CRÈME DE LA CRÈME, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2012 AND 2011

A Description of Plan.

The following description of the Crème de la Crème, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

- 1 General.** The Plan was originally established in 2000 and terminated in 2001. On June 1, 2004, Crème de la Crème, Inc. (the Company) re-established the Plan. The Plan is a defined contribution plan covering all full-time employees of the Company, and its participating affiliates, who have one year of service, are age twenty-one or older, and have 1,000 hours of service, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- 2 Contributions.** Each year, participants may contribute from 1% to 15% of pretax annual compensation, as defined in the Plan, or the maximum allowable per the Internal Revenue Code (\$17,000 and \$16,500 for 2012 and 2011, respectively). Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may, at its sole discretion, contribute and allocate to each eligible participant's account, a percentage of the participant's elective deferrals. For the year ended December 31, 2012, no matching contributions were made by the Company; however, the Company pays substantially all administrative costs of the Plan. Contributions are subject to certain limitations.
- 3 Participant Accounts.** Each participant's account is credited the participant's contributions, the Company's contribution, as applicable, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- 4 Vesting.** Participants are immediately 100% vested in their contributions, including rollovers, and any Company contributions, as applicable.
- 5 Investment Options.** Participants direct investment of their contributions into various investment options offered by the Plan. As of December 31, 2012, participants were able to choose from 15 mutual funds and 7 common collective trust funds. Participants may change their investment options at any time.

CRÈME DE LA CRÈME, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED) **DECEMBER 31, 2012 AND 2011**

A Description of Plan. (Continued)

- 6 Notes Receivable from Participants.** Participants may borrow from their fund accounts a minimum of \$500, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, less the highest outstanding loan balance in the last 12 months. The terms of the notes shall not exceed 5 years unless the purpose of the note is for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The interest rate for a loan is the rate in effect in the month the loan is originated. The interest rate is the prime rate as published in the Wall Street Journal on the 14th of each month, plus 2 percentage points. The interest rate is effective for any loan processed as of the 16th day of the month. Principal and interest is paid ratably through payroll deductions.
- 7 Payment of Benefits.** Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The participant may also transfer his or her assets to another qualified plan or if the participant's assets exceed \$1,000, may leave those assets in the Plan.

B Summary of Accounting Policies.

- 1 Basis of Accounting.** The financial statements of the Plan are prepared using the accrual method of accounting.
- 2 Estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.
- 3 Investment Valuation and Income Recognition.** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

DECEMBER 31, 2012 AND 2011

B Summary of Accounting Policies. (Continued)

- 4 Notes Receivable from Participants.** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. Delinquent loans may be reclassified as benefits paid to participants based upon the terms of the Plan documents.
- 5 Payment of Benefits.** Benefits are recorded when paid.
- 6 Administrative Expenses.** Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Loan administration fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.
- 7 Subsequent Events.** In preparing its financial statements, Plan management has evaluated subsequent events through August 1, 2013, which is the date the financial statements were available to be issued. The Company has not identified any material subsequent events that require reporting or disclosure.

C Investments and Information Prepared and Certified by Trustee (Unaudited).

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable, as shown in the Statement of Net Assets Available for Benefits.
- Net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits.
- The schedule of assets held at end of year included as supplemental information.

This information has not been audited by the Plan's independent auditors.

D Fair Value Measurements.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, are described as follows:

Level 1 Fair Value Measurements.

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements.

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

On the following page is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

DECEMBER 31, 2012 AND 2011

D Fair Value Measurements. (Continued)

Registered investment companies: Registered investment companies invest primarily in mutual funds, which are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These mutual funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: The Plan's common/collective trust holdings (The SSGA Funds) are designed to provide current and stable income, while maintaining a constant net asset value of \$1.00 per share, by investing primarily in contracts issued by insurance companies, banks or other financial institutions, including investment contracts backed by high-quality fixed income securities. The fair value of these Funds has been estimated based on the fair value of the underlying investment contracts in these Funds as reported by the issuer of the Funds. There were no redemption restrictions on these Funds.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

E Parties-in-Interest and Related-Party Transactions.

Certain Plan investments during the year were invested in funds managed by the trustee. Therefore, these transactions qualify as allowable party-in-interest transactions.

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment as they are paid through revenue sharing rather than a direct payment. The Company pays directly any other fees related to the Plan's operations.

CRÈME DE LA CRÈME, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2012 AND 2011

F Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

G Tax Status.

The Plan utilizes the Automatic Data Processing Prototype 401(K) and Profit Sharing Plan, a prototype plan. The prototype plan sponsor obtained a favorable determination letter dated March 31, 2008; however, such letter was only applicable to them. The plan administrator has adopted all plan provisions within the prototype document. The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

H Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
