Note 1 - Description of Plan

The following description of Screenvision 401(K) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the summary plan description and other publications previously submitted to them for more complete information.

General
The Plan is a defined contribution plan, established January 1, 1994, covering all employees of Screenvision Cinema Network, LLC and Screenvision Direct Inc. (collectively the "Employer" or "Company") who have completed six months of service and attained the age of 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective October 1, 2006, the Plan became a prototype 401(k) defined contribution plan of Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan's investment assets. Effective July 8, 2009, the Plan was restated to a volume submitter defined contribution plan. Effective March 1, 2011 the Plan changed its trustee from Fidelity to the Reliance Trust Company ("Reliance").

Contributions
Participants may elect to voluntarily contribute to the Plan from 1 to 60 percent (in full percentage points) of their "before-tax" earnings, up to a maximum in accordance with Section 415 (c) of the Internal Revenue Code (the "IRC") and adjusted annually for inflation thereafter. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan accepts Roth Elective Deferrals made on behalf of participants. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan. The Employer may elect to contribute up to 33 percent of the first 5 percent of base compensation that a participant contributes to the Plan. The Employer can also make discretionary contributions. During the years ended December 31, 2012 and 2011, the Employer made $192,907 and $191,981 profit sharing contributions, respectively. Contributions are subject to certain Internal Revenue Service limitations.

Participant Accounts
Each participant's account is credited with the participant's contribution and an allocation of (a) the Employer's contribution, if any, (b) plan earnings, and (c) forfeitures of terminated participants' non-vested accounts and charged with an allocation of plan losses and expenses. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants immediately vest 100 percent in their voluntary contributions and earnings thereon. Employer discretionary contributions will vest on the basis of the participant's number of years of service. A participant becomes 20 percent vested after two years of service, 40 percent vested after three years of service, 60 percent vested after four years of service, 80 percent vested after five years of service and 100 percent vested after six years of service. However, if an active participant dies or becomes totally and permanently disabled prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from 1-5 years or a longer repayment period allowed by the administrator for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 8.50% which are commensurate with local prevailing rates. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 1 - Description of Plan (continued)

Payment of Benefits
On termination of services due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments not to exceed the life expectancy of the participant. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures
Forfeitures of non-vested benefits are used to reduce plan expenses and employer contributions. Forfeited non-vested accounts totaled $80,416 and $99,425 at December 31, 2012 and 2011, respectively. For the years ended December 31, 2012 and 2011, forfeitures of $95,784 and $67,589, respectively, were used to reduce Plan expenses and Employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are included in the financial statements at December 31, 2012 and 2011 at their fair values as reported to the Plan by Reliance. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Employer determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2012 and 2011. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid by the Plan.

Administrative Expenses
The Plan's expenses are paid by either the Plan or the Company as provided by the plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements in net assets available for benefits. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note 2- Summary of Significant Accounting Policies (continued)

Subsequent Events
The Plan has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through August 20, 2013, the date the financial statements were available to be issued.

Note 3 - Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statement and supplemental schedule, including investments and notes receivable from participants held at December 31, 2012 and 2011, and net appreciation (depreciation) in the fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company and Fidelity Management Trust Company (the trustees of the Plan).

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2012 and 2011.

Investments that represent 5% or more of the Plan's net assets are separately identified below:

	December 31,	
Fund Name	2012	2011
Amercent Livestrong 2020 - A 69,737 and 66,518 shares, respectively	$ 751,067	$ 661,186
Amercent Livestrong 2030 - A 93,548 and 87,250 shares, respectively	993,477	842,832
Amercent Livestrong 2040 - A 86,742 and 76,727 shares, respectively	922,935	729,678
Amercent Livestrong 2025 - A 64,934 and 61,340 shares, respectively	823,363	711,548
Amercent Livestrong 2045 - A 39,117 and 45,039 shares, respectively	519,468	532,360
Amercent Livestrong 2035 - A 66,975 and 65,300 shares, respectively	880,056	774,464
PIMCO Total Return Fund - A 37,396 and 48,362 shares, respectively	420,330	525,693

For the years ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value by $769,359 and ($74,130), respectively, which was attributable to mutual funds.

Note 4 - Fair Value Measurements

The framework for measuring fair value establishes a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Note 4 - Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's recurring investments at fair value at December 31, 2012 and 2011:

	Recurring Investments at Fair Value at December 31, 2012			
	Level 1	Level 2	Level 3	Total

Aggressive growth	1,020,035	-	-	1,020,035
	$ 8,190,965	$ -	$ -	$ 8,190,965

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 6 - Tax Status

The Company adopted a ADP Prototype Plan which received a favorable opinion letter dated March 31, 2008, in which the Internal Revenue Service (IRS) stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Related Party Transactions

The investments owned by the Plan are currently managed by Reliance and were managed by Fidelity, through March 2011, the trustees as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid by revenue sharing, rather than direct payment.

As described in Note 2, the Plan made direct payments to the third party administrator of $12,667 and $15,804 for the years ended December 31, 2012 and 2011 respectively; which was not covered by revenue sharing. The Employer pays directly any other fees related to the Plan's operations.
