1 - DESCRIPTION OF PLAN

GENERAL

The Exponent Technologies, Inc. 401(k) Savings Plan (the "Plan") was established on February 1, 2002 and is a defined contribution plan available to all eligible employees of Exponent Technologies, Inc. (the "Company"). Principal Trust Company and Principal Life Insurance Company are the Plan's custodian (collectively the "Custodian") as of December 31, 2012 and 2011 respectively. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The following descriptions provide only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

PARTICIPANT ACCOUNTS

Employees may enroll in the Plan as an active participant on January 1, April 1, July 1, or October 1 on or after becoming an employee of the Company. Effective August 29, 2012, employees become an active participant at date of hire and are eligible to participant in the Plan. Subject to certain limitations on annual additions, each participant's account is credited with employee salary deferrals, Company matching and discretionary contributions, if applicable, an allocation of Plan earnings based on the participant's investment elections, and charged for certain administrative expenses, as defined. Participants may modify investment elections and transfer existing account balances on a quarterly basis.

CONTRIBUTIONS

The Plan is funded through employee elective deferrals and Company contributions. A participant may elect to contribute a portion of his or her pretax compensation (including bonuses or payment for any extraordinary services) from 1% to the maximum limitations imposed by the Internal Revenue Code (the "IRC") ($17,000 for the calendar year ended 2012). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($5,500 for the calendar year ended 2012). Rollover contributions representing distributions from other qualified defined benefit or contribution plans are allowed and may be made prior to meeting the eligibility requirements for participation in the Plan.

The Plan also allows for employer discretionary matching and profit sharing contributions in amounts to be determined by the Company. For 2012, the Company did not make discretionary contributions to the Plan.

1 - DESCRIPTION OF PLAN (CONTINUED)

DISTRIBUTIONS TO PARTICIPANTS

Upon normal retirement age, death, disability, or termination, a participant's benefits are payable in a lump-sum amount equal to 100% of the participant's vested account balance as of the valuation date of such event. To the extent a terminated participant's account balance exceeds $5,000, the participant's account balance is allowed to remain in the Plan and continues to earn investment income on the account balance.

A participant may receive a hardship distribution from their vested account if the distribution is: (1) on account of uninsured medical expenses incurred by the participant, their spouse or dependents; (2) for the purchase (excluding mortgage payments) of a principal residence of the participant; (3) for the payment of post-secondary tuition expenses incurred by the participant, their spouse or dependents; (4) needed to prevent eviction of the participant from his or her principal residence or foreclosure upon the mortgage of the participant's principal residence; or (5) any other distribution which is deemed by the IRC to be made on account of immediate and heavy financial need.

INVESTMENT OPTIONS

The Plan provides participants the ability to direct their contributions and employer discretionary contributions into a variety of investment options, including pooled separate accounts, mutual funds of registered investment companies and guaranteed investment contracts, in accordance with participant investment elections and the provisions of the trust agreement.

VESTING

Participants are immediately vested in their elective contributions, employer discretionary matching and profit sharing contributions, and employee rollover contributions, plus actual earnings thereon.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes are available to all participants and are limited to a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of the vested account balance, subject to certain restrictions, as defined. The notes are secured by the balance in the participant's account and bear interest based on the prime rate reported in the *Wall Street Journal* plus 1% or on a rate determined reasonable by the Plan Administrator. Interest rates ranged from 5.25% to 9.25% as of December 31, 2012 and 5.25% to 9.75% as of December 31, 2011. Note terms range from 1-5 years, unless for the purchase of a primary residence in which case notes may not exceed 30 years. Maturities ranged from January 2013 through November 2017 as of December 31, 2012 and from April 2012 through November 2016 as of December 31, 2011. Principal and interest are paid ratably through payroll deductions and are reinvested in the participant accounts according to individual investment elections.

1 - DESCRIPTION OF PLAN (CONTINUED)

ADMINISTRATIVE EXPENSES

Distribution and note fees are charged directly to the requesting participant's account. All other costs and expenses of the Plan and its administration, including all fees and expenses of the Custodian, are paid by the Company.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, each of the participants will have a non-forfeitable, 100% vested interest in his or her account balance subject to payment of liquidation costs and expenses.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

ESTIMATES AND ASSUMPTIONS

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

BENEFITS

Benefits are recorded when paid.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent participant notes are reclassified as distributions based on the terms of the Plan document.

3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3 – FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value:

Guaranteed investment contracts: Valued at fair value based on the amount plan participants would receive if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement. The fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed the credited rates.

Pooled separate accounts: Valued at the net asset value ("NAV"), as determined by the Custodian, of shares held by the Plan at year end. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the report NAV.

Mutual funds of registered investment companies: Valued at the net asset value ("NAV") or quoted market prices of shares held by the plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In May 2011, the FASB issued ASU No. 2011-04 "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS" ("ASU 2011-04"). ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 will require reporting entities to disclose quantitative information about the unobservable inputs used in the fair value measurements categorized within Level 3 of the fair value hierarchy. In addition, ASU 2011-4 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. ASU 2011-14 did not have a material impact on the financial statements.

3 – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

4 - TAX STATUS OF THE PLAN

The Plan is a prototype plan under the "Principal Financial Group Prototype for Savings Plans" ("Principal Plan"). The Internal Revenue Service has determined and informed the Principal Plan by letter dated March 31, 2008, that the prototype plan is designed in accordance with applicable sections of IRC. Although the Plan has been amended since receiving the determining letter, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2009.

5 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and guaranteed investment contracts managed by Principal Life Insurance Company. Principal Trust Company and Principal Life Insurance Company are the Custodians of the Plan; and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for various administrative expenses, including investment management services, amounted to $711 for the year ended December 31, 2012.

6 - FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by Principal Trust Company and Principal Life Insurance Company, the custodians as of December 31, 2012 and 2011, and for the year ended December 31, 2012, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule. This information consists of the following:

8 – GUARANTEED INVESTMENT CONTRACTS

The Plan provides an investment option in non-benefit-responsive guaranteed investment contracts issued by the Custodian. Contributions and transfers allocated to this option will be credited interest at a guaranteed interest rate declared by the Custodian over the guarantee period, as defined. Interest is credited to the investment daily and compounded annually on the last day of the deposit year, as defined. Guaranteed interest rates for new allocations are subject to change daily, and each amount allocated to the guaranteed investment contracts will earn interest based on the assigned guaranteed interest rate in effect for the date that the amount is allocated to the guaranteed investment contracts. For the year ended December 31, 2012, the guaranteed investment contracts bear interest rates ranging from .64% to 1.03% and mature on December 31, 2012 through December 31, 2016. The fair value and contract value of the guaranteed investment contracts at December 31, 2012 was $257,450 and $259,240, respectively. As of December 31, 2011, the fair value and contract value of the guaranteed investment contracts was $87,646 and $87,715, respectively.

9 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in pooled separate accounts, mutual funds of registered investment companies, and guaranteed investment contracts. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

There are no material reconciling items between the net assets reported in the audited financial statements and the Schedule H of the Form 5500 for the year ended December 31, 2012.

11 – SUBSEQUENT EVENTS

In accordance with FASB ASC 855, "Subsequent Events", the Company has evaluated events or transactions occurring after December 31, 2012, the Statement of Net Assets Available for Benefits date, through August 28, 2013, the date the financial statements were ready to be issued.
