The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service, retirement or permanent disability, participants may elect to receive a lump-sum payment equal to their vested account balance or a rollover to another qualified retirement plan.

Forfeited Accounts

When an employee termination occurs, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures may be used to pay plan expenses or to reduce the Company's future contributions.

Participant Loans

The plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence in which the loan may not extend beyond 10 years from the date of the loan) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Notes to Financial Statements

December 31, 2012 and 2011

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants may be reclassified as distributions based upon the terms of the plan document.

Plan Tax Status

The Plan operates under a standardized adoption agreement in connection with a volume submitter profit-sharing plan and trust sponsored by Fidelity Management & Research Company. This volume submitter plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the volume submitter profit-sharing plan constitutes a qualified plan under Section 401 of the Internal Revenue Code and that the related trust was tax-exempt as of the financial statement date.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2009.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Investments

The Plan's investments are held by Fidelity. The fair value of the Plan's investments at the end of the year is as follows:

	2012	2011
Money market funds	$ 81,138	$ 82,698
Mutual funds	1,159,331	998,425
	$ 1,240,469	$ 1,081,123

The Plan's investments (including investments bought, sold and held during the year) appreciated in fair value as follows:

	2012	2011
Mutual funds	$ 88,411	$ 14,910

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

	2012	2011
Fidelity Freedom 2015 Fund	$ 191,808	N/A
Fidelity Contrafund	$ 167,737	$ 174,885
Oakmark Equity & Income I	$ 148,382	$ 117,315
Spartan 500 Index Fund	$ 136,760	$ 107,711
Fidelity Retirement Money Market	$ 81,138	$ 82,698
Fidelity Government Income Fund	$ 65,620	$ 63,982
Metropolitan West Total Return Bond M	N/A	$ 56,664
Fidelity Freedom 2020 Fund	N/A	$ 57,299

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 securities of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the plan trustee. The Company provides certain administrative services at no cost to the Plan.

Certain plan investments are shares of mutual funds managed by Fidelity, the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

Note 6: Plan Amendment

Effective November 1, 2011, the Plan was amended and restated (Plan Amendment) with Fidelity being appointed as the trustee of the Plan. Plan assets transferred to the new Fidelity were transferred into funds different to those offered by the previous custodian. The conversion initiated a “Black Out” period beginning October 27, 2011, and continued through December 9, 2011. During this period, funds could not be applied to the employee-selected funds with the Fidelity or withdrawn from the Plan until Fidelity had time to accurately complete the conversion. During this period, employee contributions continued to be made through payroll deductions and the contributions were deposited and held in a fund until the completion of the Black Out period. At the end of the Black Out period, these funds were transferred to Fidelity and invested in funds as requested by each participant.

Note 7: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions to the Plan, contributions of $3,604 were not remitted within the required period for the year ended December 31, 2012.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through August 28, 2013, which is the date the financial statements were available to be issued.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 securities of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the plan trustee. The Company provides certain administrative services at no cost to the Plan.

Certain plan investments are shares of mutual funds managed by Fidelity, the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

Note 6: Plan Amendment

Effective November 1, 2011, the Plan was amended and restated (Plan Amendment) with Fidelity being appointed as the trustee of the Plan. Plan assets transferred to the new Fidelity were transferred into funds different to those offered by the previous custodian. The conversion initiated a “Black Out” period beginning October 27, 2011, and continued through December 9, 2011. During this period, funds could not be applied to the employee-selected funds with the Fidelity or withdrawn from the Plan until Fidelity had time to accurately complete the conversion. During this period, employee contributions continued to be made through payroll deductions and the contributions were deposited and held in a fund until the completion of the Black Out period. At the end of the Black Out period, these funds were transferred to Fidelity and invested in funds as requested by each participant.

Note 7: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions to the Plan, contributions of $3,604 were not remitted within the required period for the year ended December 31, 2012.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through August 28, 2013, which is the date the financial statements were available to be issued.
