INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Shims Bargain, Inc. 401(k) Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Shims Bargain, Inc. 401(k) Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, the related statement of changes in net assets available for benefits for the year ended December 31, 2012 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Transamerica Financial Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

SHIMS BARGAIN, INC. 401(k) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 and 2011

1. DESCRIPTION OF PLAN

The following description of the Shims Bargain, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Shims Bargain, Inc. and The Inc. (collectively the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. All employees having attained age 21 and completed 1 year of service are eligible to participate in the Plan on the first day of the subsequent calendar quarter.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute up to 100% of eligible pre-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

During 2012, the Plan operated as a safe harbor plan and the Company matched 100% of the participant's deferral up to the first 3% of compensation, and 50% of the participant's deferral up to the next 2% of compensation. The Company may also make discretionary profit sharing contributions as determined each year by resolution of the Company's Board of Directors. Participants must be actively employed on the last day of the Plan year to share in the discretionary profit sharing contributions. For the year ended December 31, 2012, the Company did not make any discretionary profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions and allocations of (a) the Company's profit sharing contributions, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances exceeding $1,000, but not exceeding $5,000, may be rolled into an Individual Retirement Account. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions and the Company's qualified safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions plus actual earnings thereon is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to restore a participant's account upon re-hire, reduce future Company contributions or to pay for Plan expenses. As of December 31, 2012 and 2011, the amount of available forfeitures totaled $331 for both years.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence.

1. DESCRIPTION OF PLAN – (Continued)

Notes Receivable from Participants – (Continued)

The loans are secured by the balance in the participant's account and generally bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

As described in guidance issued by the Financial Accounting Standards Board (the FASB), on reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The guidance requires the statements of net assets available for benefits to present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. As of December 31, 2012 and 2011, the custodian of the Plan has represented that the fair value of the guaranteed investment contract is equal to the contract value as the crediting interest rate is reset on a semi-annual basis. The crediting interest rates at December 31, 2012 and 2011 are comparable to other similar investment contracts. Further, the plan sponsor has no intention of terminating the Plan or the guaranteed investment contract investment option, thus contract termination charges are not required to be considered when determining fair value. Therefore, as of December 31, 2012 and 2011, there is no adjustment from fair value to contract value for the fully benefit-responsive investment contract in the statements of net assets available for benefits. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end. The pooled separate accounts are classified within level 2 of the valuation hierarchy as the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

3. FAIR VALUE MEASUREMENTS – (Continued)

Guaranteed investment contract: The fair value of the guaranteed investment contract (GIC) has been determined to be equivalent to the contractual value of the underlying guaranteed investment contracts, since the purchases and sales in the GIC are transacted at contract value. The asset is classified within level 3 of the valuation hierarchy because the asset value is not based on a quoted active market and is valued based on unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Description	Total	Level 1	Level 2	Level 3
December 31, 2012				
Pooled separate accounts:				
Large/Mid equity	$ 268,273	$ -	$ 268,273	$ -

Total investments at fair value	$ 2,247,363	$ -	$ 1,859,330	$ 388,033

3. FAIR VALUE MEASUREMENTS – (Continued)

In regards to the classification of investment options offered by the Plan, there were no reclassifications between Levels 1, 2 and 3 during the year ended December 31, 2012. The nature, risks and investment objectives of the Level 2 investment category described above, for which fair value is estimated at NAV, can be found in the Plan's enrollment literature. Various investments are subject to minimal restrictions on the frequency and timing of transfers, which can also be found in the Plan's enrollment literature. As of December 31, 2012, there were no unfunded commitments associated with any of these investments.

The following table sets forth a summary of changes in the fair value of the Plan's guaranteed investment contract for the year ended December 31, 2012.

Balance, beginning of year	$ 388,033
Net appreciation	923
Contributions	1,050,724
Distributions	(1,198,944)
Administrative expenses	(617)
Balance, end of year	$ 240,119

The following table represents the Plan's level 3 investment, the valuation techniques used to measure the fair value of the investment, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	*Fair Value*	*Principal Valuation Method*	*Unobservable Inputs*	*Range of Significant Unobservable Inputs*	*Weighted Average*
Stable Value Compass Fund	$ 240,119	Discounted Cash Flow	Various Assumptions	(A)	(A)

(A) Fair value is determined primarily using an income approach. The parameters used for discounting in the calculation were estimated using the perspective of the principal market which consists of similar contracts. Additional assumptions were made regarding participant behavior and product management actions.

4. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011:

	2012
American Century Livestrong 2015 Portfolio	$ 420,309

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Financial Life Insurance Company (Transamerica), the custodian of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year), as of December 31, 2012 and 2011, and for the year ended December 31, 2012.

	2012	2011
Pooled separate accounts	$ 2,535,611	$ 1,859,330
Guaranteed investment contract	240,119	388,033
Net appreciation in fair value of investments	241,185	N/A
Other income	103	N/A

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

As of December 31, 2012 and 2011, the Plan held assets of $240,119 and $388,033, respectively, in a benefit-responsive investment contract with Transamerica. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Firm or other Firm events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2012	2011
Based on actual earnings	0.57%	1.20%
Based on interest rate credited to participants	0.55%	1.19%

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Transamerica, the custodian and recordkeeper of the Plan. The Plan paid $14,725 in contract administration fees to Transamerica during 2012. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

8. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The plan has since been amended and restated. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
