NUSSBAUM TRANSPORTATION SERVICES, INC. 401(k) PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Nussbaum Transportation Services, Inc. 401(k) Plan & Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Nussbaum Transportation Services, Inc. as of his or her date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of their annual compensation, subject to certain Internal Revenue Code limitations. Participants may begin their contributions and make modifications to their contributions at any time during the year and terminate their contributions at their discretion. Nussbaum Transportation Services, Inc. may make matching contributions up to 50% of the amount of an eligible employee's salary deferral, up to 4% of his or her total compensation. Nussbaum Transportation Services, Inc. may also make a discretionary contribution that is allocated to eligible employees based upon total compensation. Employer contributions for the years ended December 31, 2012 and 2011, were $105,393 and $71,841, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution (if any) and an allocation of Plan earnings. Allocations are based on the performance of the participants' individual investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on covered years of service. A covered year of service is any twelve month period ending on the Plan year end. A participant becomes 20% vested after one year of service and vests 20% each year thereafter until 100% vested after five covered years of service. Additionally, participants become 100% vested upon early retirement age, death or disability.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant account may be distributed in a lump sum payment.

Participant Loans

The Plan does not allow participant loans.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $12,015 and $3,741, respectively. These accounts may be used to reduce future employer contributions or pay administrative expenses of the Plan. Employer contributions were reduced by $9,241 and $2,550 from forfeited nonvested accounts in 2012 and 2011, respectively.

Plan Termination

Although it has not expressed any intent to do so, Nussbaum Transportation Services, Inc. has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

Tax Status

Effective January 1, 2010, the Plan was amended and restated and has adopted the Sungard Corbel LLC Volume Submitter Profit Sharing Plan with CODA. The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since its latest determination letter. It is the belief of the Trustees and the Plan's attorney that the Plan is in compliance with all applicable laws and regulations. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan files a Federal informational return annually. Management believes the returns are no longer subject to examination for years prior to 2009.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Valuation

The Plan has entered into a deposit contract with John Hancock Life Insurance Company. As directed by the participants, the funds are invested in either a pooled separate account or in a general fixed account. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through August 12, 2013, the date which the financial statements were available to be issued, and has determined there are no subsequent events that require recognition or disclosure in these financial statements.

NOTE 3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The pooled separate account is credited with actual earnings on the underlying investments (units of participation in mutual funds). The general fixed account is credited with a guaranteed minimum interest rate under the terms of the guaranteed investment contract. Both accounts are charged for Plan withdrawals and administrative expenses incurred by John Hancock.

Striegel Knobloch & Company, L.L.C.	Third party administrator	Administrative fees paid by the Plan sponsor
Nussbaum Transportation Services, Inc.	Plan sponsor	Contributions made of $105,393 and $71,841 for 2012 and 2011, respectively

NOTE 8. FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (FASB ASC Topic 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012, from prior year.

Separate accounts with insurance companies: Valued daily based on the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by the fund.

Guaranteed investment contract: Contract is not fully benefit responsive and valued at the amount of actual contributions received (principal) plus a compound rate of interest based on the term of the contract. The rate is established on the first day of each calendar month.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Deposits with insurance companies				
Pooled separate accounts				
Conservative funds	$ 451,502	$ 451,502	$ -	$ -
