their equity at any time.

Guaranteed investment contract: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan's management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example duration, or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of net assets available for benefits.

Fair value of investments in entities that use net asset value (NAV)

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2012 and 2011:

	2012	2011
Pooled separate accounts		
Balanced (a)	$ 5,087,987	$ 3,946,058
Small/medium equity (b)	618,066	407,639
Fixed income (c)	407,437	308,370
Large U.S. equity (d)	286,064	179,272
International equity (e)	125,288	84,978
	$ 6,524,842	$ 4,926,317

(a) This asset class is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

(b) This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(c) This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and non U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options,

liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

(d) This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(e) This asset class is comprised of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the United States of America. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Value
Guaranteed Investment Contract	$ 653,420	Assumed proceeds at discontinuance	Composite Credit Rate	2.10%-2.65%

In estimating fair value of the investments classified as Level 3, Principal may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, management evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The significant unobservable inputs used in the fair value measurement of the Plan's Guaranteed Investment Contract are subject to market risks resulting from changes in the market value of its investments.

NOTE 5 - INVESTMENT CONTRACT

During 2009, the plan entered into a fully benefit-responsive investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $653,420 and $589,101, respectively. The crediting interest rate is based on a formula agreed upon by the issuer, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2012	2011
Average yields		
Based on actual earnings	2.10%	2.85%
Based on interest rate credited to participants	2.10%	2.85%

NOTE 6 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Principal. Principal is the custodian/trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments as they are paid through revenue sharing rather than a direct payment.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce or discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their entire account.

NOTE 8 - INCOME TAX STATUS

Effective March 1, 2009, the Plan adopted a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

In accordance with authoritative guidance issued by the FASB plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 - PROHIBITED TRANSACTIONS

During the year ended December 31, 2011, the Company inadvertently failed to segregate and remit in a timely manner certain participant contributions from its assets within the required time period as specified

by the United States Department of Labor (DOL) Reg. 2510.3012. Failure to segregate and remit contributions within the specified time period is a prohibited transaction according to the provisions of ERISA and the Internal Revenue Code. The Company did make the deposit shortly after the required time frame and remitted lost earnings associated with the late remittances in 2012.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.
